

Department Description

The General Services Department is comprised of seven distinct divisions/programs. The Department operates with a core mission to provide the most efficient and effective service to the residents and visitors of San Diego and to its fellow City departments with every member of the Department striving for excellence in public service. Included in the General Services Department are the following divisions:

- Facilities Division
- Fleet Services Division
- Street Division
- Publishing Services Division

In addition, the Department manages the following programs:

- Contracts (under Facilities)
- Department Administration
- Public Works Dispatch Center (under Street)

Facilities Division

Division Description

The Facilities Division provides day-to-day maintenance and repair services to over 1,600 facilities, including preventive maintenance, scheduled maintenance, emergency repairs, and deferred maintenance. Deferred maintenance work includes re-roofing facilities, replacing Heating, Ventilating, and Air Conditioning (HVAC) systems, performing structural improvements, and other repair work.

The Division's mission is:

To proactively, systematically, and in an environmentally-responsible manner maintain and enhance the City's capital assets, ensuring that they are safe, clean, and functional

Goals and Objectives

The following goals and objectives represent the action plan for the Division.

Goal 1: Provide preventive, corrective, and emergency maintenance to City facilities to ensure efficient and effective operations

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Develop and implement preventive maintenance programs for City facilities
- Provide ongoing condition assessment of facilities
- Utilize available resources effectively to maintain the City's physical assets

Goal 2: Provide quality facility services efficiently and economically

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Provide quality customer service at a high level of user satisfaction
- Utilize a computerized maintenance management system for work control
- Respond to emergency requests in a timely manner

Goal 3: Ensure facilities comply with industry standards with regard to environmental responsibility

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Comply with hazardous material regulations and laws
- Comply with City Administrative Regulation 35.80, Environmentally Preferable Purchasing Program

Goal 4: Provide a team of skilled facility professionals, prepared and able to serve as the City's provider of facilities asset management, maintenance, and repair

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Provide ongoing professional training related to job classification
- Maximize workplace safety
- Provide on-going training to ensure knowledge of building codes

Service Efforts and Accomplishments

The Facilities Division focused on defining the backlog of deferred maintenance and reducing this backlog. A comprehensive Facilities Condition Assessment was performed on 31 critical Life/Safety facilities (Police, Fire, and Lifeguard Stations). The Facilities Division also upgraded its computer work management system *iMaint* to provide better work management, production control, and performance monitoring. The Division has completed roof repairs for Museum of Art, Museum of Man (Phase I), Old Globe Theatre, Main Library, Malcolm X Library, San Ysidro Community Center, San Ysidro Recreation Center, and Bud Kearns Pool. The Division is also well underway in its comprehensive facility assessment. This is expected to be complete by November 2008. More specifically, the Division has completed a condition assessment for the elevator systems in the City Administration Building (CAB) and the City Parkade. From this assessment, two contract actions were initiated to rehabilitate the electromechanical systems of all eight elevators in these facilities.

The Facilities Division has also increased its funding. The Mayor's Fiscal Year 2009 budget will add 500% more funding for addressing the deferred maintenance in City facilities. No funds were provided for the City's deferred maintenance needs by previous administrations during the budget year the Mayor took office. The Mayor's proposal dedicates much-needed dollars to deferred maintenance and capital improvements.

Fleet Services Division

Division Description

The newly consolidated Fleet Services Division provides all departments with motive equipment and a full range of fleet management services. These services include acquisition, fitting, maintenance and repair, the provision of parts and fuel, body repair, painting, metal fabrication, disposal services, and other motive equipment-related support services, such as machining, equipment rental, and operator training.

The Division's mission is:

To provide our customers with safe, economical, state-of-the-art, environmentally friendly and reliable fleet services, delivered by highly skilled professionals

Goals and Objectives

The following goals and objectives represent the action plan for the Division.

Goal 1: Be responsive to and accountable for meeting our customers' fleet mission requirements

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Meet or exceed industry and customer standards for designated fleet availability rates
- Create and maintain life-cycle replacement plans for equipment
- Replace motive equipment in accordance with life cycle standards

Goal 2: Provide quality fleet services efficiently and economically

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Ensure usage rates reflect the highest level of efficiency and effectiveness
- Provide quality customer service to achieve a high level of user satisfaction

Goal 3: Minimize the environmental impact of the fleet

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Reduce overall vehicle emissions
- Comply with hazardous materials regulations and laws

Goal 4: Provide a highly-trained and certified team of professionals, prepared and able to serve as the City's consolidated provider of fleet services

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Maximize workplace safety
- Enhance the level of employee and team professional certifications

Service Efforts and Accomplishments

In the beginning of Fiscal Year 2008, the Fleet Business Process Reengineering (BPR) project was completed. The project resulted in the consolidation of three distinct fleets, Police, Fire-Rescue, and Non-Safety, into one division and allowed for the reduction of 27 budgeted positions and one repair location. With fewer resources, the consolidated Fleet Services Division continues to complete at least 95 percent of preventive maintenance work within one day and maintain vehicle availability of approximately 95 percent. Additionally, one unleaded fuel tank was automated and 19 diesel vehicles were retrofitted to meet California Air Resources Board requirements. Two other retrofit projects involving 25 diesel vehicles are underway to further reduce fleet emissions.

A major achievement for the Division was recognized during the Fire Storm 2007 contingency operations. When the fires broke out on October 21, 2007, the Fleet Services Division was able to recall all critical personnel to fully staff the maintenance facilities, staff the Emergency Operations Center throughout the event and to field all 20 reserve Type 1 fire engines in addition to over 95% of the front line engines. The unity of command enabled the City of San Diego to place transportation assets in the best tactical locations to maximize its resources.

Budget Dollars at Work: Performance Expectations

Goal 1: Be responsive to and accountable for meeting our customers' fleet mission requirements

	Performance Measure	Baseline FY2007	Actual FY2008	Target FY2009

³ Beginning in Fiscal Year 2008, the Police Department and Fire-Rescue Department fleets were combined with the Equipment Division to form the Fleet Services Division.

Publishing Services Division

Division Description

Publishing Services is the City of San Diego's full service, in-house reproduction and graphics center. Publishing Services provides full reproduction capability, including offset press operations, high-volume copying, and product finishing services. Also provided are graphic design and electronic publishing services. In addition, Publishing Services manages the City-wide Photocopier Program and provides more than 580 copiers for departmental needs.

The Division's mission is:

To provide the highest quality of reprographic services to our customers in the most timely manner and at the lowest possible cost

Goals and Objectives

The following goals and objectives represent the action plan for the Division.

Goal 1: Respond adeptly to the City's requirements for reprographic services

The Division will move toward accomplishing this goal by focusing on the following objectives.

- Effectively market the services available from Publishing Services to other City departments
- Provide consultative services to ensure that there is appropriate planning on City projects with significant reproductive implications

Goal 2: Support the current and future needs of the City by using the most current technology and delivering services in a flexible, responsive, and professional manner

Publishing Services strives to meet all of the City's reprographic needs. Publishing Services recognizes that being able to provide the must up-to-date technology and employ a flexible and responsive workforce is the best way to ensure that the operations keep up with ever changing customer demands. The Division will move toward accomplishing this goal by focusing on the following objectives.

- Maintain an agile, able, and cross-trained work force, able to use new technology and expand the product base as warranted
- Enhance the technical and customer services knowledge and skills of employees through appropriate training and education
- Keep Publishing Services current by using appropriate technology and investing in new technology as economically feasible
- Plan for the future needs of the City by keeping abreast of industry trends and soliciting feedback regarding customer demands

Goal 3: Offer the best technology at the best price for convenience copiers

Publishing Services is responsible for managing the City's photocopier program, including the maintenance and administration of over 580 photocopiers distributed throughout the City. As such, it is imperative that Publishing Services leverages its resources to obtain the best technology and price for the City so that customers' low-volume copying needs can be conveniently met. The Division will move toward accomplishing this goal by focusing on the following objectives.

- Get the best value from the photocopier contract by ensuring that customers have the appropriate equipment for their operations and that the contract is properly managed
- Keep updated on current market trends as preparation for future photocopier bid processes
- Ensure the photocopier program is accurately and fully reimbursed by customer departments

Goal 4: Recover costs of services through appropriate pricing structures

As an Internal Service Fund division, it is imperative that Publishing Services be fully cost recoverable in its operations. Therefore, Publishing Services has the priority of ensuring its rates, accounting, and work management practices are accurate and current. The Division will move toward accomplishing this goal by focusing on the following objectives.

- Ensure the Publishing Services rate/cost structure is updated, current, and appropriate
- Ensure that work management and accounting systems are stable and accurately recover costs of doing business

Service Efforts and Accomplishments

Publishing Services supported the City's reprographic needs throughout the year by maintaining the leases for the City's convenience copiers (those used by departments for their printing and day-to-day photocopying needs), providing quick print and offset press impressions, and providing graphics for inclusion in the City's hard copy and electronic publications. Over the last year, Division services included production of both hard copy (three volumes) and electronic (CD) versions of the annual budget document in both proposed and final versions. In addition, the Division provided rapid response support to the wildfire relief efforts by producing signage and informational flyers for the various information and evacuation centers.

Budget Dollars at Work: Performance Expectations

Street Division

Division Description

The Street Division maintains and repairs all streets, alleys, sidewalks, bridges, guardrails, and fences; administers annual resurfacing and slurry seal contracts; maintains and repairs street lights and traffic signals; performs traffic lane striping; paints and removes traffic markings and legends; maintains and manufactures traffic signs; and maintains street trees.

The Division's mission is:

To provide a safe City street system through effective and efficient maintenance, with an emphasis on exceptional customer service

Goals and Objectives

The following goals and objectives represent the action plan for the Division.

Goal 1: Streets, sidewalks, and associated infrastructure are safe, operable, and pedestrian-friendly, as appropriate

It is vital to ensure public safety, preserve our infrastructure and improve life quality. The Division will move toward accomplishing this goal by focusing on the following objectives.

- Achieve industry standards for overall pavement condition index
- Achieve acceptable level of response for sidewalk locations that need repair
- Ensure that electrical facilities are operable and traffic control devices meet safety standards
- Respond to potholes in a timely manner

Goal 2: Planned maintenance is conducted on annual basis

Planned preventative maintenance will reduce requests for service, achieve an enhanced level of response, and improve the safety and operability of our infrastructure. The Division will move toward accomplishing this goal by focusing on the following objective.

Develop and implement planned maintenance schedules

Goal 3: Asset maintenance and replacement is planned and proactive

This will preserve infrastructure, facilitate planned maintenance, and ensure appropriate response to service requests. The Division will move toward accomplishing this goal by focusing on the following objectives.

- Track assets through a complete and accurate asset inventory
- Maintain an updated assessment of the condition of infrastructure assets

Goal 4: Personnel are responsive to customers and provide exceptional customer service

This is part of the City's commitment for quality, timely, and friendly customer service. The Division will move toward accomplishing this goal by focusing on the following objective.

Continue to strive for exceptional customer service

Service Efforts and Accomplishments

Street Division is responsible for a wide range of services and operations that are provided by the Roadways, Electrical, Traffic, Urban Forestry, and Trench Restoration sections.

Roadways

This section is responsible for maintaining the streets pavement surfaces and sidewalks. This section receives and responds to over 9,000 service requests annually. This section also filled over 52,000 potholes. One of Street Division's major objectives is to meet the City's goal to resurface 134 miles of streets. Deferred maintenance funding for streets, sidewalks, and storm drains has significantly increased from \$2.5 million to \$33.1 million in Fiscal Year 2008. Additionally, planning and programming of Fiscal Year 2009 deferred maintenance projects was completed for the planned funding of \$70 million in Fiscal Year 2009, which is in line with the Mayor's Five-Year Financial Outlook.

Electrical

This section is responsible for the maintenance and operations of over 1,600 traffic signals and flashing beacons and approximately 50,000 street and park lights. This section is also responsible for converting approximately 24,000 street lights from low pressure sodium (LPS) to high pressure sodium (HPS). The conversion process is expected to be completed by June 30, 2008 as mandated by City Council. The electrical crews respond to over 19,000 service requests annually.

Traffic

This section is responsible for maintaining traffic control devices and barriers along the City's 2,900 miles of streets and alleys. This section receives and responds to approximately 14,000 service requests per year for maintenance of lane line striping, pavement legends, traffic signs, wooden barricades, guardrails, and pavement markers.

Urban Forestry

This section is responsible for maintenance and planting of trees within the public right-of-way. This section receives and responds to over 4,000 service requests annually. In addition, the Urban Forestry staff coordinates tree planting events with community groups, council offices, and non-profit private organizations.

Trench Restoration

This section is responsible for performing trench restoration work under a Service Level Agreement (SLA) with the Water and Metropolitan Wastewater Departments. The Trench Restoration staff repairs damaged roadway surfaces and sidewalks associated with water and sewer work within the street right-of-way.

Street Division was a major respondent to the 2007 fire storm emergencies; Division staff cleared debris from evacuation routes, swept streets to minimize debris entering our storm drain system, replaced guardrails and damaged traffic signs, and provided materials/equipment and personnel support to the erosion control station at the local assistance center.

FY 2007*

* At the time of publication audited financial statements for Fiscal Year 2007 were not available. Therefore, the Fiscal Years 2007 and 2008 columns reflect final budget amounts from the Fiscal Year 2007 and 2008 Annual Budgets. As such, balances and reserves do not reflect carryover from the previous fiscal year.

(1) It is anticipated the Publishing Services Fund will end Fiscal Year 2009 with a fund deficit. To mitigate this fund deficit several courses of action will be explored, including expenditure reductions, possible BPR efficiencies, and if necessary requesting assistance from the General Fund to balance the fund. Fee increases to make the fund cost recoverable have been approved and have been implemented.

(2) All Graphic and Electronic Publishing Operations have been consolidated for Fiscal Year 2009.

(3) All Quick Copy Operations have been consolidated for Fiscal Year 2009.
