

ZERO DISCHARGE OF PERCHLOROETHYLENE TO SEWER CERTIFICATION

City of San Diego Public Utilities Dept
Industrial Wastewater Control Program
9192 Topaz Way, San Diego, CA 92123-1119
Tel (858) 654-4100 Fax (858) 654-4110

Applicability: These instructions apply to any Dry Cleaning Establishment which conducts dry cleaning on-site. To report compliance with this requirement, the following statement must be submitted, signed by the owner or the owner's authorized representative.

Disposal

Waste PERC and PERC-contaminated wastes (including, but not limited to, separator water, still oil, and vacuum system water) must be either evaporated or hauled off-site for disposal. For information regarding the lawful disposal of hazardous wastes, refer to "Hazardous Waste Requirements", a bulletin available from the County of San Diego Department of Environmental Health, Hazardous Materials Division (HMD). If you generate small volumes of waste, you may wish to contact the HMD duty desk at (858) 505-6880 to determine the storage time allowed prior to disposal pursuant to state regulations.

ZERO DISCHARGE CERTIFICATION STATEMENT

I am personally familiar with the operations at this facility and have reviewed the IWCP's Best Management Practice Requirements for Dry Cleaning Establishments. I certify that during the last six months there has been no discharge to sewer of PERC or PERC-contaminated wastes (including, but not limited to, separator water, still oil, and vacuum system water) and that PERC-contaminated waste water is not recycled through any process which ultimately results in discharge to the sewer (boilers and cooling towers). I am aware of the potential for significant penalties for submission of false information, including the possibility of fines and imprisonment for knowing violations. I will retain copies of all manifests and/or waste hauler receipts on-site for no less than 3 years and make them available to IWCP personnel upon request.
