BE IT RESOLVED by the Council of the City of San Diego, as follows:

That the City Manager of said City be, and he is hereby authorized and empowered to enter into an agreement amending the contract with Mr. William Lines, so as to extend the time of said contract from 14 days to 38 days, and to increase the cost an additional \$800.00; and to include in the contractual services an investigation of the rates charged the City by the San Diego Gas & Electric Company, and also an investigation as to whether or not the City is collecting proper franchise tax payments from the San Diego Electric Railway Company.

RESOLUTION NO. 85384

WHEREAS, there is now pending in the Superior Court of the County of San Diego certain litigation, to which The City of San Diego is a party, involving the waters of the Tia Juana River Basin, located in the southern part of this County, in which litigation the California Water & Telephone Company, a corporation, seeks to secure the surplus waters thereof for the purpose of supplying consumers of said company residing in the City of Coronado and in the area of said County south of Coronado Heights and along the Highland Reservoir pipe line, which area is sometimes referred to and known as the South Bay Area; and

WHEREAS, The City of San Diego is under certain contractual obligations to supply water to said company for the use and purpose only of supplying the inhabitants of said City of Coronado and of the South Bay Area with water obtained from the Otay-Barrett-Morena Water System belonging to said City of San Diego; and

WHEREAS, this Council believes that the needs of the inhabitants of this City are such as to require that all of the waters which now are or which in the future will be available in the Otay-Barrett-Morena Water System are needed exclusively for the use of The City of San Diego and its inhabitants; and

WHEREAS, this Council is informed and advised, and has reason to believe that such is true, that since the trial of said action above described certain evidence and facts have been discovered and found which justify the conclusion that there now exists and is available in said Tia Juana River Basin for use by the inhabitants of said City of Coronado and of the South Bay Area water in excess of the amount of water actually needed by the ranchers and landowners of said basin, which surplus water may be taken by said water company and supplied to meet the demands of the water consumers residing in said City of Coronado and within the said South Bay Area; and

WHEREAS, this Council is further of the opinion that to the extent that said water company secures and supplies the needs of said consumers of said City of Coronado and said South Bay Area with surplus waters of said Tia Juana River Basin, The City of San Diego will be relieved of its contractual burden of supplying that amount of water from the said Otay-Barrett-Morena System, and that, therefore, it will subserve and be to the best interests of The City of San Diego and its inhabitants to aid and assist in securing evidence and presenting the same to the Court as to such surplus water supply in said Tia Juana River Basin; NOW, THEREFORE,

BE IT RESOLVED By the Council of The City of San Diego, as follows:

That the City Attorney of The City of San Diego be, and he is hereby, authorized and directed to institute, carry on, conduct and prosecute in that certain litigation now pending in the Superior Court of the County of San Diego, in Case No. 85482, entitled, "Marvin L. Allen, et al., plaintiffs, vs. California Water & Telephone Company, a corporation, et al., defendants," such proceedings as he shall deem necessary and advisable which will result in establishing factually and legally the existence of a surplus supply of water in the Tia Juana River Basin out of which may be made legally available a supply of water for the use of the inhabitants of the City of Coronado and the inhabitants of the area of land in said County known as the South Bay Area; and

BE IT FURTHER RESOLVED, that the City Manager be, and he is hereby directed to aid and assist in securing and furnishing such information and evidence as is available or which may be secured to accomplish such purpose.

PROPOSED AMENDMENTS TO THE CHARTER OF THE CITY OF
SAN DIEGO.

WHEREAS, a Municipal Special Election was held in The City of San Diego, California, on Tuesday, the 11th day of March, 1947, in pursuance of the provisions of Section 8 of Article XI of the Constitution of the State of California, and of the provisions of Ordinance No. 3351 (New Series) of the ordinances of said City, entitled, "An Ordinance calling a Municipal Special Election in The City of San Diego, California, to be held on Tuesday, March 11, 1947, and proposing and submitting to the qualified voters of said City at said Municipal Special Election certain propositions to amend the Charter of The City of San Diego; and consolidating said Municipal Special Election with the Municipal Primary Election to be held in said City on March 11, 1947," passed and adopted February 14, 1947; and

WHEREAS, at said municipal special election there were submitted to the qualified voters of said City, in pursuance of the provisions of said Ordinance No. 3351 (New Series), the following propositions to amend the Charter of The City of San Diego, to-wit:

PROPOSITION NO. 1:

Amend Section 53 of the Charter of The City of San Diego, so as to read as follows:

"Section 53. WATER DEPARTMENT. There shall be included in the administrative organization of the City a separate department to be known as the Water Department. The Manager shall appoint a Director of the Water Department who shall have supervision of the operations of the Water Department. The Department shall consist of such divisions as may be created by ordinance. The financial information and records on which the accounts are to be kept shall be established and maintained by the Water Department Accountant, in accordance with methods set forth in Section 109 of the City Charter.

All revenues of the Water Department shall be deposited in a Water Department Fund. The Manager shall include in the annual budget the estimated expenditure and reserve requirements of the Water Department Fund. The City Council using such estimates as a basis shall include in the annual appropriation ordinance for the Water Department Fund provision for operating and maintenance costs; replacements, betterments, and expansion of facilities; payments necessary for obtaining water from the Colorado River; any other contractual obligations; reserves for future expansion of water utility plant; reserves for future water purchases. In addition thereto, the Council shall levy annually a tax sufficient to provide for the redemption of municipal bonds heretofore or hereafter issued for water purposes, together with a sum sufficient to pay the interest thereon. The amount of money necessary to be raised each year for the redemption of water bonds and the payment of interest thereon and for the retirement of any other funded or contractual indebtedness incurred by purchase or otherwise for the development, conservation or distribution of water shall be charged annually against the Water Department on the accounts of the City. Only after providing the requirements for Water Department purposes as set forth above may the City Council in the annual appropriation ordinance provide for the transfer to the General Fund of the City any excess revenues accruing to the Water Department Fund. Such revenue transferred to the General Fund shall be available thereafter for use for any legal City purpose. All such surplus funds so transferred shall be credited on the accounts of the City as a reimbursement credit for the monies paid by the City each year for the redemption of Water Bonds and the payment of interest thereon, costs of services and facilities furnished to the Water Department by other City departments and funds, and an amount equal to the estimated loss in taxation which would be paid to the City by the Water Utility if it were not municipally owned, together with a reasonable profit on the City's investment in the water system.

The Manager shall appoint an Advisory Commission of five citizens who have knowledge of water development problems and who shall not serve longer than five years without being reappointed, whose duties shall be as prescribed in Section 43 of this Charter.

The Council shall have power to employ special counsel for the purpose of advising and representing the City in all matters, proceedings and things relating to or concerning the development, impounding and distribution of water."

PROPOSITION NO. 2.

Amend Section 55 of the Charter of The City of San Diego, so as to read as follows:

"Section 55. PARK AND RECREATION DEPARTMENT. The Park and Recreation Department shall consist of the Park Division, the Recreation Division, and such other divisions as the Council may create by ordinance.

The Manager shall appoint a Park and Recreation Director who shall appoint a Superintendent of Parks and a Superintendent of Recreation and such other subordinates and employees as may be authorized.

The Park and Recreation Director shall have the control and management of the parks, parkways, plazas, beaches, cemeteries, street trees, landscaping of city-owned property, golf courses, playgrounds, recreation centers, recreation camps, and recreation activities held on any city playgrounds, parks, beaches and piers which may be owned, controlled or operated by the City.

The City Council shall by ordinance adopt regulations for the proper use and protection of said work property, cemeteries, playgrounds, and recreation facilities and provide penalties for violations thereof. The Manager is charged with the enforcement of such regulations.

All real property heretofore or hereafter designated or set aside for park, recreation or cemetery purposes shall not be used for any but park, recreation or cemetery purposes without such changed use or purpose having been first authorized or permitted in such manner as is prescribed by the laws of the State of California in such cases and until such changed use or purpose is first authorized or ratified by a vote of two-thirds of the qualified electors of the City voting at an election for that purpose. Provided, however, that whenever the Council deems it to be for the best interests of the City, the Council may authorize the City Manager to enter into leases or contracts or let concessions, upon such terms and conditions as the Council shall prescribe for the use and operation of city-owned equipment and facilities of a recreational, cultural or educational character located in the park, cemetery or recreation property of the City, together with buildings and space therein necessary and convenient for the operation of the same.

Amend Section 94 of the Charter of The City of San Diego, so as to read as follows:

"Section 94. **CONTRACTS.** In the construction, reconstruction, or repair of public buildings, streets, utilities and other public works, and in furnishing any supplies, materials, equipment or contractual services for the same, or for other use by the City, when the expenditure therefor shall exceed the sum of one thousand dollars, the same shall be done by written contract, except as otherwise provided in this Charter, and the Council on the recommendation of the Manager or the head of the Department in charge, if not under the Manager's jurisdiction, shall let the same to the lowest responsible and reliable bidder, not less than ten days after advertising for six consecutive days in a newspaper of general circulation in the City for sealed proposals for the work contemplated, provided, however, that the Council upon the recommendation of the Manager and by a vote of five of its members may order the performance of any such construction and reconstruction or repair work by the appropriate City forces when the estimates submitted as part of the Manager's recommendations indicate that the work can be done by the City forces more economically than if let by contract; provided, further, that upon the recommendation of the Manager, the Council by resolution may order the purchase, without advertising for bids, of surplus commodities from the United States of America, or any agency thereof, or from any other public corporation, state or municipal, or any agency thereof.

In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the Council may, by resolution passed by a vote of five of its members, determine and declare that the public interest or necessity demands the immediate expenditure of public money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any sum required in such emergency, on hand in the City treasury and available for such purpose. All contracts before execution shall be approved as to form and legality by the City Attorney.

Each bidder shall furnish with his bid such security or deposit insuring the execution of the contract by him as shall be specified by the Council or as provided by general law.

The Council shall require each contractor under this Section to insure the faithful performance of his contract by delivering to the City a surety bond in an amount specified by the Council, executed by a surety company authorized to do business in the State of California, and in addition thereto, the retention of sufficient payments under the contract to insure the protection of the City against labor or material liens.

The Council, on the recommendation of the Manager, or the Head of the Department not under the jurisdiction of the Manager, may reject any and all bids and readvertise for bids. The Council may provide that no contract shall be awarded to any person, firm or corporation, if prison or alien labor is to be employed in performing such contract, or if the wage schedule for employees engaged in performing such contract are based on more than eight hours of labor per day. Any contract may be let for a gross price or on a unit basis and may provide for liquidated damages to the City for every day the contract is uncompleted beyond a specified date. It shall be competent in awarding any contract to compare bids on the basis of time completion, provided, that when any award has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the performance in accordance with such time limits shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided further, that for any contract awarded solely or partially on a specified time for completion the Council shall not extend such time limits unless such extension be recommended by the Manager and the Head of the Department concerned.

No officer, whether elected or appointed, of The City of San Diego shall be or become directly or indirectly interested in, or in the performance of, any contract with or for The City of San Diego, or in the purchase or lease of any property, real or personal, belonging to or taken by said City or which shall be sold for taxes or assessments or by virtue of legal process or suit of said City. Any person wilfully violating this section of the Charter shall be guilty of a misdemeanor and shall immediately forfeit his office and be thereafter forever barred and disqualified from holding any elective or appointive office in the service of the City. No officer, whether elected or appointed, shall be construed to have an interest within the meaning of this section unless the contract, purchase, lease, or sale shall be with or for the benefit of the office, board, department, bureau or division with which said officer is directly connected in the performance of his

duties and in which he or the office, board, department, bureau or division he represents exercises legislative, administrative or quasi-judicial authority in the letting of or performance under said contract, purchase, lease or sale.

All contracts entered into in violation of this Section shall be void and shall not be enforceable against said City; provided, however, that officers of this municipality may own stock in public utility service corporations and the City permitted to contract for public utility service when the rates for such service are fixed by law or by virtue of the Public Utilities Commission of the State of California; and provided further, that no officer shall be prohibited from purchasing the services of any utility whether publicly or privately owned, whether or not the rates are fixed by law or by the Public Utilities Commission of the State of California; and provided further, that in designating any bank as a depository for the funds of said City, any officer interested as a stockholder or otherwise in such bank shall not be deemed to have an interest in such City contract within the meaning of this section, and in each of the cases enumerated herein such contracts shall be valid and enforceable obligations against the municipality."

R E S O L U T I O N NO. 85689

WHEREAS, the City Council has had under consideration for almost three years the location of public buildings to be constructed in the City of San Diego; and

WHEREAS, the Planning Commission and several appointed Citizens' Committees have brought in recommendations that these buildings be located on Cedar Street; and

WHEREAS, the City Council decided that the question of locating public buildings on Cedar Street should be referred to a vote of the people; and

WHEREAS, at the insistence of certain organizations and individuals that the location of City, County and State office buildings in Balboa Park should be referred to a vote of the people at the same election; and

WHEREAS, the City Council did cause to be placed on the ballot the two above-mentioned proposals; and

WHEREAS, there is a widespread interest and desire on the part of the people to obtain full factual information respecting this matter; NOW, THEREFORE,

BE IT RESOLVED By the Council of The City of San Diego, as follows:

That this City Council does hereby present the following facts:

1. That there is now available in cash in the City treasury an amount estimated to be sufficient for the purchase of land for, and construction of, a new City Library. This is the only public building proposed for construction in the near future by the City of San Diego.

2. The only other known funds available are those for the construction of a School Administration Building, bonds for which were voted by the people on last November 5; and for the construction of a State Office Building, funds for which were appropriated by the State Legislature in 1945.

3. This City Council has no intention, nor does it have funds available, to acquire large areas involving twenty or more square blocks of land which might be needed for public buildings in the long-range future of the City.

4. In the event that the proposal to locate these public buildings along Cedar Street is ratified by the people of The City of San Diego, the City Council has no intention and does not propose to close any public streets.

5. The construction of any future buildings will probably require bond issues for their financing, which will require ratification of a two-thirds vote of the people of this City in each instance.

6. In view of the over-whelming weight of facts and the great necessity for preventing the unwise destruction of Balboa Park, and in order that the best interests of the City and its people will be served, the City Council hereby unanimously recommends a "Yes" vote on Proposition No. 4, calling for the placement of presently required public buildings on Cedar Street.

PROPOSITION NO. 1.

Amend Article X of the Charter of The City of San Diego, so as to read as follows:

"ARTICLE X.

THE POLICE AND FIRE RETIREMENT SYSTEM

Section 149. POLICE AND FIRE RETIREMENT SYSTEM. There is hereby created a Police and Fire Retirement System for policemen and firemen of The City of San Diego who were regularly employed and members of their respective pension systems on June 30, 1946, which, subject to the provisions of this Charter, shall be administered and controlled by a Board of Trustees. The Board of Trustees shall be composed of nine members selected as follows: three to be chosen by election by and from the members of the Fire Department of said City; three to be chosen by election by and from the members of the Police Department of said City; the City Treasurer; and two qualified registered electors of the City at large, selected by the City Manager. Only those policemen or firemen who have had seven years experience in their respective departments and who were entitled to the benefits of their respective pension systems on June 30, 1946, shall be eligible for election to said Board.

Section 150. ELECTION OF BOARD OF TRUSTEES. Elections for the members of said Board of Trustees shall be by secret ballot held every two years on the third Monday in April. Members of the Police Department and members of the Fire Department shall each conduct their own election for members of said Board of Trustees under rules and regulations prescribed by the Board of Trustees. At the election for members of the Board of Trustees selected by the members of the Fire Department, all regular members of such department who were members of the Firemen's Relief and Pension Fund on June 30, 1946, and who are in good standing at

the date of the election shall have the right to vote; and at the election held by the members of the Police Department for such trustees as are selected by the Police Department, all policemen who were members of the Police Relief and Pension Fund on June 30, 1946, shall have the right to vote. Trustees elected by members of the Police and Fire Departments shall hold office for two years and until their successors are elected and qualified.

The trustees selected by vote of the policemen and firemen, however, shall be subject to recall as hereinafter provided. Upon receiving a petition signed by twenty-five per cent of the regular members of the Police Department eligible to vote for trustees as herein provided, asking the recall of any or all representatives of such Police Department on said Board of Trustees, the Board of Trustees shall, within ten days after determining the sufficiency of such petition, call an election within such Police Department for the recall of any or all of such trustees representing the Police Department. If a majority of the members of the Police Department voting upon the question of recall of such representative of the Police Department upon such Board of Trustees vote in favor of a recall, then such members or member, as the case may be, shall be removed from their or his office. The same procedure as herein specified for the recall of members representing the Police Department shall be followed in the event of the recall of the members of the Board of Trustees representing the Fire Department. In the event of death, retirement, resignation, failure or inability of any member of the Board of Trustees to act, if his position be elective, his successor shall be chosen at a special election which shall be called by the Board of Trustees within thirty days of the time the vacancy is declared and shall be conducted in the same manner as the regular election.

Section 151. OFFICERS OF TRUSTEES. The Board of Trustees, upon selection and qualification as herein provided, shall organize themselves by selecting a Chairman, a Vice-Chairman and a Secretary. The Chairman shall be selected from either the representatives of the Police Department or the representatives of the Fire Department, in which case the Vice-Chairman shall be selected from representatives of the Department not securing the chairmanship. The Chairman and Vice-Chairman so selected shall hold office as Chairman and Vice-Chairman for one year, on the expiration of which the Board of Trustees shall select a new Chairman and Vice-Chairman from members of the Trustees representing the Police and Fire Departments.

Section 152. POLICE AND FIRE RETIREMENT SYSTEM FUND. There is hereby created in the City Treasury a fund to be known as the Police and Fire Retirement System Fund, into which shall be placed all moneys designated by this Charter to be paid into said fund, including the moneys now in the Police Relief and Pension Fund and Firemen's Relief and Pension Fund, subject, however, to the provisions of Section 172 hereinafter contained. This fund shall constitute a trust fund for the benefit of the members of the San Diego Police and Fire Departments and shall be used exclusively for the payment of pensions under the terms and provisions of this Article, including pensions heretofore granted under the provisions of the Charter prior to this amendment. No expenditure shall be made from said fund except on order of the Board of Trustees.

Members of the Police and Fire Departments entitled to the benefits of this Article shall consist of the Chief of each Department and all officers and members of each Department who were appointed prior to July 1, 1946, and who were prior to said date entitled to the pension benefits of their respective Departments under the then existing Charter.

Section 153. INVESTMENT OF FUNDS. The Board of Trustees is hereby authorized to invest any moneys in the Police and Fire Retirement System Fund in approved United States Government, State of California, municipal or county bonds, which qualify and are eligible for the investment of public trust funds, recommended by the Funds Commission of The City of San Diego; provided, however, that sufficient money shall always be kept in such fund to meet the pension payments provided for in this Article.

Section 154. MEETINGS OF BOARD. The Board of Trustees shall hold quarterly meetings on the third Monday of January, April, July and October of each year and upon the call of its Chairman. The time and place of such meetings shall be posted on bulletin boards at the Fire Department headquarters and at the Police Department headquarters and at the San Diego City and County Administration Building at least seven (7) days before each meeting. A majority of the members of the Board shall constitute a quorum and shall have power to conduct business.

No moneys shall be paid from the Police and Fire Retirement System Fund except upon order of the Board of Trustees, which order shall be signed by the Chairman and Secretary of said Board of Trustees and directed to the Auditor and Comptroller of said City, who shall issue warrants therefor. The time and method for approving and paying pension claims and the maintaining and keeping of complete pension records shall be fixed by rules and regulations of said Board of Trustees. The Board of Trustees shall keep a record of all proceedings of such Board, which shall be a public record.

Section 155. TREASURER OF FUND. The Treasurer of The City of San Diego shall act as Treasurer and Custodian of said Fund, and the Treasurer's official bond shall also cover his duties as Treasurer of said fund.

Section 156. POWERS OF BOARD. The Board of Trustees herein provided for shall, in addition to other powers granted hereby, have power, first: to compel witnesses to attend and testify before it on all matters connected with the operation of this system in the same manner as is or may be provided for by law for taking of testimony before notaries public; second: to make all needful regulations and rules for its guidance in conformity with the provisions of this Charter.

Section 157. CONTRIBUTIONS TO FUND BY MEMBERS. Commencing on the first day of the month next succeeding the effective date of this amendment, the Auditor and Comptroller of The City of San Diego shall retain from the pay of each person who is eligible to the benefits of the Police and Fire Retirement System a sum equal to eight per cent (8%) of the amount paid said person, which sum shall be paid into the said Police and Fire Retirement System Fund; and no other or further retention or reduction shall be made from such pay for any retirement or pension purposes. Provided, however, that all contributions to be made by any member of the Police or Fire Departments of The City of San Diego to the Police and Fire Retirement System Fund shall cease when said member has become eligible to retire or has retired.

Section 158. CONTRIBUTIONS TO FUND BY COUNCIL.

(1) The Council shall appropriate in the annual appropriation ordinance to the credit of the Police and Fire Retirement System Fund, for the purposes of this Article, the following moneys:

(a) A sum equal to the amount to be paid into the Police and Fire Retirement System Fund by the members thereof each year, as required under Section 157 of this Charter.

(b) Such additional sum of money as shall be sufficient to meet all current and future liabilities of the fund within thirty (30) years from the effective date of this provision and to maintain said fund in an actuarially solvent condition thereafter. Said Board of Trustees, in computing said sum, shall avail themselves of the services of the actuary to be employed by the City Manager as provided in Section 161.

(2) The Council shall also appropriate in the annual appropriation ordinance, to the credit of a fund to be known as the Police and Fire Retirement System Expense Fund, sufficient money from which shall be paid the expenses necessary in connection with the administration and operation of this system. Annually the Board of Trustees shall estimate the amount of money necessary to be paid into said expense fund for the ensuing year, and such estimate shall be submitted to the City Manager in accordance with Section 69 of Article VII of this Charter.

Section 159. PENSIONS TO REMAIN FIXED. No pension granted or authorized hereunder shall be increased or decreased after the amount has been fixed lawfully by order of the Board of Trustees, except as provided in Section 163 hereof.

Section 160. RETIREMENT FOR SERVICE. Each member of the Police or Fire Departments of the City who is entitled to the benefits of this system shall be entitled to retire from active service of said City and receive retirement pay thereafter from said City pursuant to and in accordance with the provisions and subject to the qualifications of this section, as follows:

(a) Whenever any policeman shall have served for twenty years or more in the aggregate as a member or employee in any rank or capacity in the Police Department of The City of San Diego; provided, however, that members of said Police Department who entered the service of the Department subsequent to the 8th day of May, 1941, shall not be retired before they reach the age of fifty years and before twenty-five years of service in the aggregate.

(b) Whenever any fireman shall have served for twenty years or more in the aggregate as a member in any rank or capacity of the regularly constituted force of the San Diego Fire Department, or in any department of said force; provided, however, that members of the San Diego Fire Department who entered the service of the said Fire Department subsequent to January 1, 1936, shall not be retired before they reach the age of fifty years and before twenty-five years of service in the aggregate.

(c) The Board of Trustees shall, upon the request of such or any member, or without such request and with the approval and consent of the City Manager, if it deem it for the good of the service, retire such member from further service in the Police or Fire Department; and from the date of such order of retirement the service of such person shall cease.

(d) At the time of retirement the person so retired shall have the option to elect one of the following types or kinds of pension payment plans:

Plan No. 1. A yearly pension (for the life of such member) equal to one-half of the amount of the average yearly salary of said person for the five years immediately preceding the date of his retirement, payable to him in monthly installments; provided that the amount of salary paid such retiring person during said five years in excess of four hundred dollars (\$400.00) per month shall not be used in such computation, and provided further that when one who is eligible to the benefits of this system has elected the type of pension he shall receive, the amount of such pension shall not increase or decrease. The amount of pension to which a retiring member is entitled under this plan shall never exceed two hundred dollars (\$200.00) per month, and no deduction or retention authorized by Section 157 of this Charter shall be made or taken from that portion of salary paid to any member of either department in excess of four hundred dollars (\$400.00) per month.

Plan No. 2. Such other form of benefit as shall be certified by the actuary to be of equivalent actuarial value to a straight pension for life hereinbefore provided for in Plan No. 1; provided that the Board of Trustees shall determine that the granting of such optional allowance is consistent with the purpose of the Police and Fire Retirement System and shall be necessary or desirable from the point of view of the member. The power of the Board of Trustees to determine the amounts to be paid the beneficiaries under Plan No. 2 above named shall be limited as follows:

In the event the plan selected provides for the payment of a pension to minor children of the retiring person, then the Board shall have no power to provide for pension payments to such minor children after they have attained the age of eighteen years.

(e) If a member in the service of either the Police or Fire Department dies or is adjudged to be incompetent without having exercised his option as above provided, and at the time of his death or the date of adjudication of such incompetency was eligible to receive a pension from this system, and leaves surviving him a spouse or minor children, the Board of Trustees shall pay to the surviving widow, if any, and to surviving minor children, if any, a pension under Plan No. 2.

(f) In computing the time of service required for retirement, the amount of time served by a member of either the Police or Fire Department, in the United States Army, Navy, Marine Corps, or any division thereof, in time of War, while on leave of absence from said City employment, shall be counted as a part of the aggregate service required for a retirement pension, and this time shall be counted even though the right to retire shall have occurred during the time such person is on such leave of absence in the service of the United States in time of War.

Section 161. EMPLOYMENT AND DUTIES OF ACTUARY. The City Manager shall employ an actuary, who shall be the technical adviser of the Board of Trustees on matters relating to the operation of the Police and Fire Retirement System and who shall perform such other duties as may be required of him by said Board of Trustees in connection therewith.

The Board of Trustees, upon the recommendation of the actuary, shall adopt such mortality and other tables and rates as may be necessary.

An actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries of the Police and Fire Retirement System and an actuarial valuation of the assets and liabilities and the funds of the System shall be made at intervals of not to exceed five (5) years.

Taking into account the result of such investigation and values, the Board of Trustees may:

(a) Adopt for the said System such mortality, service and other tables as shall be deemed necessary.

(b) Recommend the rate or amount of contribution payable by The City of San Diego under the provisions of this Charter.

Section 162. PAYMENTS FOR DEATH IN SERVICE. Whenever any member who is entitled to the benefits of this system, but is not yet eligible to retire, shall lose his life in the performance of duty, or shall die from heart trouble or pneumonia or any other sickness incurred in the course of duty as a policeman or fireman, or shall die as a direct result of any injury received during the performance of his duty, or shall die from sickness contracted by reason of the performance of his duty, then upon satisfactory proof of such fact or facts, said Board of Trustees shall order paid an amount equal to one-third of his annual salary at the time of his death to his widow until she remarries, but in no case shall such pension exceed the sum of seventy-five dollars (\$75.00) per month. If there be no widow, said Board of Trustees shall order paid to each child under the age of eighteen years, if unmarried, the sum of Twenty dollars (\$20.00) per month, but in no case shall such payments exceed the sum of seventy-five dollars (\$75.00) per month for one family. If there be no widow or children, said Board of Trustees shall order paid one-third of his annual salary, not to exceed fifty dollars (\$50.00) per month, to his surviving mother or father, if any, if either of them was dependent upon him at the time of his death, and if there be no surviving mother or father, then in equal shares to any sisters or brothers under the age of eighteen years and unmarried who were dependent upon him at the time of his death, so long as said sisters or brothers are under the age of eighteen years and unmarried.

Section 163. PAYMENTS FOR DISABILITY. Whenever any member entitled to the benefits of this system shall become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty or as a result thereof to such an extent as to render necessary his retirement from active service, said Board of Trustees, upon determining such necessity for retirement, shall retire such member or employee and cause to be paid to him a pension equal to one-half of the salary attached to the rank held by him for one year or more previous to the time the disability was incurred; and said pension shall increase and decrease in proportion to the salary attached to said rank; provided that such pension shall at no time exceed the sum of two hundred dollars (\$200.00). If such disability shall cease he shall, upon the recommendation of the Chief of the Department, be restored to such active duty as he is able to perform, with the rank or rating and salary he held at the time of his retirement, and such pension shall terminate. In the event of the death of such pensioner, the pension shall be paid to his dependents in accordance with the provisions of Section 162. Any pension or relief payment provided for herein shall cease immediately upon the death of the person receiving the same. Any payment made hereunder to dependents of a member shall cease upon the death or marriage of such dependents or upon the attainment of the age of eighteen years by such dependent other than the widow or father or mother.

Section 164. FIFTEEN YEARS SERVICE. No member of this System eligible to receive benefits hereunder shall be removed from City service so as to deny him the benefits of this System provided that he has served the City in either department for fifteen (15) years in the aggregate; provided, however, that such member may be removed from either department for habitual drunkenness, conviction of a felony or gross insubordination.

Section 165. PENSIONERS SUBJECT TO RE-EXAMINATION. Any person retired for disability under this Article may be summoned before the Board of Trustees herein provided for at any time and shall submit himself to examination as to fitness for duty and abide by the decision of and the order of said Board with reference thereto; and all members of the Police and Fire Departments who shall be retired under the provisions of this Article, or, in case of their death, their beneficiaries, shall report to the Board of Trustees, either in person or in writing, on the third Monday in January, April, July and October of each year, and in case of great public emergency the retired members who have been retired for disability may be assigned to and perform such duty as the Chief of such department shall direct, save and except that no pensioner of the Police Department and no pensioner of the Fire Department shall be compelled to work in any other department than the department from which he was retired.

Section 166. CERTIFICATES OF DISABILITY. No person shall be retired for disability under the provisions of this Article, or receive any benefit therefrom, unless there shall be filed with the Board of Trustees certificates of disability which shall be verified by physicians regularly employed by the Department from which such person was retired and two other regularly licensed physicians of the City of San Diego, and the person whose retirement is contemplated shall have the right to select one of such physicians if he chooses to do so. Said Board may require other evidence of disability before ordering such retirement, but, upon satisfactory evidence of such disability, the Board must retire such person.

R E S O L U T I O N NO. 86337

WHEREAS, in past years The City of San Diego has incurred considerable expense due to accidents occurring in the various operating departments of the City, whereby City-owned machinery and property were damaged, City employees suffered temporary or permanent disability, and sometimes the City thereby incurred further liability for injury to the person or damage to the property of third persons, all despite ordinary care taken by City employees to avoid accidents; and

WHEREAS, in order to save the City from such expenses and losses, and to prevent disabling injuries to City employees, to as great an extent as is humanly possible, the City Manager has, during the Fiscal Year 1946-47, caused all the operating departments to engage in a Safety Contest; and to arouse and stimulate a competitive spirit between departments which would cause every man in each department to exert the utmost possible care and vigilance, above that required of him by his duties as such employee, to avoid accidents of all kinds, the City Manager has offered on behalf of the City to present to those departments making the best record for safety certain rewards or bounties, in the form of presentation to such departments of banners marking their success in avoidance of accidents, together with a dinner to be furnished free to each member of each department to which such banner was awarded; and

WHEREAS, by means of such Safety Contest, and the competitive effort induced thereby, the frequency of disabling accidents has been reduced to an all-time low, during the Fiscal Year 1946-47, despite a large increase in the number of employees in said departments, and the City has thereby been saved many thousands of dollars in premiums on Workmen's Compensation Insurance and many additional thousands of dollars of liability to third persons has been thereby avoided, all to the great profit of The City of San Diego; and

WHEREAS, the Council of The City of San Diego does hereby find and declare that said Safety Contest and the offer of said reward or bounty has served and is serving a public purpose to the legal and monetary benefit of The City of San Diego; NOW, THEREFORE,

BE IT RESOLVED, By the Council of The City of San Diego, as follows:

That the action of the City Manager in so offering said reward or bounty in the form of banners to be presented to those departments of the City which make the best record in avoidance of disabling accidents, together with a dinner to be furnished to each member of such departments to which such banners are awarded, be, and the same is hereby approved and ratified; and the expenditure of money to furnish such rewards or bounties, in a sum not exceeding Two Hundred Dollars (\$200.00) is hereby approved and ratified, and the same is hereby authorized to be paid out of any City moneys available therefor.

RESOLUTION NO. 86672

WHEREAS, it has been brought to the attention of this Council that an application has been made to the San Diego County Board of Supervisors for the construction and operation of an airport on Lots 49 and 50, Rancho Mission; and

WHEREAS, this proposed location for airport use is approximately 2000 feet east of the end of the east approach zone to the Gibbs Municipal Airport belonging to The City of San Diego, and this Council is of the opinion that it would be against public interest and directly contrary to the best interests of The City of San Diego to permit the operation and maintenance of an additional airport within such close proximity to the present municipal airport of said City, and that therefore the use of this property for such purposes should be protested; NOW, THEREFORE,

BE IT RESOLVED By the Council of The City of San Diego, as follows:

That the City Council of The City of San Diego, for and on behalf of said City, respectfully protests the granting of the application of W. Arnet Speer for permission to construct and operate an airport on Lots 49 and 50, Rancho Mission, in the County of San Diego, State of California, for the following reasons:

(1) The proposed location as an airport is within approximately 2000 feet east of the end of the east approach to Gibbs Municipal Airport belonging to The City of San Diego.

(2) There is a possibility of overlapping traffic pattern between the two airports, particularly if the runways of the Gibbs Municipal Airport are extended beyond the present contemplated lengths.

(3) The airport would be directly in line with the Gibbs airport traffic approach from the east, and would necessitate aircraft approaching Gibbs field to fly over mountains or over The City of San Diego to clear the traffic pattern of Speer's airport.

(4) The proposed location for the airport, consisting of Lots 49 and 50, Rancho Mission, is not a satisfactory location for an airport, and the use of such would necessarily interfere with the use of the city-owned airport.

(5) The location of two airports in such close proximity necessarily creates a hazardous condition, and as a result would tend to cause an ever increasing danger to the lives and property of the people of The City of San Diego.

BE IT FURTHER RESOLVED, that a certified copy of this resolution be delivered forthwith to the Clerk of the Board of Supervisors of the County of San Diego.

RESOLUTION NO. 86757

WHEREAS, the newspapers of San Diego have given wide publicity to a report that the City Council was about to enact an ordinance for the regulation of dogs; and in consequence of this report, much acrimonious dispute has arisen between those citizens who favor such an ordinance and those who oppose it, and among those who favor different kinds and degrees of regulations; and it has become clear to the Council that it would be impossible, under any circumstances, for the Council to enact any such ordinance which would be satisfactory to a majority of the citizens of the City of San Diego; and

WHEREAS, if such an ordinance be needed, it should be proposed as an initiative measure by those who favor it, in order that the citizens may have the opportunity to pass upon it and make the law conform to the actual wishes of the majority; NOW, THEREFORE,

BE IT RESOLVED, By the Council of The City of San Diego, as follows:

That the Council of The City of San Diego does not intend to adopt a further ordinance regulating dogs; but the Council suggests to those who consider such an ordinance to be necessary that these citizens should propose such an ordinance in the form they believe to be proper, as an initiative measure, and submit the same to the voters of the City of San Diego at the next regular election, so that the will of the majority may be thereby determined.

WHEREAS, the Board of Supervisors of the County of San Diego, by their Resolution adopted on the 14th day of July, 1947, (a copy of which Resolution is on file in the Office of the City Clerk of the City of San Diego under Document No. 375679), have requested The City of San Diego either to join with the Board of Supervisors in the construction of a jointly-owned and operated Hall of Justice to be constructed on the portion of the Civic Center site known as the "north parking lot", or else to quitclaim to the County all of the City's right, title and interest in and to said "north parking lot" portion of the Civic Center site; and

WHEREAS, in the opinion of the Council of The City of San Diego, it is not for the best interests of The City of San Diego to join with the County of San Diego in the construction and operation of said Hall of Justice, but the Council desire to offer every proper co-operation to the Board of Supervisors; NOW, THEREFORE,

RESOLUTION NO. 86836

WHEREAS, heretofore the San Diego Electric Railway Company has filed an application with the Public Utilities Commission of the State of California for an increase in the fares to be charged to the patrons of said company in the City of San Diego and its environs; and

WHEREAS, on or about the 1st of May, 1947, without opposition on the part of The City of San Diego, the Public Utilities Commission entered an interim order permitting the increase of certain fares to be charged by the said San Diego Electric Railway Company; and

WHEREAS, said electric railway company has upon several occasions since said date amended its application and each time requested of said Commission further and greater increases in fares; and

WHEREAS, said hearing is now pending before said Commission; and

WHEREAS, it appears from the investigation made by this Council that said company bases its application for said greater increase in fares upon a number of factors, among which is a rate of depreciation of its equipment used in the public service to be considered in fixing rates in a manner which is different from that shown to have been fixed upon the books of said street railway company; which theory of depreciation is inimical to the interests of the public and would serve only to procure for said street railway company a higher rate than this Council feels is necessary to provide a fair return upon its investment; and further that said application for increased fares is based upon the continued depreciation of a large part of said equipment which has already been fully depreciated as shown by the books of said company and has already been paid by the patrons of said company; and which system of re-casting the depreciation of said equipment is, in the opinion of this Council, unfair, and is a theory which, if adopted by said Public Utilities Commission, will result in an injustice to the patrons of said street railway company and, further, said application of said company for a higher fare is based upon an assumption by the said railway company that its business will drop off in the future at a high rate; and, in the opinion of this City Council, such assumption is in error and evidences on the part of said company a lack of faith in the future growth and development of The City of San Diego contrary to the best interests of said City; NOW, THEREFORE,

BE IT RESOLVED By the Council of The City of San Diego, as follows:

That this Council respectfully protests any increase of rates sought by the San Diego Electric Railway Company in pending Application No. 28131 before the Public Utilities Commission of the State of California, and herein and hereby directs the City Attorney of this City to offer in evidence a certified copy of this resolution for whatever consideration may be given to this resolution by the members of said Public Utilities Commission of the State of California.
