

Department Description

The City Comptroller Department performs the general accounting and financial reporting function for the City of San Diego. The Department has eleven primary sections that service the financial accounting needs of the City. Included within its scope of responsibility are the following: financial reporting, including the Consolidated Annual Financial Report (CAFR); governmental accounting for all funds including the General Fund; payroll accounting and processing for all City employees; disbursements of all City obligations which includes vendor invoice payments and contract debts; Redevelopment Agency accounting and reporting for the City's 14 redevelopment project areas; Public Utility and other enterprise, and internal service fund accounting; long-term debt accounting and reporting; grant management and accounting for all City grants; fixed asset accounting; construction-in-progress (CIP) accounting which includes all ongoing building projects, and internal controls over financial reporting and operations.

The Department's mission is:

To provide timely and accurate financial services and information to City management, elected officials, and the public in order to effectively manage public resources

Goals and Objectives

The following are the strategic goals and objectives for the Department:

Goal 1: Provide accurate and timely accounting services to the City

The Department will move toward accomplishing this goal by focusing on the following objectives:

- Organize accounting sections to provide the right level of service to each of the Department's internal customers
- Work closely with the SAP ERP Support organization to identify system risks and enhancements that improve the Department's operational effectiveness

City Comptroller

- Work with customer department management and staff to help develop more streamlined transaction processing workflows

Goal 2: Provide high quality financial reports in a timely manner

The Department will move toward accomplishing this goal by focusing on the following objectives:

- Continue to develop comparative interim period actual-to-budget summary financial reports for public presentation
- Develop a set of SAP summary and detail financial reports for management
- Continue to develop key metric databases and reports; push key metric reports out to management in a timely manner to allow them to gauge department performance and make real-time decisions that affect operational efficiency

Goal 3: Engage in continuous improvement of the City's internal controls over financial reporting and operations

The Department will move toward accomplishing this goal by focusing on the following objectives:

- Continue to develop process narratives and workflow documents to further define transactional processes across all operations and the key internal control elements within each process
- Develop automated and manual testing routines utilizing the SAP GRC tool; begin testing material key internal control elements
- Encourage active participation and ownership of internal control processes and monitor progress
- Maintain and monitor an audit recommendation database to ensure that all agreed-to audit recommendations get implemented across City department operations

Goal 4: Hire, retain, and develop a skilled professional workforce

The Department will move toward accomplishing this goal by focusing on the following objectives:

- Effectively monitor employee performance and set individual and group target goals
- Cross-train employees to create a flexible workforce within the Department
- Promote training and professional development to keep employee skill sets current with technical accounting issues and technology

Service Efforts and Accomplishments

Fiscal Year 2011 has been a challenging year as issues with the SAP payroll financial interface to the general ledger prevented the Department from the timely closing of the Fiscal Year 2010 year-end financial statements and delayed its ability to produce the Comprehensive Annual Financial Report (CAFR). The Department worked with the City's Information Technology group to problem-solve and develop new software to address the posting errors. This was a highly complex task that required all of the available resources within the Department, but in the end, a solution was implemented which permanently remediated the root cause of the problems.

The fully-integrated SAP system had its advantages this year as the Department was able to use comprehensive datasets to produce two monitoring reports which were distributed to City management. These reports measured key performance metrics and executive management set target achievement goals for all City departments. The first report measured the City's ability to pay vendor invoices on-time according to the terms of the vendor purchase order or contracts. The second report measured four aspects of employee payroll submission and approval. The measurement and monitoring of this metric improved overall compliance across all City departments from 80 percent to over 90 percent (target goal is 95 percent).

The Department's efforts in internal controls were productive this year. The Department made good progress on developing process narratives and workflow documents. The Department also developed a comprehensive Master Audit Database that catalogs all open and completed audit recommendations from both external and internal audits. A series of monthly reports measures indicates the timeliness of City management's progress in implementing agreed-to

City Comptroller

audit recommendations. New automated and manual internal control tests were developed and implemented through the SAP Governance, Risk, and Compliance (GRC) tool. These tests measure if specific key material internal controls are operating as designed.

Key Performance Indicators

Performance Measure	Actual FY2010	Actual FY2011
1. Percentage of invoices paid on-time citywide according to the terms established with each vendor	22%	68%
2. The cumulative number of completed internal control process narrative documents and process flow diagrams completed and posted to the City Internal Controls Document Repository	60	200
3. The number of citywide internal and external audit recommendations identified during the fiscal year	222	156
4. The number of audit recommendations completed by management during the fiscal year	153	181
5. The cumulative number of outstanding audit recommendations remaining to be completed by management at the fiscal year-end	251	209
