

FISCAL YEAR 2014 ADOPTED BUDGET

Debt Obligations

City of San Diego

Debt Obligations

Under the direction of the Chief Financial Officer, with attention to current economic conditions and funding needs, the City executes debt instruments, administers debt proceeds, manages ongoing disclosure and debt compliance, and makes timely debt service payments. Reliance on bond instruments is an equitable means of financing projects and represents an important component of the City's Five-Year Financial Outlook for the General Fund and the Public Utilities Department's capital planning for meeting the City's infrastructure needs.

Lease Revenue Bonds and Certificates of Participation are lease obligations secured by an installment sale agreement or by a lease-back arrangement with a public entity, where the general operating revenues are pledged to pay the lease payments, and in turn are used to pay debt service on the bonds or Certificates of Participation. These obligations do not constitute indebtedness under the State constitutional debt limitation, and therefore are not subject to voter approval. Payments to be made under valid financing leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated. The governmental lessee is obligated to place in its annual budget the rentals that are due and payable during each fiscal year the lessee has use of the leased property.

¹ Does not reflect debt obligations of City Agencies (including City as the Successor Agency to the Redevelopment Agency), Community Facilities Districts or Special Assessment Districts.

Debt Obligations

Revenue Bonds are payable solely from net or gross non-ad valorem tax revenues derived from General Fund revenues, tax increment revenues, rates or tolls, fees, charges, or rents paid by users of the facility constructed with the proceeds of the bond issue.

Table 1 summarizes the City's outstanding long-term bond obligations as of June 30, 2013, and the projected debt/lease payment for each outstanding issuance for Fiscal Year 2014.

¹ The 2010A Master Refunding Bonds refunded the 2009A Deferred CIP Bonds, the 1996B Balboa Park/Mission Bay Park Refunding COPs and the 1996A Qualcomm Stadium Bonds.

² The 2002B Fire and Life Safety Facilities Project Bonds were refunded with the issuance of the 2012B Fire and Life Safety Facilities Refunding Bonds on July 3, 2012.

³ Estimates; the 2013A General Fund CIP Lease Revenue Bonds were issued in July 2013 after adoption of the Fiscal Year 2014 Budget to fund \$35 million in new CIP projects. This has resulted in an increase to the total Principal Outstanding of General Fund Lease Obligations of approximately \$35 million.

⁴ In addition to bonds, the Water and Wastewater Systems have outstanding State Revolving Fund (SRF) loan obligations. The Water System SRF loans have a projected outstanding principal loan balance as of June 30, 2013 of approximately \$76.4 million. The Wastewater System SRF loans have a projected outstanding principal loan balance as of June 30, 2013 of approximately \$119.5 million.

The City's **Equipment and Vehicle Financing Program** provides a mechanism for the lease purchase of essential equipment in addition to pay-as-you-go funding. The term of the lease purchases are typically over a three- to ten-year term and based on useful life expectancy of the equipment. As of June 30, 2013, the projected outstanding principal for various lease purchase obligations is estimated at \$64.7 million. These purchases span various lease terms and cover a variety of essential purpose assets. Examples of the equipment include: fire trucks, refuse packers, service trucks, IT Equipment, Automated Water Meter Infrastructure, GPS equipment, fire and police helicopters, and the City's Enterprise Resource Planning System.

State Revolving Fund (SRF) Loans is a low interest loan program for the construction of water and wastewater infrastructure projects. SRF debt service payments are factored into debt service coverage ratios as defined by applicable water and wastewater bond indentures. Compared to traditional bond financings, the City may realize substantial savings from lower interest rates and shorter repayment terms of the SRF Loan Program managed by the State. The loans are administered by the benefiting department. The Public Utilities Department actively utilizes the SRF loan program to fund capital improvements in addition to traditional tax-exempt bond offerings.

Special Assessment and Community Facilities (Mello-Roos) Districts

Under various provisions of State law, the City has established several **Special Assessment and Community Facilities (Mello-Roos) Districts**. Such districts or the City, acting as a conduit issuer, have issued limited obligation bonds to finance infrastructure facilities and other public improvements necessary to facilitate development of the properties within each district. The bonds are secured solely by the properties in the district and are repaid through revenues generated by the

annual levy of special assessments or special taxes on the properties. These bonds are not fiscal obligations of the City.
