

Environmental Services

Environmental Services
Energy Program
Citywide Energy Improvements 37-041.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for energy efficiency improvements in City facilities. Projects typically address lighting, air conditioning, chiller, pumping and fan systems. Newer, more efficient technologies greatly reduce energy consumption.

Justification: Energy efficiency improvements repay capital costs in one to nine years, depending upon the project. The energy savings continue each year thereafter. Energy audits are performed in a variety of City-owned facilities to identify opportunities for energy savings.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: This project is still under design evaluation for Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2010 and expect to be completed in Fiscal Year 2012.

Summary of Project Changes: The total estimated project cost increased by \$300,000 due to the anticipation of incentive funds, which will allow additional energy efficiency improvement projects to be pursued.

Underground Hazardous Materials Storage Tanks 33-084.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for implementing the Citywide Underground Hazardous Materials Storage Tank Master Plan. The Master Plan addresses the removal, installation, closure, site assessment and mitigation, replacement, testing, and rehabilitation of the 69 City-owned underground storage tanks (USTs). Site assessment and mitigation activities related to 32 unauthorized releases are ongoing to maintain regulatory compliance, eligibility for State reimbursement, protection of groundwater and public health and safety. In addition, 12 USTs are required to have Phase II Enhanced Vapor Recovery (EVR) systems in place by April 2009 per the State of California.

Justification: The State Underground Storage of Hazardous Substances Law (Sher Bill AB 1362) and SB989 established guidelines and regulations for the design, installation, rehabilitation, testing and maintenance, triennial integrity testing of secondary containment components, and monthly facility inspections by a "Designated UST Operator." Non-compliance with UST laws or site assessment and mitigation (SA/M) requirements may make the City ineligible for reimbursement of an estimated \$4.0 million in current and future SA/M costs as well as liable for civil penalties of up to \$25,000 per day per site.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: Design, construction and Phase II EVR system upgrades occurred in Fiscal Years 1991 through 2008. The phase II EVR project was funded and designed in Fiscal Year 2008. Construction was completed in Fiscal Year 2009. No new projects are scheduled in Fiscal Year 2010. Aside from the Phase II EVR upgrade projects budgeted in Fiscal Year 2008, there are currently no regulatory mandate-driven projects on the horizon. Future design/construction will be scheduled when the remaining funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.

Environmental Services Facilities Improvement 37-074.0

Council District: 6

Community Plan: Kearny Mesa

Description: This project provides for needed facility improvements for the Environmental Services Department. Facilities include the Ridgehaven building, Miramar Operations Station, and facilities at the Miramar Landfill.

Justification: The Ridgehaven Facility is scheduled for a heating, ventilation and air conditioning (HVAC) system replacement. No capital upgrades are required at this time for the Miramar Operations Station or facilities at the Miramar Landfill.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

Scheduling: This project began in Fiscal Year 2009. Construction is schedule be completed by Fiscal Year 2011 pending indentification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.

Annual Allocation - Groundwater Monitoring Network 32-017.0

Community Plan: Citywide

Council District: Citywide

Description: This annual allocation provides for minor improvements to existing Groundwater Monitoring Networks at all closed and operating landfills managed by the City. Such improvements may include new facilities to monitor groundwater, preparation of reports necessary to modify the groundwater monitoring programs, or potential groundwater mitigation measures.

Justification: This project provides the flexibility necessary to respond to operational issues and possible changes in the Groundwater Monitoring Program required by Title 23, Chapter 15, Article 5 of the California Code of Regulations.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: Projects are scheduled on a priority basis to meet regulatory requirements. Projects scheduled for Fiscal Year 2010 include construction of one groundwater well with investigational report and procurement and installation of one low flow sampling pump. Funding has been allocated to this project through Fiscal Year 2016.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.

Annual Allocation - Minor Landfill Requirements 37-004.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for minor improvements to existing sanitary landfills to comply with operating permits and regulatory requirements. Such improvements may include fencing, access roads, drains, small structures, and environmental protection projects.

Justification: This project provides the flexibility for timely initiation of minor improvements and construction needed to meet operational and regulatory requirements.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: Projects are scheduled on a priority basis to meet regulatory requirements. Projects scheduled for Fiscal Year 2010 include design and construction of multiple inlet structures and down drains, procurement and installation of 250 feet of rock gabion baskets and rip rap, and minor grading to promote positive drainage. Funding has been allocated to this project through Fiscal Year 2017.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.

Arizona Landfill - Closure 32-011.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for modifications to the existing landfill gas collection system and cover at the Arizona Landfill to enhance operations and maintain regulatory compliance.

Justification: Federal and State waste disposal legislation require proper environmental safeguards to control landfill gas.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

Scheduling: Design and construction began in Fiscal Year 1995 and will continue through each phase of the project. The project is scheduled to be completed in Fiscal Year 2016.

Summary of Project Changes: Additional \$400,000 is shown for cover enhancement necessary to maintain emissions in regulatory compliance.

Environmental Services Department Operations Yard Improvements 32-021.0

Council District: 5

Community Plan: University

Description: This project provides for improvements to the Environmental Services Operations Station (ESOS) Yard located at 8353 Miramar Place.

Justification: New pavement is needed to support heavy equipment and other upgrades necessary for yard security, safety and stormwater runoff. Continue upgrading of the refuse packers asphalt parking lot; widening of exit doors in the dispatch area of the administration building to meet Fire Code evacuation requirements; Make security upgrades to the Operations Yard and facilities to include replacing gate opening devices to allow only authorized vehicles automatic access to the Environmental Services Department Operations Yard, replacing the VCR security camera recording system with a system that will allow recording and storage to a computer hard drive, and install a bullet proof security glass at the customer service counter in the lobby and, a solid fire door at the entrance of the administration building. Upgrade parking lot lights.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and it is in conformance with the City's General Plan.

Scheduling: Design and construction of the ESOS Manual Wash and Storm Drain Projects, Replacement of concrete at the Marindustry Road entrance to the Operations Yard, Replacement of Heaters in the Motive Equipment Repair Building, and installation of permanent Patio Canopies occurred in Fiscal Year 2004 through 2009. Security and other facility upgrades, identified in the Justification section, will continue through Fiscal Year 2010.

Summary of Project Changes: Project last published in Fiscal Year 2006. The total project cost through Fiscal Year 2010 has increased by \$500,000.

Future Waste Management Disposal and Processing Facilities 37-254.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the development and construction of solid waste disposal and processing options, which may include a new landfill and transfer facility. Strategic planning, potential land acquisition, design, construction, environmental review and potential purchase of mitigation property are all within the scope of the project.

Justification: The City must continue to have adequate disposal or processing facilities for the solid waste it generates each year. Technology to recover and/or convert portions of refuse material into an energy base is being explored and developed. However, it appears that there will always be a need for landfilling part of the generated waste stream and residue from other solid waste disposal facilities.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: Ongoing efforts are being made to identify potential sites and funding for future solid waste facilities and are scheduled to continue through Fiscal Year 2016. The construction of a new solid waste handling and processing facility will begin during the Fiscal Year 2011-2012 time frame.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.

Miramar Landfill Greenery Expansion 37-057.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for the expansion of the existing Miramar greenery operation currently located at the Miramar Landfill. The expansion of curbside greens collection to additional neighborhoods in the City will increase the tonnage coming into the facility, requiring additional acreage and equipment.

Justification: Expansion of curbside greens collection will increase the diversion of solid waste required by the State of California. The current facility is operating at maximum capacity. A larger facility is required to process the increased tonnage expected as a result of expanded curbside pickup.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

Scheduling: The project began with the relocation of utilities in Fiscal Year 2010, and is expected to be completed in Fiscal Year 2010.

Summary of Project Changes: Additional \$200,000 is shown for landfill cover enhancement necessary to support this facility for Fiscal Year 2010.

Unclassified Disposal/Burn Site Closures 32-010.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for preliminary assessments and remediation of various burn sites and unclassified disposal sites. These sites have been identified as potential health or environmental risks.

Justification: Assessments are required to determine potential impacts to public health and the environment. Sites that are determined to pose potential impacts must be remediated to prevent any impacts.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with applicable community plans and is in conformance with the City's General Plan.

Scheduling: It is anticipated that known burn sites will be addressed over the next five years. Future allocations are for potential improvement to these sites.

Summary of Project Changes: The total estimated project cost decreased by \$120,000 due to a revised scope of the project.

West Miramar Phase II - Landfill Gas System 32-014.0

Community Plan: No Community Planning Area

Council District: None

Description: This project provides for a landfill gas collection system for the West Miramar Phase II Landfill. Bio degradation of buried waste produces landfill gas. The landfill gas collection consists of a network of gas extraction wells connected by piping.

Justification: This improvement is required in order to maintain compliance with various State and federal regulatory requirements. By meeting regulatory compliance, the improvement will also prevent code violations and enhance public health and Safety.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

Scheduling: Design and construction began in Fiscal Year 1996 and will continue through the life of the landfill. The landfill is anticipated to close in Fiscal Year 2017. Projected funding through Fiscal Year 2011 will ensure project improvements and regulatory compliance.

Summary of Project Changes: No significant change has been made to this project for Fiscal year 2010.

Refuse Disposal

West Miramar Refuse Disposal Facility - Phase II 37-056.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for continuing development of the West Miramar Landfill, located southwest of Marine Corps Air Station Miramar. The facility will accommodate over 35 million cubic yards of refuse fill on 807 acres. Phase II will develop the second half of the facility, including design and construction of entry roads and drainage systems, excavation, federally-mandated liner systems, and stockpiling and spreading of earthen materials. This project also includes development of the General Development Plan elements for the entire site.

Justification: These improvements are required in order to ensure compliance with conditions set forth in the operations permit issued by the California Integrated Waste Management Board and the Regional Water Quality Control Board.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

Scheduling: Engineering design and construction will continue through Fiscal Year 2016 in order to facilitate modular development as additional capacity is required.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2010.
