Dated February 7, 2008

NOTICE IS HEREBY GIVEN that on January 18, 2008, Fitch Ratings ("Fitch") announced that it had downgraded Ambac Financial Group, Inc. and its affiliated entities (AMBAC), including the downgrade of Ambac Assurance Corporation's rating to "AA" from "AAA". In addition, on January 30, 2008, Fitch announced that it had downgraded ratings on FGIC Corporation ("FGIC") and its financial guaranty insurance subsidiaries, including Financial Guaranty Insurance Company to "AA" from "AAA". The ratings for both corporations also remain on Rating Watch Negative by Fitch. Also, on January 31, 2008, Standard & Poor's Ratings Services ("S & P") lowered its rating on FGIC to "AA" from "AAA". S & P also placed FGIC on credit watch. AMBAC and FGIC bond insurance policies and surety debt reserve policies, which support ratings on certain of the City's debt obligations (identified on the cover page hereof), have been downgraded. Such rating reflects only the view of such rating agency and any desired explanation of the significance of such rating should be obtained from Fitch and S & P. Such ratings are not a recommendation to buy, sell or hold any City indebtedness. Generally, a rating agency bases its ratings on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance that such ratings will continue for any given period or that such ratings will not be revised downward or withdrawn entirely provided, if in the view of such rating agency, circumstances warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the market price or marketability of the City's obligation identified on the cover page hereof.

Fitch cuts Ambac rating to AA from AAA

SAN FRANCISCO (MarketWatch) -- Fitch Ratings downgraded Ambac Financial to AA from AAA on Friday and warned that it could cut the bond insurer's rating further. The agency said it took action after Ambac scrapped plans to raise new capital by selling equity. Ambac shares rose almost 2% to \$6.34 during afternoon trading on Friday. The stock lost more than half its value on Thursday.

**Fitch Downgrades FGIC to 'AA'; Ratings Remain on Watch Negative** [Ratings](#)

30 Jan 2008 3:31 PM (EST)

Fitch Ratings-New York-30 January 2008: Fitch Ratings has downgraded the following ratings on FGIC Corporation (FGIC Corp.) and its financial guaranty insurance subsidiaries Financial Guaranty Insurance Company (FGIC) and FGIC UK Ltd:

FGIC

FGIC UK Ltd.

--Insurer Financial Strength (IFS) to 'AA' from 'AAA'.

FGIC Corp.

--Long-term Issuer Rating to 'A' from 'AA';

--\$325 million of 6% senior notes due Jan. 15, 2034 'A' from 'AA'.

The ratings remain on Rating Watch Negative.

This announcement is based on FGIC's not yet raising new capital, or having executed other risk mitigation measures, to meet Fitch's 'AAA' capital guidelines within a timeframe consistent with Fitch's expectations. Fitch's action follows recent discussions with FGIC's management team with respect to the status of their current capital enhancement plans, which are actively ongoing.

As Fitch announced on Dec. 17, 2007, when it placed FGIC on Rating Watch Negative, the company has a modeled capital shortfall of more than \$1 billion at the 'AAA' rating threshold. The existing capital deficiency, which Fitch now believes totals approximately \$1.3 billion, resulted from rapid credit deterioration in FGIC's insured portfolio in particular: transactions backed by structured finance collateralized debt obligations backed by subprime residential mortgage-backed securities (RMBS) and direct exposure to RMBS, namely prime second-lien mortgages. The downgrade places FGIC's IFS ratings at a level commensurate with an 'AA' rating stress level under Fitch's most recent capital modeling.

The downgrade of the IFS ratings to 'AA' coupled with the continuation of the Negative Rating Watch, reflects the significant uncertainty with respect to the company's franchise, business model and strategic direction; uncertain capital markets; the company's future capital strategy; ultimate loss levels in its insured portfolio; and the challenges in the financial guaranty market overall. Fitch expects to resolve the Negative Rating Watch after the agency evaluates these various qualitative factors as well as the progress FGIC makes as far as its future capital enhancement plans. This analysis will include a review of the effectiveness of recent efforts of insurance regulators to support any industry solution.

The downgrade in the holding company debt ratings reflects greater uncertainties surrounding FGIC's future earnings and fixed charge coverage ratios, together with movement to the more typical notching used at the 'AA' IFS rating level.

Fitch will comment on the impact of the downgrade of FGIC's IFS rating on the ratings of securities insured by FGIC in a separate release.

FGIC Corp. is a U.S.-domiciled holding company whose primary operating subsidiaries, FGIC and FGIC U.K. Ltd, provide financial guaranty insurance and other forms of credit enhancement throughout the U.S. and internationally. For Sept. 30, 2007, the company reported consolidated assets under Generally Accepted Accounting Principles (GAAP) of \$5.4 billion and shareholders equity of approximately \$2.4 billion. On an aggregated basis net par outstanding totaled \$315 billion as of Sept. 30, 2007.

Standard & Poor's Lowers Rtg's On FGIC To 'AA' From 'AAA', Places MBIA, XLCA Rtg's On Watch Neg

Primary Credit Analyst:

Dick P Smith, New York (1) 212-438-2095; dick_smith@standardandpoors.com

NEW YORK (Standard & Poor's) Jan. 31, 2008--Standard & Poor's Ratings Services today lowered its financial strength, financial enhancement, and issuer credit ratings on Financial Guaranty Insurance Co. to 'AA' from 'AAA' and its senior unsecured and issuer credit ratings on FGIC Corp. to 'A' from 'AA.' Standard & Poor's also placed all the above ratings on CreditWatch with developing implications.

At the same time, Standard & Poor's placed various ratings on MBIA Insurance Corp., XL Capital Assurance Inc., XL Financial Assurance Ltd., and their related entities on CreditWatch with negative implications.

The ratings on various related contingent capital facilities were also affected.

These ratings actions, including the affirmations, take into account the ratings actions announced yesterday by our Structured Finance group concerning RMBS and CDO downgrades and credit watch actions.

The rating actions are the result of our most recent review of all the bond insurance companies' capital plans. Our review covered the scope of each plan relative to the projected losses for that company, the success each company has had to date in implementing its plan, and our assessment of the likelihood that the companies could implement the remaining components of their plans. This review is part of Standard & Poor's ongoing assessment of the potential subprime-related losses that these bond insurers might incur and how they are managing their capital positions to handle the losses. Further

Standard & Poor's Lowers Rtg On FGIC To 'AA' From 'AAA', Places MBIA, XLCA Rtg On Watch Neg

reviews will occur as circumstances warrant.

Financial Guaranty Insurance Co.

The ratings on FGIC, FGIC Corp., and Grand Central Capital Trusts Series I-VI (a committed capital facility supported by, and for the benefit of, FGIC) were lowered and placed on CreditWatch with developing implications. The downgrade reflects our assessment that the company's evolving capital plan has meaningful execution and timing risk. In our opinion, the current plan does not fully address projected losses. The company's ability to access additional capital resources is uncertain. The CreditWatch Developing placement reflects the possibility of either positive or negative outcomes. A positive outcome would be that the company is successful in raising sufficient capital to cover projected losses, in which case the rating could be raised back to 'AAA' with a negative outlook. In this scenario, the negative outlook would reflect the ongoing uncertainty surrounding the potential for further mortgage market deterioration and the company's ability to gauge its ongoing capital needs accurately. A negative outcome would be that the company is unsuccessful in its efforts to raise capital, in which case the rating could go lower.

MBIA Insurance Corp.

The ratings on MBIA Insurance Corp., MBIA Inc., and North Castle Custodial Trusts I-VIII (a committed capital facility supported by, and for the benefit of, MBIA) were placed on CreditWatch with negative implications. Although MBIA has succeeded in accessing \$1.5 billion of additional capital, the magnitude of projected losses underscores our view that time is of the essence in the completion of capital-raising efforts.

XL Capital Assurance Inc./XL Financial Assurance Ltd.

The ratings on XLCA, XLFA, XL Capital Assurance (UK) Ltd., and Twin Reefs Pass-Through Trust (a committed capital facility supported by, and for the benefit of, XLFA) were placed on CreditWatch with negative implications. The negative CreditWatch placement reflects our assessment that there is increased execution risk regarding the company's ability to successfully implement its capital plan to offset projected losses. The company has already tabled the third-party capital-raising component of its plan due to unfavorable market conditions. We believe successful implementation of the remaining components of the capital plans will be necessary to enable the company to manage its capital relative to the projected losses.

We use CreditWatch in a changing credit situation when a rating change is not yet certain. We may place ratings on CreditWatch when an event or deviation from an expected trend has occurred or is expected, when this event or deviation increases the probability of a rating action, and when additional information is necessary to take a rating action. The greater the likelihood of a rating change, the more likely we are to use CreditWatch, with guidelines of at least a one-in-two likelihood of a rating change occurring in the short term, typically within 90 days. From time to time, events may present such significant uncertainty to an issuer's creditworthiness that a rating is placed on CreditWatch without the need to assess this threshold of potential change.

Standard & Poor's Lowers Rtg On FGIC To 'AA' From 'AAA', Places MBIA, XLCA Rtg On Watch Neg

Similar to CreditWatch, an outlook assesses the potential for change and the likely direction of the rating over the intermediate term. In contrast to CreditWatch, we assign an outlook as an ongoing component of a long-term rating, where appropriate. Outlooks have a longer time horizon than CreditWatch listings and incorporate trends or risks with less certain implications for credit quality. The timeframe for an outlook is generally up to two years. Although Standard & Poor's ratings are based on an opinion of the most likely scenario for an issuer's future performance, the outlook addresses what direction we believe the rating may take if our most likely scenario does not hold.

Lists of the insured ratings that have changed as a result of these actions are posted at www.spviews.com. Go to the left hand navigation bar and click on "Deals Affected" to view or download the lists. Our analysis of the impact of the ratings actions announced today is ongoing; we may publish additional ratings changes.
