Significant Budget Adjustments

San Diego Convention Center Corporation

Positions

Impact

Operating Revenues:

\$1,864

Consistent with past performance, FY05 will bring increases in Building Rent and Event Utility Revenues. These increases more than offset decreases in event related revenues over the last year that were generated by a couple of one-time only events.

Operating Expenses:

(\$738,922)

The increase of \$738,922 is attributable to a shifting of hours from Part Time staff to Full Time staff to create operating synergies, along with increases in various types of employee related Insurance, provisions for represented labor contractual wage increases and severance payments and benefits related to the Concourse closure. The increase is partially offset by decreases in Utility, Property Insurance, Professional Services, Printing and Employee Recognition Expenses.
