CLASS SPECIFICATION
SAN DIEGO CITY CIVIL SERVICE COMMISSION

HAZARDOUS MATERIALS INSPECTOR III

DEFINITION:
Under direction, to lead the work of a professional staff engaged in hazardous materials inspection, investigation, enforcement or other regulatory activities; to perform the more difficult technical hazardous materials work; and to perform related work.

* EXAMPLES OF DUTIES:

- Coordinates and leads the work of a staff performing hazardous materials compliance or enforcement inspections;
- Identifies existing or potential operations problems that may lead to hazardous materials storage, use or disposal problems;
- Conducts and leads the inspection of the most complex City operations and hazardous materials storage and use sites;
- Reviews and coordinates special investigations;
- Reviews and coordinates the self-monitoring program;
- Performs initial screening of fact sheets;
- Assists in developing and implementing mandated programs and sub-programs;
- Conducts review of hazardous materials laboratory test data;
- Leads activities to identify and package hazardous waste to ensure compliance with regulations;
- Assists in the development of enforcement procedures and actions;
- Assists in the training of professional inspectors;
- Performs related duties.

MINIMUM QUALIFICATIONS:
Please note: the minimum qualifications stated below are a guide for determining the education, training, experience, special skills, and/or license which may be required for employment in the class. These are re-evaluated each time the position is opened for recruitment. Please refer to the most recent Job Announcement for updated minimum qualifications.

College graduation with a Bachelor’s degree in Chemical Engineering, Environmental Engineering, Sanitary Engineering, Environmental Health, Industrial Hygiene, Chemistry, Biology, or a closely related field; AND three years of professional level experience in inspecting and investigating hazardous materials and waste management practices for conformance with laws or regulations, OR coordinating and managing community collection events or permanent centers, OR testing materials collected at various waste and hazardous materials disposal sites to identify, confirm and categorize chemical wastes and package and manifest materials received.

* EXAMPLES OF DUTIES performed by employees in this class. The list may not include all required duties, nor are all listed tasks necessarily performed by everyone in this class.
