<b>Improv Type:</b> New	agarcia@sandiego.gov

**Description:** This project provides for an approximate 10,500 square foot fire station located at 3902 9th Avenue. The existing fire station will be demolished and replaced by a new, modern fire station. This station will house a crew of eight and one Battalion Chief. It will accommodate one engine, one aerial truck, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification / Public Benefit:** The current station is 48 years old. The water and sewer service to the existing station is deteriorating and requires immediate repairs. The station is too small to accommodate a new style fire engine and the larger type of aerial ladder truck.

**Operating Budget Impact:** The square footage increase of this fire station will result in increased maintenance costs estimated at \$5,000 annually.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project is scheduled to finish design in Fiscal Year 2011.

**Summary of Project Changes:** It is anticipated that this project will receive bond funding in Fiscal Year 2011.

**Description:** This project provides for a new lifeguard station and family restroom at the Children's Pool in La Jolla. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Description:** This project provides for construction of the Lifeguard Headquarters located at 2581 Quivira Court. The replacement facility will house lifeguards, mechanics, 24-hour, administrative, and training staff, and will provide an operation yard and storage for the rescue fleet. Construction of this lifeguard facility will occur in two phases. Phase I to replace the emergency dock has been completed. This is one of ten lifeguard projects included in the Fire Rescue and Life Safety Services Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction of the Lifeguard Headquarters facility has been deferred due to lack of funds.

**Justification / Public Benefit:** The existing facility was constructed in 1956 and is inadequate to accommodate staff and equipment. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

**Summary of Project Changes:** The revenue source for the completion of this project is unidentified contingent upon future bond financing. The Lifeguard Headquarters cost and schedule will be revised when funding is identified.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities and on-going maintenance are estimated to increase by approximately \$8,000.
