Rating Action: MOODY'S: CITY OF SAN DIEGO'S SUBORDINATED WATER REVENUE REFUNDING BONDS**RATED Aa3**

Global Credit Research - 27 Mar 2012

SENIOR LIEN BONDS' Aa2 RATING AFFIRMED

New York, March 27, 2012 -- Moody's Rating

Issue: Subordinated Water Revenue Bonds, Refunding Series 2012A; Rating: Aa3; Sale Amount: \$212,000,000; Expected Sale Date: 4/3/12; Rating Description: Revenue: Government Enterprise

Opinion

Moody's Investors Service has assigned an Aa3 rating to the Subordinated Water Revenue Bonds, Refunding Series 2012A, of the City of San Diego's Water Enterprise. We have also affirmed the Aa2 rating on the utility's outstanding senior lien bonds and the Aa3 rating on the outstanding subordinate bonds. The outlook on both ratings is stable.

RATING RATIONALE

The rating is partly based on the system's significantly improved financial performance since 2004. However, projected slow growth in water sales in the next several years and no new rate increases until 2014 dampen projected revenue growth and lower debt service coverage ratios, which are quite low for the current rating level. However, the city has a history of outperforming its debt service coverage projections. If actual, combined senior and subordinate debt service coverage levels beyond 2013 are in fact at the projected levels of as low as 1.3x, the current rating would be under downward pressure. The fundamental strength of the enterprise remains a key credit factor, including its essentiality and its large, strong, and diverse service area, which provides a relatively high degree of revenue stability. The overall economic conditions in the service area have begun to show improvement in the last year or so, including growth in assessed values, transient occupancy tax and sales tax. The ratings also reflect the utility's favorable debt position, which is likely to remain manageable despite the expected addition of a of new debt during the next five years necessitated by the current Capital Improvement Program. The proceeds of the current issue, along with available reserve funds, will be used to refund all or some of the utility's outstanding subordinated revenue bonds.

STRENGTHS

- Large, highly diverse service area, now slowly expanding
- Strong financial oversight with conservative budgeting and projections
- Strong senior lien debt service coverage levels
- Strong unrestricted cash position

CHALLENGES:

- Below average debt service coverage levels for total debt
- Large capital Improvement Program

Outlook

The stable outlook for our rating on the water enterprise's debt reflects the stable financial operations of the utility and our expectation that the city will be able to implement its capital plan while preserving its financial strength. However, slow growth in revenues is projected to dampen debt service coverage ratios. The projections reflect no rate increase until 2014 and the resulting coverage levels are very low for the current rating level. If actual debt service coverage levels beyond 2013 are in fact at the projected levels, the current rating would be under downward pressure.

What Could Change the Rating--Up

- Significantly wider debt service coverage levels
- Significant improvement in the area economy
- Significant improvement in the utility's liquidity position

What Could Change the Rating--Down
