

CLASS SPECIFICATION
SAN DIEGO CITY CIVIL SERVICE COMMISSION
INFORMATION SYSTEMS ADMINISTRATOR

DEFINITION:

Under direction, to supervise a large professional information systems staff responsible for developing, testing, implementing, and modifying a wide variety of complex distributed information systems in a large division or department; and to perform related work.

DISTINGUISHING CHARACTERISTICS:

Information Systems Administrator is typically a second-level supervisor over one or more Information Systems Analyst IV positions who in turn supervise a large professional staff of technical specialists and numerous outside vendors in conjunction with San Diego DPC. The technical complexity, number, and cost of the systems being implemented exceeds those in departments where Information Systems Analyst IV positions are assigned supervision of the information systems functions. This classification utilizes a high level of specialized technical knowledge to manage multiple and distinct information systems projects which impact virtually all functional areas of a large division or department.

* **EXAMPLES OF DUTIES:**

- Manages the acquisition, development, implementation, and on-going maintenance of information systems through subordinate supervisors;
- Directs the review and evaluation of a variety of requests to automate manual procedures;
- Evaluates recommendations of subordinates justifying and prioritizing new systems and applications development and budgets accordingly;
- Directs the testing, implementation, and integration of department information systems;
- Develops department or division-wide information systems policy in consultation with the Information Technology & Communication Department;
- Participates in many technical decisions as to the best approach in solving information system needs within the department;
- Prepares and presents reports and budget information;
- Trains and rates the performance of subordinates.

MINIMUM QUALIFICATIONS:

Please note: the minimum qualifications stated below are a guide for determining the education, training, experience, special skills, and/or license which may be required for employment in the class. These are re-evaluated each time the position is opened for recruitment. Please refer to the most recent Job Announcement for updated minimum qualifications.

A Bachelors degree or equivalent education (i.e., minimum completed units equal to 120 semester/180 quarter units), **AND** five years of increasingly responsible experience (within the past 8 years), two years of which are equivalent to the City of San Diego's classification of Information Systems Analyst IV. Responsibilities must include all of the following: managing the acquisition, development, testing, implementation and maintenance of a variety of complex information systems for a large division or department; developing and administering department MIS policies, procedures and budgets; and supervising professional information systems personnel responsible for mainframe and client based systems. Qualifying experience as described above may be substituted for the required education on a year-for-year basis. Possession of a valid California Class C Driver's License.

- * **EXAMPLES OF DUTIES** performed by employees in this class. The list may not include all required duties, nor are all listed tasks necessarily performed by everyone in this class.
