

Plain | Wood Chips

Ingredients

Untreated lumber

Product Uses & Specifications

Plain wood chips are a beautiful, effective ground cover for weed suppression, water retention, and landscape decoration. Plain wood chips are made from source-separated, untreated lumber and pallets. Plain wood chips are ideal for creating pathways, tidying up planter beds, and as a landscaping mulch for established or new planting areas.

Manufacturing Description

- Plain wood chips are slowly ground to achieve consistent size
- Standard sizing is 3" and under
- Screened to remove fines and dust
