

**PHASE I
CITY OF SAN DIEGO
LONG-TERM RESOURCE MANAGEMENT OPTIONS
STRATEGIC PLAN**

TABLE OF CONTENTS

<u>SECTION</u>	VOLUME I	<u>PAGE</u>
EXECUTIVE SUMMARY		ES-1
1.0 WHAT IS THE LONG-TERM RESOURCE MANAGEMENT OPTIONS STRATEGIC PLAN?		1-1
1.1 Purpose		1-1
1.2 Strategic Plan Goals		1-2
1.3 Phase I Report Overview		1-3
1.3.1 What is the City’s Current Role in Waste/Resource Management?		1-3
1.3.2 How Much Waste Does the City and Region Dispose of and Where Does It Go?		1-3
1.3.3 How Healthy are the ESD Operating Funds?		1-4
1.3.4 What Regulatory Requirements and Policy Issues Impact the City’s Waste/Resource Management?		1-5
1.3.5 How Were the Phase I Options Developed?		1-5
1.3.6 What Options are There to Manage the City’s Wastes/Resources?		1-6
1.3.7 Screening the Options in Phase I		1-6
1.4 What Happens in Phase II?		1-7
2.0 WHAT IS THE CITY’S CURRENT ROLE IN WASTE/RESOURCE MANAGEMENT?		2-1
2.1 Existing City Services		2-1
2.1.1 Collection Services Division		2-1
2.1.2 Waste Reduction and Disposal Division		2-1
2.1.3 Energy, Sustainability, and Environmental Protection Division		2-2
2.2 Zero Waste Programs		2-2
2.3 West Miramar Landfill		2-4
2.3.1 West Miramar Height Increase		2-5

**PHASE I
CITY OF SAN DIEGO
LONG-TERM RESOURCE MANAGEMENT OPTIONS
STRATEGIC PLAN**

TABLE OF CONTENTS

VOLUME I

<u>SECTION</u>		<u>PAGE</u>
	2.3.2 Miramar Material Recovery Facility (MRF)/Transfer Station (TS)	2-5
	2.3.2.1 Design Criteria	2-6
	2.3.2.2 Site Development	2-6
	2.3.2.3 Estimated Construction Cost	2-7
3.0	HOW MUCH WASTE DOES THE CITY AND REGION DISPOSE OF? AND WHERE DOES IT GO?	3-1
3.1	System Demand and Capacity Analysis	3-1
3.1.1	Demand Analysis	3-1
	3.1.1.1 Population Forecast	3-1
	3.1.1.2 Disposal Projections From Cities and Unincorporated Areas	3-1
	3.1.1.3 Sensitivity Analysis	3-2
3.1.2	Capacity Analyses	3-2
	3.1.2.1 Landfill Capacity	3-2
	3.1.2.2 Transfer Stations	3-3
	3.1.2.3 Composting Facilities	3-4
	3.1.2.4 Recyclables Processing Centers	3-4
3.2	Findings	3-5
	3.2.1 City Projected Demand	3-5
	3.2.2 Regional Projected Demand	3-5
	3.2.3 Proposed Additional Capacity	3-6
	3.2.3.1 West Miramar Landfill	3-6
	3.2.3.2 Sycamore Landfill	3-6
	3.2.3.3 Gregory Canyon Landfill	3-6
	3.2.4 Potential Strategies for Managing the Waste Stream	3-7

**PHASE I
CITY OF SAN DIEGO
LONG-TERM RESOURCE MANAGEMENT OPTIONS
STRATEGIC PLAN**

TABLE OF CONTENTS

<u>SECTION</u>	VOLUME I	<u>PAGE</u>
	3.2.4.1 Exportation	3-7
	3.2.4.2 Waste Diversion	3-7
	3.2.5 Sensitivity Analysis	3-8
	3.2.6 Projected Capacity – Without Miramar Height Increase, Without Sycamore Expansion, and With Impact from City Ordinances	3-8
	3.2.7 Projected Capacity – With Miramar Height Increase, Sycamore Expansion, and Impact from City Ordinances	3-9
	3.2.8 Projected Capacity – With Miramar, Sycamore, and Gregory Additional Capacities and Impact from City Ordinances	3-10
	3.3 Conclusion	3-11
4.0	HOW HEALTHY ARE THE ESD OPERATING FUNDS?	4-1
	4.1 Introduction	4-1
	4.2 How the Financial Analysis was Performed	4-1
	4.2.1 Financial Condition of the Funds	4-2
	4.2.2 Adequacy of Closure/Post-Closure and Capital Replacement Reserves	4-2
	4.2.3 Trends	4-2
	4.2.4 Limitations	4-3
	4.3 Results of Financial Analysis	4-3
	4.3.1 General Fund	4-3
	4.3.1.1 Trends	4-4
	4.3.1.2 Adequacy of Reserves	4-4

**PHASE I
CITY OF SAN DIEGO

STRATEGIC PLAN**

TABLE OF CONTENTS

<u>SECTION</u>	VOLUME I	<u>PAGE</u>
4.3.2	Refuse Disposal Fund	4-4
	4.3.2.1 Trends	4-4
	4.3.2.2 Adequacy of Reserves	4-5
4.3.3	Recycling Fund	4-5
	4.3.3.1 Trends	4-6
	4.3.3.2 Adequacy of Reserves	4-6
4.4	Conclusions	4-6
	4.4.1 General Fund	4-6
	4.4.2 Refuse Disposal Fund	4-7
	4.4.3 Recycling Fund	4-7
	4.4.4 Overall Financial Picture	4-8
5.0	WHAT REGULATORY, PLANNING, AND POLICY ISSUES IMPACT THE CITY'S WASTE/RESOURCE MANAGEMENT?	5-1
5.1	How Do Key Regulatory, Planning, and Policy Issues Impact the City's Waste/Resource Management Program?	5-1
5.2	What was Reviewed?	5-3
5.3	Brief Summary of Key Regulatory, Planning, and Policy Issues	5-4
	5.3.1 California Integrated Waste Management Act (AB 939)	5-4
	5.3.2 County of San Diego, Integrated Waste Management Plan, Countywide Summary Plan, and Countywide Siting Element (2005)	5-4
	5.3.3 People's Ordinance of 1919	5-4
	5.3.4 Proposition H (1987)	5-6
	5.3.5 City's Recycling Ordinance	5-6
	5.3.6 Construction & Demolition (C&D) Debris Diversion Deposit Program	5-6
	5.3.7 City of San Diego Non-Disposal Facility Element (2005)	5-7

TABLE OF CONTENTS

<u>SECTION</u>	VOLUME I	<u>PAGE</u>
5.3.8	Miramar Ground Lease Between City of San Diego and U.S., Department of the Navy	5-7
5-3.9	Miramar Landfill General Development Plan (1994)	5-8
5.3.10	Facilities Franchise Agreement With EDCO Recovery & Transfer Station	5-8
5.3.11	Facilities Franchise Agreement With San Diego Landfill Systems, Inc., for Sycamore Landfill	5-9
5.3.12	Non-Exclusive Solid Waste Collection Franchise Agreements	5-9
5.3.13	Fortistar (Formerly Minnesota Methane) Agreement	5-9
5.4	What are Other Jurisdictions Planning?	5-9
5.4.1	County of San Diego Integrated Waste Management Task Force	5-9
5.4.2	County of Orange – OC Waste & Recycling	5-10
6.0	HOW WERE THE PHASE I OPTIONS DEVELOPED?	6-1
6.1	Resource Management Advisory Committee	6-1
6.2	Who Served on the Committee?	6-1
6.3	RMAC Meetings	6-2
6.3.1	First RMAC Meeting – October 9, 2007	6-2
6.3.2	Second RMAC Meeting – January 16, 2008	6-2
6.3.3	Third RMAC Meeting – February 20, 2008	6-3
6.3.4	RMAC Solid Waste Facilities Tour – March 26, 2008	6-3
6.3.5	Fourth RMAC Meeting – April 20, 2008	6-4
6.3.6	Fifth RMAC Meeting – June 18, 2008	6-4
6.4	RMAC Recommendations for Phase I	6-5
7.0	WHAT OPTIONS ARE THERE TO MANAGE THE CITY’S WASTE/RESOURCES?	7-1
7.1	Introduction	7-1

TABLE OF CONTENTS

<u>SECTION</u>	VOLUME I	<u>PAGE</u>
7.2	Source Reduction	7-2
7.2.1	Zero Waste Programs and Policies	7-2
7.2.1.1	What is Zero Waste?	7-2
7.2.1.2	What is the City Doing?	7-3
7.2.1.3	Zero Waste – What are Others Doing?	7-4
7.3	Recycling and Composting	7-4
7.3.1	Zero Waste Infrastructure	7-4
7.3.1.1	Household Hazardous Waste	7-5
7.3.1.2	Transfer Stations	7-5
7.3.1.3	Material Recovery Facilities	7-6
7.3.1.4	Resource Recovery Parks – Industrial and Community	7-7
7.3.1.5	Construction and Demolition Facilities	7-8
7.3.1.6	Greenwaste/Composting Facilities	7-8
7.4	Conversion Technologies	7-9
7.4.1	Introduction	7-9
7.4.2	Challenges to Development of Conversion Technologies	7-11
7.5	Waste-to-Energy	7-11
7.5.1	Introduction	7-11
7.5.2	What Technology is Used in WTE?	7-13
7.5.3	Is WTE Economical?	7-14
7.5.4	Hurdles to WTE in California and San Diego	7-15
7.5.5	Advancement in WTE Technology	7-15
7.6	Landfill Optimization Techniques	7-16
7.6.1	Introduction	7-16

7.6.2	ISO 14001 Certification	7-16
7.6.3	Compaction Techniques	7-17
	7.6.3.1 Soil Surcharging	7-17
	7.6.3.2 Computer-Aided Earthmoving System	7-17
7.6.4	Alternative Daily Cover	7-18
7.6.5	Leachate Recirculation	7-18
7.6.6	Bio-Reactor	7-19
7.6.7	Steam Injection	7-20
7.6.8	Landfill Reclamation	7-20
7.7	Landfill Disposal Options	7-21
7.7.1	In-County Disposal	7-21
	7.7.1.1 Existing Landfills	7-21
	7.7.1.2 Vertical Expansion of West Miramar Landfill	7-22
	7.7.1.3 Sycamore Landfill Expansion	7-22
	7.7.1.4 Gregory Canyon	7-22
7.7.2	Out-of-County Disposal	7-23
	7.7.2.1 Imperial County	7-23
	7.7.2.2 Riverside County	7-24
	7.7.2.3 Orange County	7-25
7.7.3	Out-of-County Waste-by-Rail Disposal	7-25
	7.7.3.1 Waste-by-Rail Required Infrastructure	7-25
	7.7.3.2 Mesquite Regional Landfill (MRL)	7-26
	7.7.3.3 Eagle Mountain Landfill	7-27
