

Main Treatment Plant Intake Line Rehabilitation

Rehabilitation of support piping intake from Mission Bay for the treatment of water for use in the park exhibits. Raise intake piping to above-grade elevation for easier maintenance and operational access. Re-connection of new piping components to existing treatment plant.

Site Location:

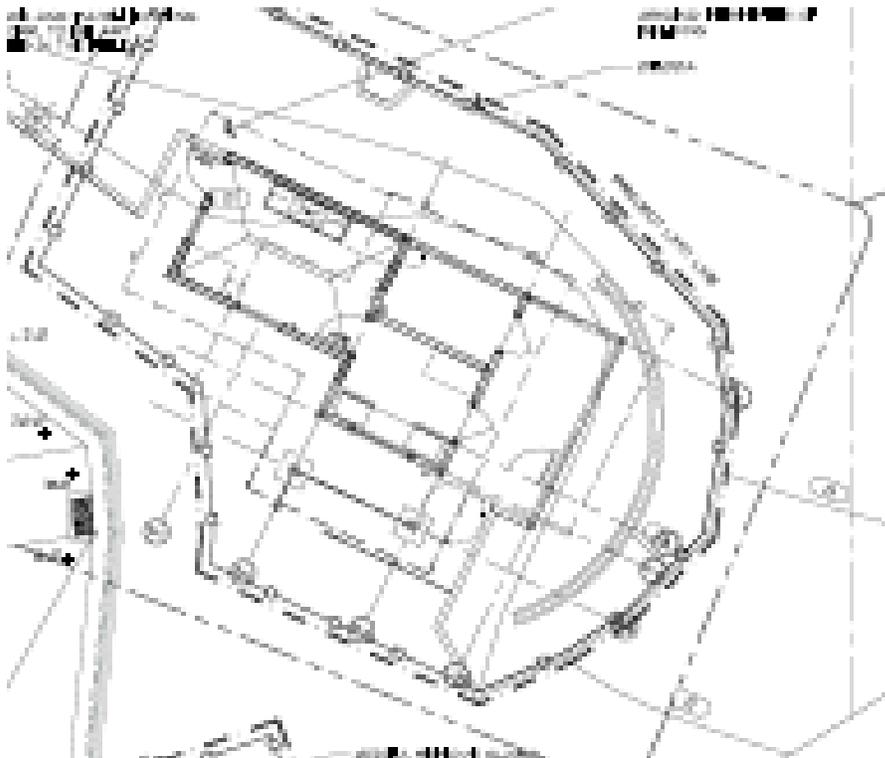

Existing Conditions and Proposed Project Scope:

Dolphin Infrastructure – Remodel of existing fish feeding booth to incorporate a small kitchen area approximately 175 square feet. Work also includes remodel of existing basement in Forbidden Reef to provide lockers for dolphin staff.

Site Location:

“SuperJohn” Restroom Rehabilitation

Rehabilitation of the restroom interior for ADA compliance. This will include partition, sink, and fixture relocations, along with resurfacing the wall and floor surfaces.

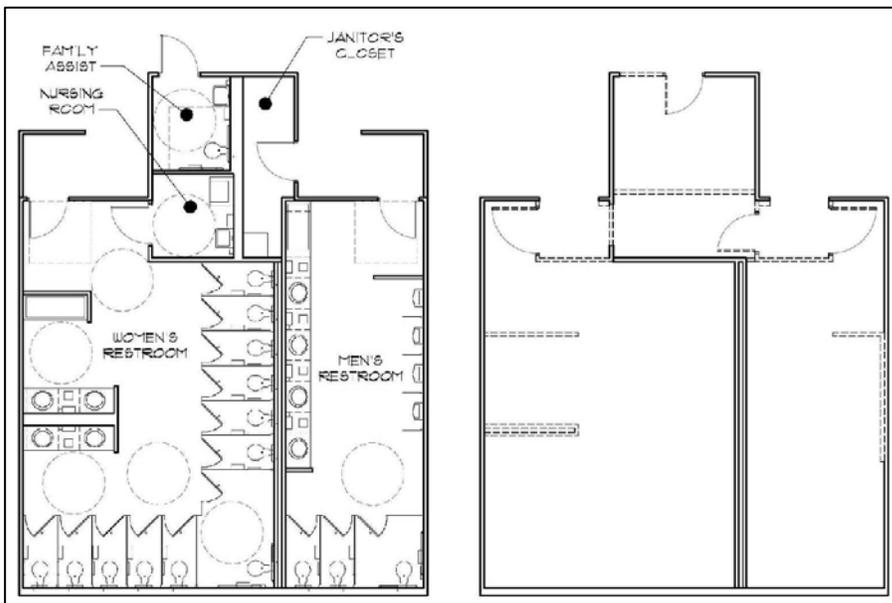

Site Location:

Existing Conditions:

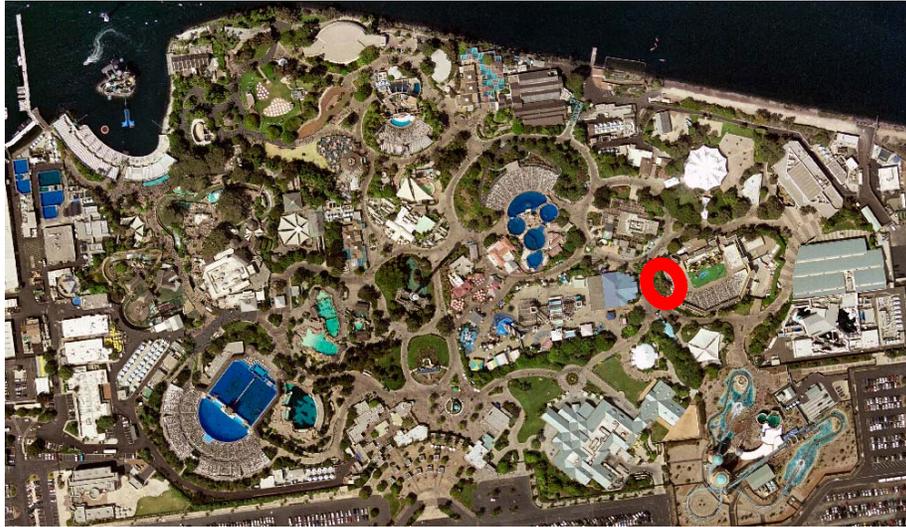

Proposed Project Layout (interior modifications only):

Pepsi Market

Construction of a permanent self-service food facility at the west side of the Pet's Rule stadium. Food items will include bagged snacks and soda dispensers, geared toward Pepsi products. Site sewer, potable water, storm water, and electricity components will be designed and permitted. This site is currently a landscaped planter.

Site Location:

Existing Food Service Markets:

Pepsi Market will be similar in food service components and style to two existing market-style facilities located at the Shark Encounter and Shamu Stadium.

SeaWorld San Diego

Proposed Project Layout:
