CLASS SPECIFICATION

SAN DIEGO CITY CIVIL SERVICE COMMISSION

POWER PLANT SUPERINTENDENT

DEFINITION:

Under direction, to serve as facility manager of the City's gas utilization co-generation plant; to supervise subordinate plant supervisors responsible for the day to day operations of the co-generation facility; and to perform related work.

* **EXAMPLES OF DUTIES:**

As the co-generation facility manager:
● Oversees the facility budget and monitors operation costs and staffing levels;
● Oversees plant modifications including upgrades, expansions, and changes in equipment;
● Identifies grant funding sources, ensures compliance with reporting requirements, and responds to questions from grantors regarding the use of funds;
● Serves as liaison with the Air Pollution Control District for new permits and resolution of compliance and violation issues;
● Assists the City Attorney in negotiating purchase rate agreements with San Diego Gas and Electric;
● Resolves disputes with SDG&E regarding reduced power production and reimbursement amounts;
● Coordinates plant compliance with the State Air Toxin Law;
● Supervises subordinate supervisors responsible for the day-to-day operations of the co-generation facility.

MINIMUM QUALIFICATIONS:

Please note: the minimum qualifications stated below are a guide for determining the education, training, experience, special skills, and/or license which may be required for employment in the class. These are re-evaluated each time the position is opened for recruitment. Please refer to the most recent Job Announcement for updated minimum qualifications.

Two years of supervisory experience in the operation, maintenance and repair of large engines (at least 600 horsepower) and high voltage (440 volts or higher) power-generating plant equipment. Possession of a valid California Class C Driver's License.

* **EXAMPLES OF DUTIES** performed by employees in this class. The list may not include all required duties, nor are all listed tasks necessarily performed by everyone in this class.
