

Mid-City

Public Facilities Financing Plan Fiscal Year 2014

June 2014

Planning, Neighborhoods & Economic Development
Facilities Financing

THE CITY OF SAN DIEGO

RESOLUTION NUMBER R- 309032

DATE OF FINAL PASSAGE JUN 23 2014

A RESOLUTION OF THE COUNCIL OF THE CITY OF
SAN DIEGO APPROVING THE FISCAL YEAR 2014
MID-CITY PUBLIC FACILITIES FINANCING PLAN AND
DEVELOPMENT IMPACT FEE SCHEDULE.

WHEREAS, the Council has reviewed and considered the methodology set forth in the Fiscal Year 2014 Mid-City Public Facilities Financing Plan and Development Impact Fee Schedule (FY 2014 Mid-City Financing Plan), on file in the Office of the City Clerk as Document No. RR- 309032 ; NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. The FY 2014 Mid-City Financing Plan is approved.
2. That the Chief Financial Officer is authorized to establish and modify individual Capital Improvement Program project budgets to reflect the FY 2014 Mid-City Financing Plan provided funding is available for such action.
3. Effective sixty days from the date of final passage of this resolution, that all development impact fees due under the FY 2014 Mid-City Financing Plan, shall be those fees in effect at the time building permits are issued, plus automatic annual increases in accordance with San Diego Municipal Code section 142.0640(b).
4. That the FY 2014 Mid-City Financing Plan, is incorporated by reference into this Resolution as support and justification for satisfaction of findings required pursuant to the Mitigation Fee Act, as set forth in California Government Code section 66000 et seq., for imposition of development impact fees. Specifically, it is determined and found that this documentation:

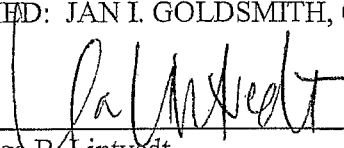

- a. Identifies the purpose of the development impact fee, which is to ensure that new development projects pay a share of the funding needed for community serving infrastructure necessary to serve new development;
- b. Identifies the use to which the development impact fee is to be put. The development impact fees will be used to finance transportation, park and recreation, library, and fire-rescue facilities as set forth in the FY 2014 Mid-City Financing Plan;
- c. Demonstrates how there is a reasonable relationship between the development impact fee use and the type of development project on which the development impact fee is imposed. The development impact fees will be used to provide for a contribution for community serving infrastructure needed to serve both residential and non-residential development; and
- d. Demonstrates how there is a reasonable relationship between the need for the public facility and the type of development project on which the development impact fee is imposed.
 - (i) Transportation Projects: Both residential development and non-residential development utilize the community's transportation system. Various street projects, traffic signal interconnect systems, landscaping, and median improvements are necessary to adequately serve the community.
 - (ii) Park and Recreation Projects: Residential development utilizes the community's park and recreation facilities, and improvements are necessary based on the projected population at full community development to maintain existing levels of service, and to achieve General Plan standards.
 - (iii) Library Projects: Residential development utilizes the community's libraries, and improvements are necessary based on the projected population at full

community development to maintain existing levels of service, and to achieve General Plan standards.

(iv) Fire-Rescue Projects: Residential and non-residential development will be served by community fire facilities, and additional facilities are necessary based on the projected population at full community development, General Plan standards, and established emergency response times.

APPROVED: JAN I. GOLDSMITH, City Attorney

By

Inga B. Lintvedt
Deputy City Attorney

MID-CITY COMMUNITY BOUNDARY

Mid-City Summary

General

The City of San Diego General Plan describes a jurisdiction with primarily two tiers: Urbanized Lands, and Proposition A areas. Urbanized Lands are characterized by older, recently developed, and developing communities at urban and suburban levels of development. Proposition A Lands are characterized by very-low density, residential, open space, natural resource-based park, and agricultural uses. The Mid-City Community Plan area is an Urbanized Lands area, and provides a guide for future development within Mid-City as part of the General Plan.

As companions to community plans, and to help determine and mitigate the cost of public facilities, the City Council has adopted Development Impact Fees (DIFs) in communities throughout the City. The Mid-City Public Facilities Financing Plan was adopted on August 4, 1998 by Resolution No. R-290610, and the DIF for the Mid-City community was also set at that time. This document is the first update to, and supersedes, the Mid-City Public Facilities Financing Plan as well as the Mid-City community DIF. It sets forth the major transportation (streets, storm drains, traffic signals, etc.), libraries, park and recreation facilities, and fire stations facilities needed to serve the community. Together, the Community Plan and the Financing Plan determine the public facility needs of the community.

This Financing Plan is based on population assumptions at full community development, which is anticipated to occur in 2030, and the facilities that will be needed to accommodate growth that occurs before that time.

Development Forecast and Analysis

The Mid-City Community Plan is a comprehensive policy guide for the development of the community. The Mid-City Community is located centrally in the San Diego metropolitan area, east of Greater North Park, south of Mission Valley, north of Southeastern SD and west of the City of La Mesa. The Mid-City Community includes four City Council approved community planning areas: City Heights, Eastern Area, Kensington/Talmadge and Normal Heights as shown in Figure 1. The Mid-City Community, totaling approximately 8,044 acres, is developing in accordance with the Mid-City Community Plan, adopted in 1998.

Currently, the Mid-City community has approximately 26,410 single family detached units and 25,594 multiple family dwelling units, with a total population of 148,946. Based on existing development and the Mid-City Community Plan, approximately 8,061 additional residential dwelling units are anticipated within the Mid-City Community Plan area, resulting in a total of 60,065 dwelling units and a total population of 173,108 by the year 2030.

Periodic Revision

To ensure that this Financing Plan remains up-to-date and accurate, it is to be periodically revised to include, but not necessarily be limited to, amendments to the Mid-City Community Plan. The fee schedule will be updated annually to reflect inflationary increases.

Existing Public Facilities & Future Needs

Transportation

Mid-City is served by a transportation network which consists of automobile and public transportation systems, a bicycle system, and a pedestrian circulation system.

Transportation improvements in Mid-City are largely dictated by traffic volume. Improvements will be funded through a combination of Development Impact Fees, grants, subdividers, and other currently unidentified funding sources.

The most current information available from SANDAG's Traffic Model indicates that the average daily trips (ADTs) generated in the community in Year 2010 was approximately 812,000, with an additional 145,000 ADTs projected by Year 2030. The total of 957,000 ADTs in Year 2030 is used in determining the transportation component of the Development Impact Fee for Mid-City (please refer to page 11 for additional fee calculation information). The Development Impact Fee provides a funding source for the improvements identified in Table 1 and is to be paid by new development at building permit issuance. New development is not required (and cannot be required) to contribute to existing deficiencies in the transportation system. Other funding sources will need to be identified for remaining transportation needs.

Park and Recreation

The City's General Plan guidelines recommend 2.8 useable acres of parkland for every 1,000 residents. The City's General Plan recommends a 3-13 acre neighborhood park for every 5,000 population located within an approximately 1.0 mile service radius, a minimum 13 acre community park for every 25,000 population typically serving one community planning area (however, the community park may serve multiple community planning areas depending on location), and a recreation center for every 25,000 population or within an approximately 3 mile service radius, whichever is less. For every 50,000 population a community swimming pool is recommended within an approximately 6 mile service radius.

The Mid-City community is currently served by 5 community parks, 18 neighborhood/pocket/mini parks and 15 joint use facilities. Based on the City of San Diego General Plan guidelines for population-based park acreage approximately 417.05 acres of usable parks are needed to serve the existing population of 148,946. Additionally, based on the SANDAG 2030 population forecast of 173,108, a total of approximately 484.71 usable acres of population-based park land is needed to serve the community at full community development.

The entire usable park acreage and projected population is used to determine the park component of the Development Impact Fee for Mid-City. The Development Impact Fees collected from new development generate only that portion of the amount needed for new development since impact fees cannot be collected from existing development. Proposed parks are further described in Table 1 with details provided beginning on page 79. In order to meet the 2.8 acres of usable parkland per 1,000 population standard set forth in the General Plan, the City may impose additional fees on discretionary projects on an ad hoc basis.

Library

The Mid-City Community is served by three Library branches located in City Heights, Kensington/Normal Heights and Oak Park. The area is also served by the College Heights Branch on College Avenue north of El Cajon Boulevard. The Kensington/Normal Heights and Oak Park Libraries need to be expanded to serve the increase in population. These Library projects are further described in Table 1 with details provided beginning on page 121.

Fire Protection

Fire-Rescue protection for the Mid-City community is provided by Station #17, located in City Heights; Station #18, located in Normal Heights; Station #10, located in the Eastern Area; and Station #26, located in Oak Park. In addition, the area is also served by Station #14, located in North Park, and four stations near Mid-City to the West and South. The Fire-Rescue Department has identified the need for the reconstruction/expansion of one existing fire station and the construction of two new fire stations to serve Mid-City. (Table 1, pg 124-126)

Police Protection

The Mid-City community is served by the San Diego Police Department's Mid-City Division, located at 4310 Landis Street and the police substation located at 5348 University Avenue. No additional stations are needed.

Summary of Public Facilities Needs

The following figures and tables summarize the facility needs by the four sub-areas – City Heights, Eastern Area, Kensington-Talmadge and Normal Heights.

Table 1, beginning on page 23, summarizes all of the projects for the Mid-City Communities. Tables 2-5 reflect both long range needs and those needs reflected in the current Council adopted Capital Improvement's Program (CIP) for the four sub-areas. These projects are more fully described beginning on page 37.

Figures 2-5 illustrate general locations for projects within the four sub-areas of the Mid-City Communities.

The projects listed in the tables are subject to revision in conjunction with Council adoption of the annual Capital Improvement Program's Budget. Depending on priorities and availability of resources, changes to these projects are possible from year to year. In addition, the City may amend this Financing Plan to add, delete, substitute, or modify a particular project to take into consideration unforeseen circumstances.

Mid-City - Public Facilities Financing Plan

Financing Strategy

The City of San Diego has a variety of potential funding sources for financing public facilities which will be provided in part by developers as part of the development process. Potential other methods for financing public facilities are listed below:

- A. DEVELOPMENT IMPACT FEES (DIF)
- B. TRANSNET, GAS TAX
- C. ASSESSMENT DISTRICTS
- D. LANDSCAPING AND LIGHTING ACTS
- E. GENERAL OBLIGATION BOND ISSUES
- F. CERTIFICATES OF PARTICIPATION (COP)
- G. LEASE REVENUE BONDS
- H. BUSINESS LICENSE TAX REVENUE*
- I. CAPITAL OUTLAY (LEASE REVENUE)
- J. COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)
- K. FRANCHISE FEE REVENUE*
- L. LOCAL TRANSPORTATION FUND
- M. MOTOR VEHICLE LICENSE FEE (MVLFF) REVENUE*
- N. PARKING VIOLATION REVENUE*
- O. PARKING METER REVENUE*
- P. PARK SERVICE DISTRICT FEES (PSD)
- Q. PROPERTY TAX REVENUE*
- R. TRANSIENT OCCUPANCY TAX (TOT)*
- S. ANNUAL ALLOCATIONS
- T. PRIVATE CONTRIBUTIONS
- U. UTILITY USERS TAX
- V. SPECIAL TAXES FOR FIRE AND POLICE PROTECTION
- W. SPECIAL TAXES FOR PUBLIC LIBRARIES
- X. PARK AND PLAYGROUND ACT OF 1909
- Y. GRANTS
- Z. REGIONAL TRANSPORTATION CONGESTION
IMPROVEMENT PROGRAM (RTCIP)

*These funds are currently allocated for general City operations, but may be used for capital improvements.

- A. DEVELOPMENT IMPACT FEES (DIF)** - Development Impact Fees are a method whereby the impact of new development upon the infrastructure is assessed, and, a fee system developed and imposed on developers to mitigate the impact of new development. DIF cannot be used for existing development's share. Impact fees are collected at the time of building permit issuance. Funds collected are deposited in a special interest bearing account and can only be used for identified facilities serving the community in which they were collected. As sufficient funds are collected, the City proceeds with a construction program. Use of impact fees is one of the financing methods recommended for Mid-City.
- B. TRANSNET, GAS TAX,** and other programs such as a state-local partnership program may provide funds for community transportation projects. These funds will be allocated annually and may be used to fund a portion of the long-range capital need for future transportation improvements in Mid-City.
- C. ASSESSMENT DISTRICTS** – Special assessment district financing, such as the Municipal Improvement Acts of 1913/1915, may be used as a supplementary or alternative method of financing facilities such as streets, sidewalks, sewers, water lines, storm drains, and lighting facilities. Assessment districts may be beneficial in that they provide all of the funding needed for a particular public facility project in advance of the projected development activity. However, assessment districts also create a long-term encumbrance of the benefiting property and require that the funds be repaid over an extended period of time. Assessment districts also require approval of at least 50% of the property owners, based on a ballot process with votes weighted in proportion to the assessment obligation in order to establish the district.
- D. LANDSCAPING AND LIGHTING ACTS** - Funds may be used for parks, recreation, open space, installation/construction of planting and landscaping, street lighting facilities, and maintenance. These ballot measures require a 2/3 voter approval for passage. These assessments may only be imposed if a majority protest does not exist.
- E. GENERAL OBLIGATION BOND ISSUES** - Cities, counties and school districts may issue these bonds to finance land acquisition and capital improvements. The bonds are repaid with the revenues from increased property taxes. Bond issuance requires 2/3-voter approval for passage.

- F. CERTIFICATES OF PARTICIPATION (COP)** - These funds may only be used for land acquisition and capital improvements. City Council approval is required and a funding source for Debt Service must be identified.
- G. LEASE REVENUE BONDS** - These funds may be only used for capital improvements. City Council approval is required.
- H. BUSINESS LICENSE TAX REVENUE** - These funds are currently allocated for general City operations; but may be used for capital improvements. City Council approval is required.
- I. CAPITAL OUTLAY (LEASE REVENUE)** - These funds are to be used for capital improvements. City Council approval is required.
- J. COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)** - This is a federal grant that is applied for annually. Applications are reviewed annually; City Council and HUD approval are required.
- K. FRANCHISE FEE REVENUE** - The City collects franchise funds from San Diego Gas and Electric and cable companies for use of City right-of-way. These funds are currently allocated for general City operations; but may be used for capital improvements. City Council approval is required.
- L. LOCAL TRANSPORTATION FUND** - These funds are applied for and are used only for bikeway projects. City Council and federal approval are required.
- M. MOTOR VEHICLE LICENSE FEE (MVLF) REVENUE** - The state allocates a portion of vehicle license fee revenue to local governments. These funds are currently allocated for general City operations; but may be used for capital projects. City Council approval is required.
- N. PARKING VIOLATION REVENUE** - These funds are currently allocated for general City operations; but may be used for capital improvements. City Council approval is required.
- O. PARKING METER REVENUE** - These funds are currently allocated for general City operations; but may be used for capital improvements. City Council approval is required.

- P. PARK SERVICE DISTRICT FEE (PSD)** - This fee is charged at the subdivision level and can only be used for parks and park improvements. City Council approval is required.
- Q. PROPERTY TAX REVENUE** - Property owners are taxed one percent of the assessed value of the property. The City receives approximately 17 percent of the one percent. These funds are currently allocated for general City operations; but may be used for capital improvements. City Council approval is required.
- R. TRANSIENT OCCUPANCY TAX (TOT)** - The City's hotel tax is 10.5 percent and is currently allocated annually to eligible (tourist-related) organizations that request funding and to tourist-related City activities; but may be used for capital improvements. City Council approval is required.
- S. ANNUAL ALLOCATIONS** - In the years prior to the passage of Proposition 13, the City was able to respond to community facility needs by using a portion of sales tax revenue to support the Capital Improvements Program. This has not been possible for some time. However, if other revenues are increased, annual allocations could again be used to fund some capital facilities. This is a recommended method of funding some park and recreation facilities and transportation improvements. City Council approval is required.
- T. PRIVATE CONTRIBUTIONS** - Any private donations received by the City for capital improvements. City Council approval is required.
- U. UTILITY USERS TAX** - These funds may be used for any general City operation or capital improvement. These require 2/3 voter approval for passage.
- V. SPECIAL TAXES FOR FIRE AND POLICE PROTECTION** - These funds may only be used for fire and police activities. These require 2/3 voter approval for passage.
- W. SPECIAL TAXES FOR PUBLIC LIBRARIES** - These funds may only be used for libraries and library improvements. These require 2/3 voter approval for passage.
- X. PARK AND PLAYGROUND ACT OF 1909** - These funds may be used for parks, urban open-space land, playground, and library facilities. These require 2/3 voter approval for passage.

Y. GRANTS - Grants are available and applied for from the federal government, state and other agencies.

Z. REGIONAL TRANSPORTATION CONGESTION IMPROVEMENT PROGRAM—(RTCIP)—These funds may be used for regional transportation improvements. Collected from residential development only, county wide program.

General Assumptions and Conditions

In connection with the application of the following methods of financing, these general assumptions and conditions would apply:

1. Developers will be required to provide facilities normally provided within the subdivision process as a condition of subdivision approval, including but not limited to traffic signals.
2. Abutting property owners are responsible for frontage improvements such as sidewalks, curbs and gutters.
3. The Development Impact Fee will be paid by the developer at the time of building permit issuance.
4. At the time of Development Impact Fee estimate calculation, with proof of type and amount of prior land use, and/or provision of demolition permit or demolition sheet within a permit submittal package, DIF credit for previous use (and/or demolished structures on the parcel) is applied towards the calculation of impact fees assessed on the new use and/or new building structure.
5. Development Impact Fees collected will be placed in a separate interest bearing fund with interest earnings accumulated for use in the community planning area for identified facilities.
6. Non-residential development will be charged for transportation and fire facilities through the Development Impact Fee, and may be charged additional fees for park and recreation and library facilities on an ad hoc basis as appropriate.
7. Any project –specific community plan amendments may result in additional fees being charged on an ad hoc basis.
8. Additional fees may be imposed on discretionary projects on a case-by-case basis in order to meet the standard of 2.8 acres of parkland per 1,000 population set forth in the General Plan, or to otherwise fully account for a project's public facilities impacts.

Development Impact Fee Determination

Background

In late 1987, staff developed and recommended impact fees for 28 urbanized communities. The City Council adopted the recommended fees, including those for the Mid-City Community planning area, to mitigate the impact of new development on public facilities. All undeveloped and underdeveloped parcels are subject to Development Impact Fees (DIF). Monies collected are placed in City interest-accruing funds, to be used only for capital improvements serving the Mid-City Community.

The Mid-City Community Plan area is near full development. As such, impact fees will provide only a portion of the financing needed for the facilities proposed in this Financing Plan. The remaining identified public improvements will require other funding sources.

Distribution of Project Costs and Fee Determination

Development Impact Fees are based on the extent or degree to which each type of development generates a demand for various public facilities. For example, all development generates vehicular traffic and demand for fire services, and thus, on an equitable basis, should share in the cost of transportation and fire projects. Residential development also generates demand for park and recreation and library facilities. Non residential development may also create a need for parks or libraries, and may be charged fees for those facilities on an ad hoc basis as appropriate.

Development Impact Fees were determined for the various categories of needed public facilities at full community development (2030). The Development Impact Fee basis includes all eligible project needs except those identified as subdivider funded. The fees also include a charge to cover the City's costs for administering the Financing Plan.

Transportation

There is a clear relationship between the use of transportation facilities and the generation of vehicular trips based upon land use. In the report "San Diego Traffic Generators," authorized by CALTRANS and SANDAG, the traffic generated by various classes of use is detailed. This report summarizes data collected at major regional traffic generators as well as neighborhood and local traffic generators in the San Diego area. Traffic counts taken at each facility are related to various characteristics of the facility such as size, type of use, number of employees, floor area, parking spaces, or number of persons.

The Mid-City Community Planning Area is an Urbanized Lands area, which means that most development will be infill. It also means that most development will be multi-family residential development. The residential portion of the impact fee reflects an average daily trip factor (ADT) of seven (7) as a basis for determining the Development Impact Fee. A considerable range has been found for traffic generation in non-residential developments depending on the character and use of the property. Therefore, the Development Impact Fee for non-residential development is determined by ADTs generated by the development. The residential portion of the impact fee reflects an average (under 20 dwelling units: 8 trips/dwelling unit; over 20 dwelling units: 6 trips/dwelling unit) vehicle trip rate of seven as a basis for determining the impact fee.

Transportation projects included in the basis for the Development Impact Fee have been determined to be consistent with the Community Plan. The transportation improvements are laid out to design standards and material quantities are determined (e.g., the length of curbs and gutters, and square footage of retaining walls and sidewalks, etc.). Unit prices are then applied to the quantities, which are guided by the median prices received on current City of San Diego construction bid documents. Please refer to Appendix A for more detail. Additional costs are applied for contingencies, mobilization, engineering and design, right-of-way, bonds and environmental work.

This Financing Plan includes 42 transportation projects. Though the 42 projects are all primarily attributable to new development, the Financing Plan calculates the transportation fee by dividing the DIF-basis by the community-wide trips at full community development (957,000 trips in 2030). This approach was chosen on the basis that the entire community (not just the new development) will benefit from the future facilities. The use of this approach results in a fee that will partially fund the future DIF-basis facilities (assuming that the entire community is fully built out). To achieve 100% of funding requirements for all future transportation facilities, other funding sources in addition to DIF will have to be identified.

Using the Community Plan land use intensity and trip generation rates, the total number of trips forecasted for Year 2030 at full community development is estimated to be 957,000. The total estimated cost (in FY 2014 dollars) for all eligible transportation improvements required to serve the community at full community development is \$69,653,749. Adding 8 percent administrative costs to this total results in a cost of \$79 per ADT generated by non-residential development and \$553 per residential development unit. These amounts will be paid by all future development.

Park and Recreation

Park and Recreation needs are based on projected population at full community development and a park standard of 2.8 usable acres per 1,000 residents. Mid-City, with a current population of 148,946, has a population-based park acreage requirement of 417.05 usable acres. The 2030 population is estimated to be 173,108 which has a population-based park acreage requirement of 484.71 usable acres. The community presently has 213.49 usable park acres, which is 271.22 acres short of meeting the 2030 City standard for usable park acreage.

The Financing Plan includes 40 park projects, identified as projects P1 through P40 on pgs 79-119. For purposes of calculating fees for this plan, park cost estimates are based on design and construction costs of \$748,000 per acre, land acquisition costs of \$1,400,000 per acre, and recreation center costs of \$660 per square foot. Design and construction estimates are based on recently received competitive bids for other typical population-based park development projects. Land acquisition costs are based on a fair market value estimate. The total cost of the park and recreation facilities needed to serve the community at full development with 484.71 usable acres of parks, and the projects described herein, is estimated to be \$615,525,699. These costs constitute the DIF-basis. Adding an administrative cost of 5 percent, the DIF-basis becomes \$646,301,983.95.

The Financing Plan calculates the park fee by dividing the DIF-basis by the number of residential units at full community development (60,065 residential units in 2030). This approach has been chosen on the basis that the entire community, not just the new development, will benefit from the future park facilities and the new development should not fund all the necessary projects. To achieve 100% of funding requirements for future park facilities, other funding sources in addition to DIF will have to be identified.

Taking the DIF-basis of \$646,301,983.95, divided by 60,065 residential units at full development, the fee for park and recreation facilities is \$10,760 per residential unit.

Library

Library needs are based on population, which is derived from the number of dwelling units estimated at full community development. Therefore, only residential development is charged a Development Impact Fee for libraries.

Based on the anticipated total of 60,065 dwelling units at full community development, this results in a Development Impact Fee for library facilities of \$356 per dwelling unit. This was calculated by dividing total library requirements of \$19,821,530 (including 8 percent administrative costs) by 60,065 (the number of residential dwelling units at full community development).

Fire Facilities

The Fire Station portion of the impact fee relates to the cost of providing fire facilities to adequately provide fire protection services to both residential and non-residential development within the community. Residential Development Impact Fees are based on an average cost per dwelling unit. It is assumed that the average size of a dwelling unit is 1,000 square-feet. Non-residential Development Impact Fees are based on the average cost per 1,000 square feet of gross building area.

The Fire-Rescue Department has identified the need for the reconstruction/expansion of one existing fire station and the construction of two new fire stations to serve Mid-City. Using the total amount of development, both residential and non-residential (approximately 103,929,920 square feet), and Mid-City's share of the cost for the needed fire facilities of \$24,635,365, plus 8% administrative costs, the resulting impact fee is \$256 per residential dwelling unit and \$256 per thousand square feet of non-residential development. This was calculated by dividing the total fire requirements for Mid-City of \$24,635,365 by 103,930.

FY 2014
Mid-City Community
Development Impact Fee Schedule
Effective Date 8/22/14

The impact fees for the Mid-City Community planning area are as follows:

RESIDENTIAL PROPERTY					COMMERCIAL/INDUSTRIAL	
Transportation	Park & Rec	Library	Fire	Total per Residential Unit	Transportation	Fire
\$ Per Residential Unit					\$/ADT	\$/1000 sq. ft. of Gross Building Area (GBA)
\$553	\$10,760	\$356	\$256	\$11,925	\$79	\$256

**The DIF Schedule will increase every July 1, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering News-Record.*

Project Funding Sources

The project schedule and financing table on each project page uses a coding system to identify funding and revenue sources. This table provides a brief description of each potential source.

City Heights Area Planning Committee Priority List

The following list represents the highest to lowest priorities of the Planning Committee

Public Facilities Financing Plan - 2013 CHAPC Review DRAFT - Jan 20, '14				
PFFP ID #	Top of list	Middle of list	Bottom of list	Drop/Delete
T-3	Widen Euclid Avenue to a 3-lane collector			X
T-5	Widen Home Avenue to a 4-lane collector			X
T-6	X	I-805 S/B Home Ave left turn lanes, <u>Caltrans should take the lead in funding this project</u>		
T-7	Fairmount Avenue between El Cajon Boulevard and Redwood/Poplar Streets			X
T-9	Right & left turn lanes from Euclid to University. Right turn lane from E/B University to S/B Euclid			X
<u>T11A</u> <u>New Number</u>	<u>X</u>	<u>Drainage channel between the 5000 blocks of Wightman and University. Add language to prevent cementing the channel and to make this item consistent with Chollas Creek Enhancement Plan.</u>		
<u>T11B</u> <u>New Item</u>	<u>X</u>	<u>Add CIP for Oak Creek Drainage Channel North of University consistent with Chollas Creek Enhancement Plan</u>		
T-13	<u>X</u>	<u>SR-15 Enhancements - mitigation for freeway not completed - still need street retail, rest rooms, elevators, and bus stops for BRT. Caltrans should fund this project</u>		
<u>T-14A</u> <u>New Number</u>	X	<u>Euclid Avenue Improvements - Add sidewalks N side of Euclid Avenue, Home Avenue to Altadena Avenue.</u>		
<u>T-14B</u> <u>New Item</u>	X	<u>New CIP for sidewalks and landscaping on Euclid Ave South of Dwight Street; to Myrtle Street on the West side and to Isla Vista Drive on the East side.</u>		
T-15	Home/Euclid traffic signal upgrades - completed			
T-16	X	<u>Azalea Park identification signs. Delete Tulip St reference and Redevelopment funding. Change Schedule to show this project is unfinished.</u>		
T-17	<u>X</u>		<u>Delete (3). Retain (6) and (7)</u>	
T-18	<u>X</u>	<u>Traffic Signal Modifications - Drop (16). Phase, time, repair, and renovate signals throughout City Heights to smooth traffic flow</u>		
T-19	<u>X</u>	<u>Accessibility Compliance - Add language to the "funding block" for this item: "The Disability Services set-aside funds should be used for this project"</u>		
T-20	X	Euclid Avenue Corridor Improvements		
T-21	<u>X</u>	South 38th Street Improvements		
T-25				<u>X</u>
T-28	<u>X</u>	<u>Streets, Curbs, Gutters, Sidewalks, and Storm Drains - CHAPC Chair identify new locations. Add Civic San Diego to fund sources.</u>		

Mid-City Public Facilities Financing Plan FY 2014

T-29	<u>The City Heights Area Planning Committee should be included in the review, design, and monitoring of construction.</u>			
<u>T-30A</u> <u>New Item</u>		<u>X</u>	<u>Resurrect Item MC-T30 from 2007 PFFP. Add SANDAG and Caltrans as funding sources.</u>	
T-31	<u>The City Heights Area Planning Committee should be included in the review, design, and monitoring of construction.</u>			
<u>T-31A</u> <u>New Item</u>	Chollas Creek Enhancement Plan - Info item only. <u>Move from Transportation to Park and Recreation section of Plan and re-number accordingly. See note 4 below.</u>			
T-32	X			
T-33	<u>The City Heights Area Planning Committee should be included in the review, design, and monitoring of construction.</u>			
T-34			X	
T-35			<u>X</u>	
<u>T-36</u>	<u>Add Caltrans as a funding source.</u>			
T-37		<u>X</u>		
<u>T-38</u> <u>New Item</u>		<u>X</u>	<u>Working with CHAPC, plan and install public transportation infrastructure throughout City Heights. Funding from Caltrans, SANDAG, and Civic San Diego.</u>	
---	---	---	---	---
B-1		X	Bikeways on 43rd from Meade to Ridge View; on Poplar from Fairmount to Home; on Home Avenue from Fairmount to Federal Blvd.; on Federal from home to Euclid	
B-5	Complete SR-15 Bike Lane		X	
---	---	---	---	---

P-4		X	City Heights Recreation Center Improvements	
P-5	If anything can be done to improve Park de la Cruz, then keep this item.		X	
P-6	Teralta Neighborhood Park		X	
P-7	X	Add Skate Plaza to the Central Avenue Mini-park		
P-8	Azalea Park Recreation Center Improvements		X	
P-9	Azalea Park Expansion is completed			X
P-10	Correct name to "Chollas Creek Neighborhood Park" and retain.		X	
P-11	Hollywood Park Improvements		X	
P-12	X	Complete construction of Charles Lewis Park		

Mid-City Public Facilities Financing Plan FY 2014

P-13		X	
P-14		X	
P-15	<u>Retain as an information only item.</u>		
P-16	Retain the Rowan E.S. Joint Use Improvements item	X	
P-17	X	Complete the Wightman Street Neighborhood Park	
P-18	X	Complete Colina del Sol Park Improvements	
P-19	X	Complete Colina Recreation Center Improvements	
P-20	Wilson Middle School Joint Use Park		X
P-21	X	Design and Build Chollas Parkway Mini-park	
<u>P-21A</u> <u>New Item</u>		<u>X</u>	<u>Construct skateparks at suitable locations in City Heights</u>
P-26	<u>The City Heights Area Planning Committee should be included in the review, design, and monitoring of construction.</u>		
---	---	---	---
L-1	City Heights Library		X
---	---	---	---
PFFP ID #	Top of list	Middle of list	Bottom of list
F-2	X	Fire Station-17 Construction	
F-3	X	Construct new "Home Avenue Fire Station"	

Eastern Area Communities Planning Committee

Priority List

The following list represents the highest to lowest priorities of the Planning Committee

H	New Fire Station - location to be determined - possibly Rolando Park / College Grove Center area
H	Remodel and enlarge Oak Park Fire Station
H	Mobility Study Euclid Ave, 54 th St, Federal Blvd - from 54 th /Euclid Ave Merge-Fork south to I-94 on/off ramps and funding for improvements to include Federal Blvd, especially West to Home Ave - to include to synchronizing traffic signals and bikeways marking - WORK w/ CALTRANS
H	Mobility Study for El Cajon Blvd - 54 th to La Mesa - to include to synchronizing traffic signals and bikeways marking
H	Streamview St Improvement Plan - Study completed, have Plan - If not funded, need to fund for improvements - to include to synchronizing traffic signals and bikeways marking.
H	Chollas Park Improvements - North - Comfort Station, move Dog Park Phase to Number 3, behind Comfort Station - have plans and phasing for same - need funding for Implement the Joe Baines GDP Plan for Chollas Lake Park to make the lake sustainable.
H	Webster Community Sunshine Bernardini - approx 8 acres - have land, we are told there is funding for design plan - need materials and equipment funding
H	Chollas Triangle Neighborhood Park - approximately 7 acres, near school, to include a good size dog park - funding for acquisition, design, materials, equipment and construction
H	Clay Park - install gathering platform walkways, workout/exercise path/equipment
H	Oak Park, Park Maple & 52 nd - Convert existing building - approx. 20ft x 10ft to public Comfort Station. Roof replaced approx. 10 years ago - already has plumbing and very small bathroom(s).
M	Chollas Park Improvements - South have plans and phasing for same - need funding
M	Mini Parks for each Eastern Area community - funding for acquisition, design and construction of approximate 6, 1/2 - 1 acre parks as property becomes available
H	New Library for Oak Park - explore and encourage joint Library and Recreation Center Use
H	Install handicap ramps at corners of all sidewalks
H	Upgrade all traffic signals - have working audible pedestrian signals for crossing in all directions throughout the community
H	Joint Use field for Rolando Park Elementary School - design and construction to include sprinkler system and turf
M	Joint Use field for Webster Elementary School - design and construction to include sprinkler system and turf
M	Joint Use field for Carver Elementary School - design and construction to include sprinkler system and turf
M/L	Joint Use field for Darnall Elementary School - design and construction to include sprinkler system and turf
M/L	Joint Use field for Mann Middle School - Fund Improvements
M/L	Joint Use field for Clay Elementary School - Fund Improvements
M/L	Joint Use field for Oak Park Elementary School - Fund Improvements
H	East bound On Ramp to Highway 94 from College Grove Way - WORK w/ CALTRANS
M	Design and construction of plumbing to provide recycled water to Eastern Area to use for outdoor watering as water continues to become an ever increasing issue. We think it is important for our area and other south of current boundary to have access to this resource - do not want to have to go without while other areas in the City have access to recycled water for these purposes.
M	Implement University Avenue Mobility Plan - to include to synchronizing traffic signals and bikeways marking
M	Traffic Engineering on College Avenue - to include to synchronizing traffic signals and bikeways marking
M	Traffic engineering review of College Grove Drive Shopping Center - Entire Section College Grove Drive from College Avenue intersection to College Grove Way; College Drive to Interstate 94
M	Traffic engineering study of El Cajon Boulevard / College Avenue intersection to include right and left turn pockets from and onto each street in all directions

Mid-City Public Facilities Financing Plan FY 2014

M	Traffic engineering study of El Cajon Boulevard / 70 th Street Intersection to include right and left turn pockets from and onto each street in all directions
H	Traffic engineering study of Chollas Triangle Improvements
M	Implement improvements of College Grove Drive / College Avenue intersection traffic flow based on study
H	Implement improvements of University / 54 th Street intersection based on study (Chollas Triangle Improvements)
M	Implement improvements of El Cajon Boulevard / College Avenue intersection based on study
H	Implement safe streets to school for Oak Park Elementary School to include painted cross walks and signage
H	Implement safe streets to school for Iftin Charter / Mann Middle School to include painted cross walks and signage
H	Implement safe streets to school for Rolando Park Elementary School to include painted cross walks and signage
H	Implement safe streets to school for Webster Elementary School to include painted cross walks and signage
H	Implement safe streets to school for Carver K-8 th Grade School to include painted cross walks and signage
H	Implement safe streets to school for Darnall Elementary School to include painted cross walks and signage
H	Implement safe streets to school for Clay Elementary School to include painted cross walks and signage
Remove	New traffic signal at 54 th and Nutmeg (remove this project)
H	Traffic Calming - El Cerrito round-a-bouts 60 th and Vale, Vale and Meade; 58 th Street at Olympic Drive and 58 th Street and Trojan Avenue. This project is tied with the project below.
H	Traffic Calming Rolando Village Community Streets – Rolando Ave, Solita Ave, Alamo Dr. Malcolm St. Aragon St. Mataro, Seminole Drive. This project is tied with the project above.
M	Traffic calming study and implementation within Webster community
M	Traffic calming study and implementation within Oak Park community
M	Traffic calming study and implementation within Rolando Village community
M	Traffic calming study and implementation within Rolando Park community
M	Traffic calming study and implementation within Redwood Village community
M	Traffic calming study and implementation within El Cerrito community
H	Resurface 54 th Street/Euclid from El Cajon Boulevard to Hwy 94
M	Resurface community streets within Webster community
M	Resurface community streets within Oak Park community
M	Resurface community streets within Redwood Village community
M	Resurface community streets within El Cerrito community
M	Resurface community streets within Rolando Village community
M	Resurface community streets within Rolando Park community
M	All EACPC - Street Gutters and Sidewalks Storm Drains needed for sitting water on several streets w/ problems – installation of permeable – Green paving materials and design for areas where water pools.
H	Chollas Creek Improvement Plan - have plan - need to fund for improvements
H	Parking signs—3hour limit near 63 rd & El Cajon Blvd (Clay Park)
M	Replace existing gunite-covered hillsides with native plant terraced-retaining walls (54 TH Street)
L	Additional Eastern Area Pool – Eastern edge of community
M	Implement bicycle master plan throughout community

Kensington-Talmadge Planning Committee Priority List

The following list represents the highest to lowest priorities of the Planning Committee

HIGH PRIORITIES

- T-1 Aldine/Monroe Roadway Reconfiguration, Drainage (various), Curb & Gutter, Wall, & Fairmount/Aldine Off Ramp Expansion
- T-17.4 Adams & Kensington Traffic Signal
- T-20 ECB & Euclid Traffic Signal Priority Left Turn
- T-30 Euclid & Monroe Pedestrian Xing Improvements
- T-32* Kensington Street Lighting (Various), ECB Street Lighting (44th to 54th)
- T-33 ECB to N/B Fairmount Right Turn Lane

MEDIUM PRIORITIES

- P-33 Talmadge Park
- T-19 Kensington Park Tot Lot Mat ADA Upgrade
- T-31 ECB—Hoover High Pedestrian Xing Improvements

LOW PRIORITIES

- B-3 Aldine Drive and Meade-Monroe Bicycle Path
- F-4 College Area Fire Station
- L-3 Kensington/Normal Heights Library Expansion
- T-18.3 ECB & 52nd St Traffic Signal Improvements
- T-18.10 ECB & Fairmount Traffic Signal Improvements
- T-18.12 ECB & Winona Traffic Signal Improvements
- T-28 Streets, Sidewalks, Curb & Storm Drain Improvements at various locations (not Aldine)

Note:

*T-32: While the street lights have been given a Public Facilities Financing Plan Project Code, staff has determined that they are not eligible for financing through the Development Impact Fee.

Normal Heights Community Planning Group Priority List

The following list represents the priorities of the Planning Committee

- P-37 Ward Canyon Community Park-Development: Include a facility/community building as planned.
- L-3 Kensington/Normal Heights Library Expansion: Either expand or new.
- T-30 Safety Upgrades—Traffic Circles, Traffic Calming Devices: Traffic Calming intersection treatments (traffic circles and pedestrian accommodation) on Adams at EMV and Ken Drive.
- P-40 San Diego River Trail: From Normal Heights to Mission Valley need to further define.
- P-20 Wilson Middle School—Joint Use Improvements: Athletic facility including ball fields, and possibly the swimming pool referenced in P-35.
- P-35 Normal Heights—Ken/Tal Community—Swimming Pool: Possible location, Wilson JU site in P-20.
- T-28 Streets, Sidewalks, Curbs, Gutters & Storm Drains: Locations based on updated sidewalk study.
- P-36 Normal Heights Land Acq & Dev for Parks: Potential site, passive park space at end of Cromwell Ct. (Acquisition & Development of vacant lots at the end of Cromwell Ct)

CITY OF SAN DIEGO

FACILITIES FINANCING PROGRAM

TITLE: **ALDINE DRIVE - VAN DYKE AVENUE TO MONROE AVENUE**

DEPARTMENT: TRANSPORTATION & STORM WATER

CIP/WBS #:

PROJECT: T-1
COUNCIL DISTRICT: 9
COMMUNITY PLAN: MID-CITY

THIS PROJECT WILL PROVIDE IMPROVEMENTS TO ALDINE DRIVE.

- (1) ALDINE DRIVE RETAINING WALL: INSTALL RETAINING WALL ON SOUTH SIDE OF ALDINE E. OF FAIRMOUNT
- (2) MONROE/ALDINE DRIVE ROADWAY RECONFIGURATION: WIDEN, STRAIGHTEN, & LEVEL ALDINE DRIVE
- (3) FAIRMOUNT/ALDINE DRIVE OFF RAMP EXPANSION: WIDEN THE FAIRMOUNT TO ALDINE OFF RAMP TO 2 LANES
- (4) ALDINE DRIVE CURB & GUTTER: INSTALL CURB & GUTTER ON ALDINE FROM VAN DYKE TO EUCLID
- (5) MONROE BETWEEN MENLO & 47TH ST STORM DRAIN: IMPROVE DRAINAGE BY EXPANDING CAPACITY OF INLET
- (6) 47TH ST & MENLO 4400 BLOCK CULVERT: IMPROVE DRAINAGE BY INSTALLING A CULVERT
- (7) EUCLID & MONROE AVE S/W CORNER STORM DRAIN: IMPROVE DRAINAGE BY ADDING STORMWATER INLET

JUSTIFICATION: THIS PROJECT WILL IMPROVE THE STREETS TO CITY STANDARDS. THE CURB AND GUTTER WILL BETTER DIRECT THE STREET DRAINAGE FROM THE HILL SIDES AND PREVENT ANY FURTHER EROSION. THIS PROJECT IS CONSISTENT WITH THE MID-CITY COMMUNITY PLAN AND THE CITY'S GENERAL PLAN GUIDELINES.

SCHEDULE: DESIGN AND CONSTRUCTION WILL BE SCHEDULED WHEN FUNDING IS IDENTIFIED.

FUNDING:	SOURCE	EXPEN/ENCUM	CONT APPR	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019

CITY OF SAN DIEGO

FACILITIES FINANCING PROGRAM

TITLE: EL CAJON BOULEVARD AND 70TH STREET INTERSECTION

DEPARTMENT: TRANSPORTATION & STORM WATER

PROJECT: T-2

CIP/WBS #:

COUNCIL DISTRICT: 4

COMMUNITY PLAN: MID-CITY

DESCRIPTION: THIS PROJECT WILL PROVIDE FOR THE IMPROVEMENT ON EL CAJON BOULEVARD AT THE 70TH STREET INTERSECTION. THESE IMPROVEMENTS INCLUDE WIDENING, WHICH REQUIRES ADDITIONAL RIGHT-OF-WAY, AND RELOCATING THE RAISED CENTER MEDIAN TO PROVIDE A SEPARATE RIGHT-TURN LANE ON THE WEST AND EAST LEGS, DUAL LEFT-TURN LANES ON THE WEST LEG AND A SINGLE LEFT-TURN LANE ON THE EAST LEG. IT ALSO PROVIDES FOR CLASS III BICYCLE LANES.

JUSTIFICATION: THIS PROJECT IS REQUIRED TO MITIGATE THE AFFECTS OF GROWTH CAUSED BY REDEVELOPMENT AND TO IMPLEMENT THE COLLEGE COMMUNITY REDEVELOPMENT PLAN. THIS PROJECT IS CONSISTENT WITH THE MID-CITY COMMUNITY PLAN AND THE CITY'S GENERAL PLAN GUIDELINES, AND IS INCLUDED IN THE COLLEGE AREA FINANCING PLAN AS PROJECT T-12.

SCHEDULE: THE COST ESTIMATE INCLUDES AN ENVIRONMENTAL IMPACT REPORT (EIR) TO DETERMINE FEASIBILITY OF THE PROJECT.

PROJECT: T-5

CIP/WBS #:

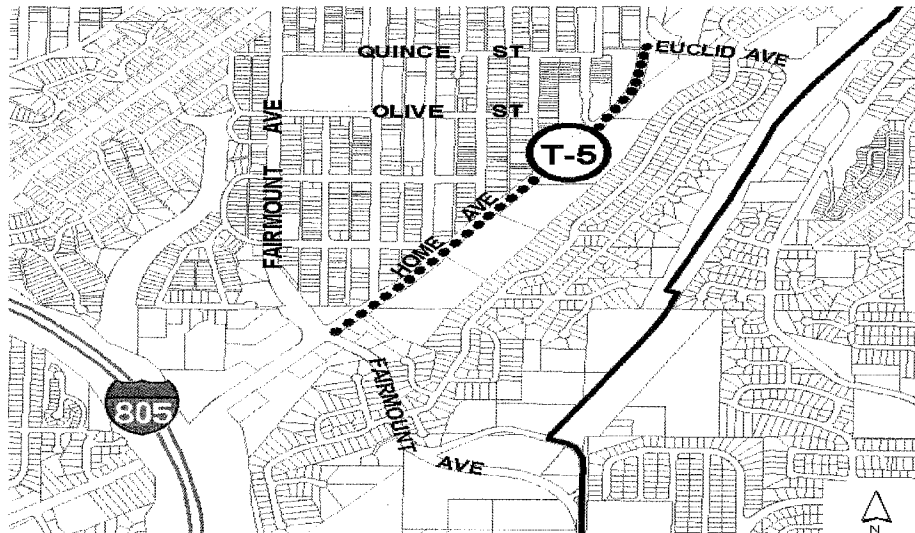

COUNCIL DISTRICT: 9

COMMUNITY PLAN: MID-CITY

DESCRIPTION: THIS PROJECT PROVIDES FOR THE WIDENING OF HOME AVENUE TO A FOUR-LANE COLLECTOR STREET FROM FAIRMOUNT AVENUE TO EUCLID AVENUE. IMPROVEMENTS INCLUDE CURBS, SIDEWALKS, ASPHALT PAVING, DRAINAGE FACILITIES AND STREET LIGHTING. THE IMPROVEMENTS OF HOME AVENUE TO A FOUR LANE COLLECTOR WILL REQUIRE WIDENING OF THE CORRIDOR WITHIN THE LIMITS PROPOSED. IMPACTS INCLUDE, BUT NOT LIMITED TO: INSTALLATION OF CURB, GUTTER, SIDEWALKS, SIGNAGE, PRIVATE PROPERTY ACQUISITION AND STREET LIGHTING. THE PROJECT WILL NEED TO EVALUATE THE RELOCATION OF SEWER/WATER/STORM DRAIN FACILITIES AND THE INSTALLATION OF RETAINING WALLS. THE CORRIDOR FROM 47TH STREET TO EUCLID AVENUE WILL REQUIRE MAJOR CONSIDERATION DUE TO ITS LIMITED RIGHT OF WAY.

JUSTIFICATION: THIS PROJECT IMPROVES TRAFFIC FLOW AND IS CONSISTENT WITH THE MID-CITY COMMUNITY PLAN AND THE CITY'S GENERAL PLAN GUIDELINES.

SCHEDULE: THE COST ESTIMATE INCLUDES AN ENVIRONMENTAL IMPACT REPORT (EIR) TO DETERMINE FEASIBILITY OF THE PROJECT. THE CITY HEIGHTS AREA PLANNING COMMITTEE FEELS THIS PROJECT SHOULD BE REMOVED FROM THE FINANCING PLAN.

CITY OF SAN DIEGO

FACILITIES FINANCING PROGRAM

TITLE: EUCLID AVENUE IMPROVEMENTS - PHASES I & II

DEPARTMENT: TRANSPORTATION & STORM WATER

CIP/WBS #: 52-699.0 (PHASE I)
52-699.1 (PHASE II)
S00886

PROJECT: T-14
COUNCIL DISTRICT: 9
COMMUNITY PLAN: MID-CITY

DESCRIPTION: THIS PROJECT PROVIDED FOR THE COMPLETION OF STREET IMPROVEMENTS RECOMMENDED IN THE EUCLID AVENUE REVITALIZATION PROGRAM AND THE MID-CITY COMMUNITIES PLAN. IMPROVEMENTS EXTEND FROM HOME AVENUE TO THORN STREET AND WILL INCLUDE CURB, GUTTER, SIDEWALK, LANDSCAPING, PAVING AND TRAFFIC CALMING INSTALLATIONS. A) SIDEWALKS NORTH SIDE OF EUCLID AVE, HOME AVE TO ALTADENA AVE. B) SIDEWALKS AND LANDSCAPING ON EUCLID AVE SOUTH OF DWIGHT ST; TO MYRTLE ST ON THE WEST SIDE AND TO ISLA VISTA DRIVE ON THE EAST SIDE.

JUSTIFICATION: EUCLID AVENUE CARRIES A TRAFFIC VOLUME IN EXCESS OF ITS DESIGN CAPACITY, RESULTING IN SIGNIFICANT CONGESTION, WHICH IMPACTS NEIGHBORING PROPERTIES. TRAFFIC SPEED, VOLUME AND A DEFICIENCY IN PEDESTRIAN INFRASTRUCTURE COMPROMISE PEDESTRIAN SAFETY. THIS PROJECT IS CONSISTENT WITH THE MID-CITY COMMUNITY PLAN AND IS IN CONFORMANCE WITH THE CITY'S GENERAL PLAN.

SCHEDULE: THIS PROJECT IS PARTIALLY COMPLETE. THE LANDSCAPE, WHICH IS PENDING FORMATION OF A MAINTENANCE ASSESSMENT DISTRICT IS STILL NEEDED. THE STREET IS OPERATIONAL AND OPEN FOR TRAFFIC. ADDITIONAL IMPROVEMENTS MAY BE ADDED. POTENTIAL SITE IMPROVEMENTS MAY INCLUDE SIDEWALKS N. & S. SIDES OF EUCLID AVE.

DEPARTMENT: FIRE-RESCUE

CIP/WBS #: 33-058.1

PROJECT: F-1

COUNCIL DISTRICT: 3,4,9

COMMUNITY PLAN: North Park

DESCRIPTION: THIS PROJECT PROVIDED FOR THE DESIGN, DEMOLITION, EXPANSION/RECONSTRUCTION AND FURNISHING OF FIRE STATION 14 LOCATED AT 4011 32ND STREET IN THE NORTH PARK AREA. IT HOUSES ONE ENGINE, ONE AERIAL LADDER TRUCK, ONE DIVISION CHIEF, AND A CREW OF EIGHT FIREFIGHTERS. THIS STATION SERVES NORTH PARK AND MID-CITY. THE COST WILL BE SPLIT 50% NORTH PARK (\$767,625), 50% MID-CITY (\$767,625). 50% OF THE COST WILL BE COUNTED TOWARD THE MID-CITY DIF BASIS. \$696,250 OF ACTUAL MID-CITY DIF WAS USED TO HELP FUND THE PROJECT.

JUSTIFICATION: THE ORIGINAL STRUCTURE WAS BUILT IN 1943 AND HAD BEEN REMODELED SEVERAL TIMES TO BETTER UTILIZE EXISTING SPACE. THE NEW FACILITY PROVIDES PERMANENT QUARTERS FOR THE DIVISION CHIEF AND SEPARATE RESTROOMS FOR MALE AND FEMALE FIREFIGHTERS. THIS FIRE STATION SERVICES A PORTION OF MID-CITY.

SCHEDULE: DESIGN WAS FUNDED IN FISCAL YEAR 1988, CONSTRUCTION COMPLETED IN FISCAL YEAR 1992.

TITLE: FIRE STATION 17 -EXPANSION/RECONSTRUCTION (CITY HEIGHTS)

DEPARTMENT: FIRE-RESCUE

PROJECT: F-2

CIP/WBS #: S00783

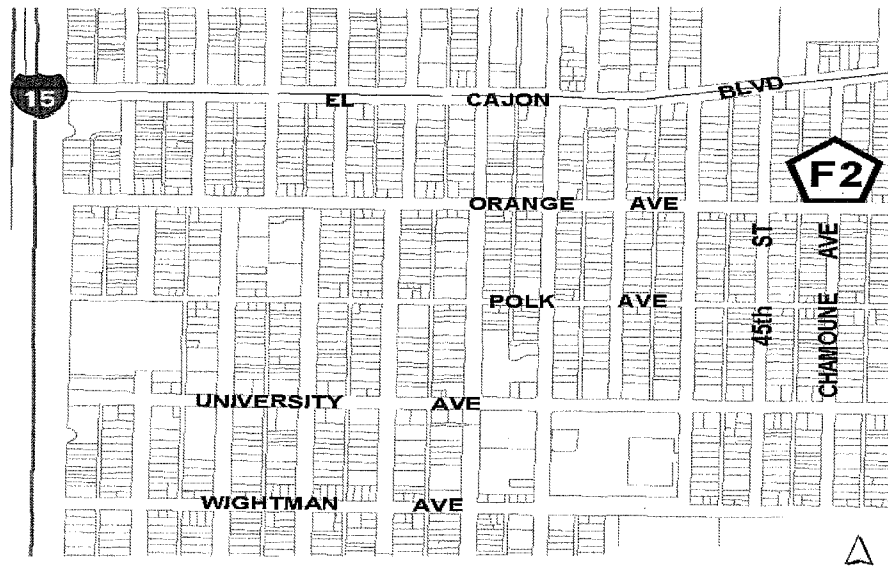

COUNCIL DISTRICT: 9

COMMUNITY PLAN: MID-CITY

DESCRIPTION: THIS PROJECT PROVIDES FOR THE EXPANSION/RECONSTRUCTION OF THE 50-YEAR OLD FIRE STATION AT 4206 CHAMOUNE AVENUE IN MID-CITY (CITY HEIGHTS). THE STATION WILL ACCOMMODATE UP TO TEN PERSONNEL, TWO FIRE APPARATUS AND ONE PARAMEDIC UNIT. THIS IS ONE OF 12 PROJECTS INCLUDED IN THE FIRE AND LIFE SAFETY SERVICES FACILITY IMPROVEMENT PROGRAM APPROVED BY THE MAYOR AND CITY COUNCIL ON FEBRUARY 27, 2001 PER COUNCIL RESOLUTION R-294609 AND AMENDED BY THE MAYOR AND CITY COUNCIL ON APRIL 16, 2002 PER COUNCIL ORDINANCE O-19054.

JUSTIFICATION: THIS PROJECT IS REQUIRED TO MAINTAIN ADEQUATE COVERAGE OF THE SERVICE AREA, IS IN CONFORMANCE WITH THE CITY'S GENERAL PLAN GUIDELINES, AND IMPLEMENTS THE MID-CITY COMMUNITY PLAN'S RECOMMENDATIONS. MID-CITY IS RESPONSIBLE FOR 90% OF THE PROJECT AND NORTH PARK IS RESPONSIBLE FOR 10%. SEE NORTH PARK PFFP PROJECT F4.

SCHEDULE: DESIGN SHOULD BE COMPLETE IN FISCAL YEAR 2014, THE PROJECT CONSTRUCTION SCHEDULE WILL BE REVISED ONCE FUNDING IS IDENTIFIED. NOTE: MID-CITY'S FAIR SHARE OF THE COST OF THIS PROJECT (\$10,773,000) IS 90%; NORTH PARK'S FAIR SHARE (\$1,197,000) IS 10%.

APPENDIX A

FY 14 Cost Estimate Breakdown for Transportation Projects

(Construction Costs Only)

Drainage:

Drainage	\$110 per linear foot
Major Drainage Structure	\$44,000 each

Earthwork:

Clearing and Grubbing	\$.39 - \$.94 per square foot
Excavation and Export	\$16.50 - \$66.00 per cubic yard
Excavate and Fill	\$16.50 - \$38.50 per cubic yard
Import and Fill	\$27.50 - \$38.50 per cubic yard

Landscaping:

Landscaping	\$7.50 - \$16.50 per square foot
-------------	----------------------------------

Surface Improvements:

Asphalt Concrete Overlay 1"-2"	\$.44 - \$.66 per square foot
Asphalt Concrete Leveling Course	\$132 per ton
Curb and Gutter Type G	\$22 - \$33 per linear foot
Curb Ramps	\$1,320 - \$2,420 each
Driveways	\$7.70 - \$13.20 per square foot
Median Curb Type B2	\$27.50 - \$38.50 per linear foot
Remove Curb and Gutter	\$5.50 - \$16.50 per linear foot
Remove Pavement	\$2.20 - \$11.00 per square foot
Remove Sidewalk	\$1.65 - \$3.85 per square foot
Sidewalk	\$4.40 - \$7.15 per square foot
4" AC	\$1.10 - \$2.20 per square foot
11" - 16" Cement Treated Base	\$1.65 - \$4.40 per square foot

Traffic:

New Street Light	\$6,600 each
New Traffic Signal	\$160,000 each
Relocate Street Light	\$3,300 - \$3,850 each

Miscellaneous:

Concrete Median Barrier	\$25 - \$65 per linear foot
Great Crash Cushion	\$35,000 - \$40,000 each
Guard Rail	\$30 - \$40 per linear foot
Retaining Wall	\$35,000 - \$40,000 each

Transportation projects not estimated with itemized work are estimated by length of project in feet. Construction (only) for a typical four-lane collector costs \$1,790 per linear foot. Construction (only) for a typical four-lane bridge costs \$2,750 per linear foot.

APPENDIX B

Mid-City FY 2014 Public Facilities Financing Plan Update 2014 Cost Estimate for Park and Recreation Projects

LAND ACQUISITION:	\$1,400,000 per acre ⁽¹⁾
FACILITIES DESIGN AND CONSTRUCTION: ^(2,3,4) .	
Aquatics Complex (Swimming Pool Development) ⁽⁵⁾	\$6,339,000 per complex
Children's Play Area – ADA Upgrade	\$748,000 lump sum
Children's Play Area - New	\$813,000 each
Comfort Station - ADA Upgrade	\$605,000 each
Comfort Station - New	\$813,000 each
Park Site Development ⁽⁶⁾	\$748,000 per acre
Parking Lot Expansion	\$690,000 per ½ acre
Path of Travel - ADA Upgrade ⁽⁷⁾	\$974,000 lump sum
Picnic Shelter	\$288,000 each
Recreation Center - Expansion	\$660 per square foot
Recreation Center – New (17,000 s.f. building)	\$565 per square foot
Security Lighting	\$519,000 lump sum
Sports Field Lighting	\$605,000 per sports field

(1) The land cost is based on a cost per acre estimate obtained through a city wide study, based on appraisals from Real Estate Assets Department, as appropriate.

(2) Improvement costs are provided as a general summary estimate. Costs will vary according to specific site requirements, and size and quantity of facilities needed, and should be determined on a case by case basis. Individual project costs will vary based on the specific improvements included in the project, economy of scale, quantity of improvements, etc.

(3) Cost estimates include construction administration and contingencies, project administration, design and inspection.

(4) Costs should be adjusted annually to reflect the Engineering News Record Construction Cost Index for Los Angeles (CCI) rate change (from March-to-March). The above costs incorporate the 2011 (2.72%), 2012 (2.48%) and 2013 (0.00%) CCI rate changes.

(5) Aquatics Complex includes a standard 25-yard x 25-meter swimming pool; a pool house building with locker rooms, restrooms, and administrative offices; and other recreational or therapeutic aquatic facilities.

(6) Park Site Development includes: Grading and drainage; irrigation; turf and landscaping; walkways; fencing; security lighting; drinking fountains; benches; tables; trash receptacles; and identification signage.

(7) Path of travel upgrades are required when existing paths are inaccessible, and when existing inaccessible facilities are located along the paths of other facilities that are being improved. This includes the path of travel from the site entry point at the public right-of-way that is closest to public transportation stops and designated accessible parking areas. Facilities that may require upgrades include parking areas, sidewalks and curb ramps, sanitary facilities, drinking fountains, benches and tables, public telephones, signage, etc.

FY 2014
Mid-City Community
Development Impact Fee Schedule
Effective Date 8/22/14

The impact fees for the Mid-City Community planning area are as follows:

RESIDENTIAL PROPERTY					COMMERCIAL/INDUSTRIAL	
Transportation	Park & Rec	Library	Fire	Total per Residential Unit	Transportation	Fire
\$ Per Residential Unit					\$/ADT	\$/1000 sq. ft. of Gross Building Area (GBA)
\$553	\$10,760	\$356	\$256	\$11,925	\$79	\$256

**The DIF Schedule will increase every July 1, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering News-Record.*
