Capital Improvements Program

Project Prioritization

Priority Scores are given to projects as a way to compare them to other similar projects of the same project type within the Capital Improvements Program (CIP). Since the implementation of the Prioritization Policy, it has been the goal of the CIP to refine and expand the method in which projects are scored and ranked.

Prioritization Policy

Council Policy 800-14, Prioritizing CIP Projects, outlines the process for scoring and prioritizing projects. The policy was updated in November 2013 and is intended to guide the City Council, Mayor and the Mayor's Capital Improvement Program Review and Advisory Committee (CIPRAC) in their CIP deliberations. The policy establishes a capital planning process that ultimately leads to decisions that optimize the use of available resources for projects competing for funding, resulting in the maximum benefit from the projects delivered. The amended Council Policy addresses areas of improvements identified in the 2011 CIP Audit and 2012 Public Utilities Department Audit that include consideration for emergency projects, risk to environment and sustainability of resources in prioritizing CIP projects. The amended Council Policy also provides guidelines and procedures to maintain consistency in application across all asset-owning departments by requiring asset specific scoring methodology using unique operational needs and a more objective scoring tool. The policy was initially adopted for transportation projects in Fiscal Year 2007 and first revised in Fiscal Year 2008 to incorporate the prioritization of all capital projects. Projects that were scored prior to November 13, 2013 used the process approved in the prior Prioritization Policy, revised in Fiscal Year 2008.

Briefly, the policy states that:

- Projects within restricted funding categories will compete only with projects within the same funding category.
- Projects will compete only with projects within the same asset categories, which include: Enterprise-Funded Assets and Mandated Programs, Mobility Assets, Public Safety Assets, and Neighborhood Assets.
- Prior to inclusion in the CIP Budget, a simple high level project score will be developed to aide in the determination of whether or not the project will be included in the next fiscal year CIP Budget.
- Once included in the CIP Budget, projects will compete only with projects within the same level of completion or project development phase (planning, design, and construction).
- Project Priority Scores will be updated as the condition of the project changes or other information becomes available.
- Low scoring projects may proceed due to unique funding source restrictions.

In addition, projects that were in construction or had completed construction as of Fiscal Year 2012 have not been scored. These projects are noted as not applicable (N/A). Annual allocation project types, funded yearly for ongoing repair and replacement of smaller projects, are not scored and are noted as Annual.

Priority Scoring

Table 1 lists, in order of importance, the scoring weights taken into consideration when projects are scored. Projects receive points for each category from a minimum of zero to a maximum equivalent to the weight of the category.

Table 1: Scoring Weights

| Factors | Enterprise-Funded Assets and Mandated Programs | Mobility Assets | Public Safety Assets | Neighborhood Assets |
|--|---|--------------------|-------------------------|------------------------|
| Risk to Health, Safety and Environment and Regulatory or Mandated Requirements | 25 | 20 | 15 | 10 |
| Asset Condition, Annual Recurring Costs and Asset Longevity | 20 | 20 | 20 | 15 |
| Community Investment and Economic Prosperity | 20 | 20 | 10 | 25 |
| Level and Quality of Service | 10 | 20 | 30 | 20 |
| Sustainability and Conservation | 10 | 5 | 5 | 10 |
| Funding Availability | 5 | 5 | 10 | 5 |
| Project Readiness | 5 | 5 | 5 | 5 |
| Multiple Category Benefit and Bundling Opportunities | 5 | 5 | 5 | 10 |
| Total | 100 | 100 | 100 | 100 |

Priority Categories

Priority Scores for CIP projects, within each major asset category, have been grouped into the following Priority Categories. However, major asset types with six or fewer scored projects are defaulted to Medium.

- High: Priority Scores in the upper one-third, or the highest 33-percent, of priority scores by major asset type category.
- Medium: Priority Scores in the middle one-third, or the middle 33-percent, of all priority scores by major asset type category.
- Low: Priority Scores in the lower one-third, or the lowest 33-percent, of all priority scores by major asset type category.

Table 2 groups all active projects by major asset category. The projects are then listed by priority score.

Table 2: Capital Improvement Projects by Project Type and Priority Scores

| Project | Page No. | Project Status | Priority Priority Score Category |
|-----------------------------|-------------|-------------------|-------------------------------------|
| Airport Assets | | | |
