<p style="text-align: center;">ENVIRONMENTAL SERVICES DEPARTMENT NEWS RELEASE</p>

FREE HOME ENERGY AND WATER SAVING SHOWERHEADS

On Thursday, September 17, 2009, the Environmental Services Department will partner with San Diego Gas and Electric to give away new home energy and water saving showerhead kits.

City of San Diego residents, employees and businesses that are customers of SDG&E are invited to 9601 Ridgehaven Court, San Diego, 92123 from 10 a.m. to noon in the auditorium, located on the first floor.

Showerhead kits consist of a low-flow showerhead and aerators. Kits are limited to one per household a year. Supplies are limited.

This program will help customers save money by saving water and the energy used to heat it without sacrificing performance or water pressure.

If you cannot attend this event or if you prefer you can request a kit by calling SDG&E at 1-800-644-6133 or order online at sdge.com/energykit.

For more information, contact Kathie Pishny by phone at 858-627-3334, or email kpishny@sandiego.gov; or Josh Brock at 858-492-5033, email at jbrock@sandiego.gov.

The program is funded by California utility customers under the auspices of the California Public Utilities Commission.
