

Division Description

The Airports Division, part of the Real Estate Assets Department (READ), is responsible for operating two general aviation airports, Montgomery Field and Brown Field, within the City of San Diego. General aviation includes all aviation activities except scheduled airline and military flights. The City's two airports support a significant portion of the San Diego region's total annual flight operations, and can accommodate a variety of general aviation aircraft. Aviation lessees at the airports include Fixed Base Operators (FBOs) that sell fuel, provide airplane and helicopter maintenance, storage facilities, flight schools, Fire-Rescue helicopter operations, the San Diego Police Air Support Unit, and several hundred individual aircraft owners. The majority of the Airports' revenues are derived from non-aviation lessees that include a hotel, a business park, restaurants, Fire Station 43, City Field Engineering, U.S. Border Patrol, office space tenants, and other individual lessees. City staff has the responsibility of maintaining the airports in conformance with Federal Aviation Administration (FAA) regulations and guidelines and administering the various revenue-producing leases.

The Division's mission is:

To operate, maintain, and develop Montgomery and Brown Field Airports to meet the general aviation needs of the San Diego region in a safe, efficient, economically self-sufficient, environmentally-sensitive, and professional manner in accordance with federal, State, and local regulations; to ensure that the Airports provide access to the National Air Transportation System while respecting the concerns of the community and stakeholders

Goals and Objectives

The following goals and objectives represent the action plan for the Department:

Goal 1: Ensure City Airports are operated safely and efficiently and that airport facilities are constructed and maintained in accordance with applicable rules and regulations

It is necessary to maintain the airport runways, taxiways, lighting, navigational aids, obstruction clearances, and other airport components in good condition to meet the level of safety required by federal regulations. Maintaining a

minimum level of safety is a requirement of eligibility for federal grants. The Division will move toward accomplishing this goal by focusing on the following objective:

• Maintain the Airports as safe and reliable components of the Regional and National Air Transportation Systems in conformance with all applicable federal, State, and local regulations

Goal 2: Develop the City Airports to be financially self-sufficient, maximize aviation uses, create economic activity, and meet the general aviation needs of the region

As an enterprise fund, it is the goal of the Airports Division to have sufficient revenues to operate independently of the City's General Fund. Federal regulations require the airport operator to spend its revenues on the maintenance and upkeep of the airport. By creating economic activity and maximizing aviation uses, the Division can generate the revenues necessary to meet the aviation needs of the region and remain self-sufficient. The Division will move toward accomplishing this goal by focusing on the following objectives:

- Maintain the Airports as a self-sufficient, economically-viable enterprise
- Provide for the needs of general aviation and provide conditions for viable aviation businesses
- Provide a facility that offers necessary services to support airport business, local area business, and visitors at reasonable prices

Goal 3: Provide highly-trained professional staff to promote a climate of trust and foster positive relationships with tenants, users, business interests, the community, and regulatory agencies

Key airport staff members need to interact on a daily basis with the FAA, CALTRANS Division of Aeronautics, airport users, tenants, and members of the community. It is necessary that staff have a working knowledge of, and proficiency in, the application of federal regulations so they can be viewed as knowledgeable professionals in their field. A close and cooperative relationship with the Airports Advisory Committee involves airport users and the nearby communities in the operation of the airport and enhances dialogue among the different stakeholders. The Division will move toward accomplishing this goal by focusing on the following objectives:

- Involve the Airports Advisory Committee, users, residents, and other beneficiaries in the operation, utilization, and development of the Airports
- Recruit and retain experienced professionals versed in airport management and provide training to maintain readiness

Goal 4: Be responsive to citizen complaints and encourage pilots to practice a good neighbor policy

A dedicated Noise Abatement Officer responds to citizen complaints, enforces airport noise rules established by the City Council, provides noise abatement information to pilots, and participates in local planning group meetings. This effort has been shown to reduce community opposition to airport operations. The Division will move toward accomplishing this goal by focusing on the following objective:

• Minimize the negative impacts of the Airports' operations

Service Efforts and Accomplishments

The Airports Division had a number of accomplishments and successes in Fiscal Year 2011:

Support from Brown Field (SDM)

- Home base for the City's Fire/Rescue 2 helicopter from July to December 2010.
- Completed construction of the grant funded \$2.3 million SDM Electrical Upgrade Phase II and III.
- Hosted over 30 vintage aircrafts for the Navy Centennial of Flight, celebrating 100 years of Naval Aviation.
- Perimeter Fence Phase II to begin construction in May 2011.

Brown Field Development Project

- The Airports Division is continuing to negotiate an agreement for the development of as much as 356 acres of Brown Field at a value which could be as high as \$700.0 million.
- Capital Improvement Projects at Brown (SDM) and Montgomery Fields (MYF) totaled \$1.8 million.

Brown Field (SDM)

- Brown Field Electrical Upgrade Phase II & III Completed the grant-funded electrical upgrade to Brown Field airport including signs and edge lights to all runways and taxiways. Project cost is \$2.3 million.
- Brown Field Master Plan Update FAA Approval of 20-Year Brown Field Aviation Forecast allows nonaviation uses. Project cost is \$435,150.
- Brown Field Perimeter Fence Phase II Completed the project award and soon to start the construction operations of the grant-funded Brown Field Perimeter Fence Phase II. Project cost is \$460,942.
- Brown Field Rehabilitation of Runway 8L/26R Initiated the consultant interview process for the design of the rehabilitation of the main Runway 8L/26R. Estimated design cost is \$650,000.
- Brown Field Taxiway Alpha Drainage Completed the installation of new catch basins in the Concrete Slab Section of Taxiway A to alleviate drainage issues. Project cost is \$65,000.
- Brown Field Taxiway A Rehabilitation Retained the services of PBS&J, Design Consultant. Design has commenced with an estimated cost of \$184,000.

Montgomery Field (MYF)

- Montgomery Field Localizer Site Remediation Completed the remediation of the critical area in front of the localizer. Project cost is \$254,600.
- Montgomery Field Rehabilitation of Runway 10L/28R Completed the grant funded design of main runway rehabilitation. Design cost is \$455,000. Total project cost is \$3.8 million.
- Montgomery Field Rehabilitation of Runway 5/23 Initiated the design of the rehabilitation of the crosswind runway. Design cost is \$400,000.
- Montgomery Field Taxiway C and Run-Up Pads Retained the services of PBS&J, Design Consultant. Design has commenced with an estimated cost of \$150,000.

Key Performance Indicators

| | Performance Measure | Actual FY2010 | Actual FY2011 |
|----|--|------------------|------------------|
| 1. | Percent adherence to Federal Aviation Administration (FAA) grant requirements | 100% | 100% |
| 2. | Number of days/year Airports are closed or otherwise unavailable to serve as part of the Regional and National Air Transportation System | 0 | 0 |
| 3. | Average number of working days to respond to a noise complaint | 1 | 1 |
| 4. | Percent of total revenue derived from aviation related activities | 33% | 33% |
| 5. | Percent deviation between cost of services at City airports and other similar regional airports | 10% | 10% |
