## ***Chapter 1: Introduction***

### **Authority**

In 1987, City of San Diego (City) staff developed and recommended Development Impact Fees (DIF) for 28 urbanized communities within the City. City Council adopted the recommended fees to mitigate the impact of new development on public facilities by Resolution No. R-269019 (adopted August 4, 1987) and R-269274 (adopted September 14, 1987).

The General Plan for the City was updated on March 10, 2008 by Resolution No. R-303473; and new guidelines included the division of the City into two planning designations: Proposition A Lands and Urbanized Lands. Urbanized areas include the developing communities, the central portion of San Diego as well as the remaining older section of the City. The Ocean Beach Community Planning Area is an Urbanized area.

### **Previous, Current and Future Public Facilities Financing Plan Updates**

This Fiscal Year (FY) 2015 Ocean Beach Public Facilities Financing Plan (Financing Plan) supersedes the FY 2000 Ocean Beach Facilities Summary approved on August 3, 1999 by Resolution No. R-302791. This Financing Plan reflects changes in the rate and amount of planned development; changes in interest and inflation rates; and changes in DIF contributions to capital improvement program projects. The City Council may amend this Financing Plan in the future to add, delete, substitute or modify a particular anticipated project to take into consideration unforeseen circumstances.

### **Purpose and Scope**

This Financing Plan is being updated in conjunction with the Ocean Beach Community Plan (Community Plan) update, which will serve as a comprehensive policy guide for the physical development of the community. The Ocean Beach community is generally bounded by the San Diego River on the north, the Pacific Ocean on the west, Adair Street on the south, and Froude Street and West Point Loma Boulevard on the east. This Financing Plan identifies public facilities that are anticipated over the next 16 years when full community development is anticipated, and serves to establish a financing strategy for the provision of those facilities.

### **Development Forecast and Analysis**

According to the San Diego Association of Governments (SANDAG) latest estimates, the Ocean Beach Community Planning Area encompassed approximately 60 total acres of non-residential development land use (Year 2008) and 7,914 total housing units (2012). SANDAG anticipates 457 additional housing units and 3 less acres of non-residential land use from 2008 to 2030 (Appendix C). Accordingly, this will result in 8,371 dwelling units and 137,617 average daily trips (ADTs) anticipated at full community development.

### **Periodic Revision**

To ensure that this Financing Plan remains up-to-date and accurate, it is to be periodically revised to include, but not necessarily limited to, amendments to the Community Plan. Per the General Plan Action Plan, public facilities financing plans may be amended “concurrently with amendments to the General Plan and community plans which result in the need for additional facilities” (Land Use and Community Plan Element Action Item No. 9).

## ***Chapter 2: Existing Public Facilities and Future Needs***

### **Transportation**

The Ocean Beach Community is served by a transportation network, which consists of automobile and public transportation systems, a bicycle system, and a pedestrian circulation system. Provision of adequate transportation facilities has been a continuing process of providing those facilities. Additional transportation improvements will be necessary to meet both existing needs and the needs of future development. Transportation improvements in Ocean Beach are dictated by traffic volume, level-of-service and completion of street systems. New development cannot be required to contribute to the existing transportation system. Therefore, other funding sources will need to be identified for the remaining transportation needs.

### **Park and Recreation**

Ocean Beach is currently served by Ocean Beach Community Park, Ocean Beach Gateway Pocket Park, and the joint use facility at Ocean Beach Elementary School. Currently there exists a deficiency of park facilities for community residents, resulting in the need for park equivalencies (Community Plan; Table 6.2) to serve the community.

### **Library**

Library services for the Ocean Beach community are provided by the Ocean Beach Branch Library located at 4810 Santa Monica Avenue, which was originally built in 1927. The existing facility has no meeting room, computer lab, nor adequate seating and collection space to provide adequate library services to the community, therefore, a 15,000 square-foot replacement using the current site and adjacent property is planned to serve the community at full community buildout.

### **Fire-Rescue**

Fire-Rescue services are provided by Station No. 15, located at 4711 Voltaire Street. An expansion of the existing fire station to serve the growing population is planned. This fire station will serve the Ocean Beach, Peninsula, and Midway/Pacific Highway communities. In addition, a new Ocean Beach Lifeguard Station, located at 1950 Abbott Street, will replace the current station, which was constructed in 1980 and is inadequate to accommodate staff and equipment.

### **Timing and Cost of Facilities**

DIF provide a funding source for the projects listed in Table 1 which are subject to revision in conjunction with council adoption of the Annual Capital Improvement Program Budget. Depending on priorities and availability of resources, substantial changes to these projects are possible from year to year.

### ***Chapter 3: Development Impact Fee Calculation***

DIF are based on the extent or degree to which each type of development generates a demand for, or receives benefit from, the various public facilities. For example, all development generates vehicular traffic and demand for fire-rescue services, and thus, on an equitable basis, should share in the cost of transportation and fire projects. Residential development also generates demand for park and recreation and library facilities. Non-residential development may also create a need for parks or libraries, and may be charged fees for those facilities on an ad hoc basis, as appropriate.

DIF were determined for the various categories of needed public facilities based on additional public facilities needed at full community development. The DIF basis includes all eligible project needs except those identified as other or subdivider funded. The fees also include an 8 percent charge to cover City administrative costs.

#### **Transportation Component**

The residential portion of the impact fee reflects an average (less than 20 dwelling units: 8 trips/dwelling unit; more than 20 dwelling units: 6 trips/dwelling unit) vehicle trip rate of 7 as a basis for determining the DIF. A considerable range has been found for traffic generation in non-residential developments depending on the character and use of the property. Therefore, the DIF for non-residential development is determined by ADTs generated by the development. For this Financing Plan, transportation estimates are based on the unit pricing list for transportation projects as described in Appendix A.

According to the Ocean Beach Buildout Conditions: Traffic Impact Study, the total number of trips at full community development is anticipated to be 137,617 (Table 1-1). An analysis of the DIF eligible transportation projects required for full community development totals \$14,056,078. This cost, plus 8% administrative costs, divided by 137,617 ADTs results in a DIF of \$110 per ADT or \$770 per dwelling unit. The fee per dwelling unit is calculated by multiplying the per ADT cost by the average vehicle trip rate per dwelling unit (7 ADTs).

#### **Park and Recreation Component**

Park needs are based on population, which is derived from the number of dwelling units estimated at full community development. For this Financing Plan, park estimates are based on the cost estimate breakdown for park and recreation projects as described in Appendix B.

Allocating the total DIF eligible park and recreation costs of \$42,035,810 to the total dwelling units (8,371) forecasted by SANDAG at full community development, results in an impact fee, including 8% administrative costs, of \$5,273 per dwelling unit. Additional fees may be imposed on discretionary projects on a case-by-case basis in order to meet the standard of 2.8 acres of parkland per 1,000-population set forth in the General Plan.

**Library Component**

Library needs are based on population, which is derived from the number of dwelling units anticipated at full community development. Therefore, only residential development is charged a DIF for library facilities.

Allocating the total library costs to residential development results in a DIF of \$713 per dwelling unit. This was calculated by dividing the total estimated cost (\$5,527,838) of needed library projects, plus 8% administrative costs, by the number of dwelling units anticipated at full community development (8,371).

**Fire-Rescue Component**

The fire-rescue component of the DIF relates to the cost of providing facilities to adequately provide fire-rescue services to both residential and non-residential development within the community. Residential impact fees are based on an average cost per dwelling unit. It is assumed that the average size of a dwelling unit is 1,000 square feet. Non-residential development fees are based on the average cost per 1,000 square-feet of gross building area.

Residential and non-residential development is anticipated to total 10,832,140 square feet at full community development, which results in a DIF of \$373 per dwelling unit and per thousand square feet of non-residential development. This was calculated by dividing the total fire-rescue costs needs of \$3,739,800, plus 8% administrative costs, by 10,832.

**Annual Increase to DIF Schedule**

City Council Ordinance Number O-20100 (approved October 11, 2011), amended Municipal Code provisions relating to the collection of public facilities fees and assessments. Specifically, Chapter 14, Article 2, Division 6 allows for automatic annual increases to the DIF Schedule to occur every July 1<sup>st</sup>:

Unless otherwise specified in the applicable Resolution(s) establishing the Development Impact Fees, the amount of the Development Impact Fee shall be increased, starting on July 1, 2010, and on each July 1<sup>st</sup> thereafter, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering New-Record. Increases to Development Impact Fees consistent with the Construction Cost Index in Los Angeles shall be automatic and shall not require further action of the City Council.

## ***Chapter 4: Financing Strategies***

Residential and non-residential development impacts and creates a need for public facilities and services, including streets, parks, libraries, and fire-rescue facilities. Anticipated public facility projects that benefit a population larger than the local/adjacent development can be financed by using alternative methods.

Policy PF-A-3 (Public Facilities, Services and Safety Element) of the City General Plan calls for the City to maintain an effective facilities financing program to ensure that impact of new development is mitigated through appropriate fees identified in Financing Plans; to ensure new development pays its proportional fair-share of public facilities costs; to ensure DIFs are updated frequently and evaluated periodically to ensure financing plans are representative of current project costs and facility needs; and to include in the Financing Plans a variety of facilities to effectively and efficiently meet the needs of diverse communities.

The City has a variety of potential funding sources for financing public facilities, which will be provided in part by developers as part of the subdivision process. Potential methods for financing public facilities are included in the Glossary of the Adopted Budget (Volume I: Budget Overview and Schedules), which is available online at:

<http://www.sandiego.gov/fm/annual/index.shtml>

## ***Chapter 5: General Assumptions and Conditions***

In connection with the application of the following methods of financing, these general assumptions and conditions would apply:

1. Developers will be required to provide facilities that are normally provided within the subdivision process as a condition of tentative subdivision map approval. These projects include but are not limited to traffic signals, local roads, and the dedication or preservation of open space located within the proposed development(s).
2. Non-residential development will be charged DIF for infrastructure including transportation and fire-rescue facilities. However, non-residential development will not be charged for park and recreation or library facilities since those facilities primarily serve the residential component of the Ocean Beach community. In the future, if a basis is developed for charging non-residential development for the cost of park and recreation and library facilities, appropriate fees may be imposed.
3. Any project-specific Community Plan amendments may result in additional fees being charged on an ad hoc basis.
4. Additional fees may be imposed on discretionary projects on a case-by-case basis in order to meet the standard of 2.8 acres of parkland per 1,000-population set forth in the General Plan, or to otherwise fully account for a project's public facilities impacts.
5. The park and library fee distribution between residential and non-residential development will be reviewed each time findings are made for discretionary projects to charge non-residential development for parks and the library.
6. The DIF is due at the time of building permit issuance.
7. DIF funds collected will be placed in a separate fund with interest earnings accumulated for use in the community for program administration and facilities identified in this Financing Plan.
8. Periodic reviews may be performed to evaluate performance of the program and to consider the need for additional projects and the continuing commitments related to the completion of needed facilities. Project costs and scope charges would be evaluated for all portions of the program.

\*\*DEFERRED MAINT REVENUE 200A-PROJECT.

## ***OCEAN BEACH PLANNING BOARD PRIORITY LIST***

The following list represents the priorities of the Ocean Beach Planning Board (Board) with regards to public facilities. For information purposes only, this is the Board's priority list, which is ranked from highest priority to lowest priority:

<b>Financing Plan Project No.</b>	<b>Project Title</b>
L-1	Ocean Beach Branch Library
P-3	Veterans Beach Park Upgrades
F-1	Ocean Beach Lifeguard Station (included in F-1)/Combined Lifeguard Station, SDPD Facility, and Comfort Station
N/A	Crosswalk Newport and Abbott
T-9	Sidewalk and Curb Ramps at West Point Loma Boulevard and Bacon Street
N/A	Crosswalk Santa Monica and Abbott
P-10	Ocean Beach Recreation Center Expansion
T-6	Traffic Signal at Brighton Avenue and Sunset Cliffs Boulevard
T-10	Pedestrian Connections on West Point Loma Boulevard at Nimitz Boulevard
P-6	Robb Field Upgrades
N/A	Preliminary Design and Evaluation of Coastal Erosion (CIP B-00646): Repair Stairwells at Del Monte Avenue, Pescadero Avenue, Point Loma Avenue, and Bermuda Avenue (See Community Plan CE7 7.2.2)
P-2	Saratoga Beach Park Upgrades
N/A	Ocean Beach Salt Water Pool: Create a safe open park space 200 feet south of the Ocean Beach pier on City property. The Ocean Beach Planning Board recommends the transfer of this site from Street Division to the Parks and Recreation Department.
N/A	Ocean Beach Pier Parking Lot: New Public art and hardscape, structural improvements to public parking area and adjacent pier at the foot of Newport Avenue. This will include, but is not limited to, either the removal or restoration of current sculptures adjacent to public parking lot and the installation of additional public art on the retaining walls that define the parking lot. Additionally, the new instillation of public sculpture under the pier, structural replacement of the current existing concrete stairwell, additional access (stairway) to the beach form where the pier stairway meets the boardwalk, seawall seating improvements, and new landscape.

**APPENDIX A**  
**FY 2015 Ocean Beach Public Facilities Financing Plan**  
**Unit Pricing List for Transportation Projects**

**EARTHWORK:**

	<b>UNIT PRICE GUIDELINES *</b>	
Excavation	\$75	per cubic yard
Fill	\$40	per cubic yard
Imported Backfill	\$15	a ton
Clearing & Grubbing	\$ .35-.85	square foot
	(min. 5% of construction subtotal)	

**SURFACE IMPROVEMENTS:**

Remove Curb & Gutter	\$10	per linear foot
Remove Sidewalk	\$3	per linear foot
Remove Pavement	\$3	per linear foot
Grind /Overlay	\$3.50	per square foot
AC Leveling Course	\$120	per ton
4" AC	\$94	a ton
13.5" Cement Treated Base (CTB)	\$34	per cubic yard
Curb & Gutter Type G	\$30	per linear foot
Curb Ramps	\$5,000	each
Sidewalk	\$6	per square foot
Driveways	\$10	per square foot
Median Curb Type B2	\$20	per linear foot

**DRAINAGE:**

Storm Drain Pipe (18")	\$125	per linear foot
Storm Drain Inlet (Type B)	\$7,000	each

**TRAFFIC:**

New Traffic Signal	\$275,000	each
New Street Light	\$8,000	each
Relocate Street Light	\$2,000	each

**LANDSCAPING:**

Landscaping	\$22	per square foot
-------------	------	-----------------

**MISCELLANEOUS:**

Retaining Wall	\$35	per square foot
Guard Rail	\$45	per linear foot
Concrete Median Barrier	\$25-35	per linear foot
Great Crash Cushion	\$35,000 - \$40,000	each

*\*The Unit Price Guideline is based on information compiled from bid item data from recent capital improvement program projects. The unit prices are subject to change based on fluctuations in the economy and costs of construction materials.*

**APPENDIX B**  
**FY 2015 Ocean Beach Public Facilities Financing Plan**  
**Cost Estimate for Park and Recreation Projects**

<b>LAND ACQUISITION:</b>	\$5,300,000 per acre
--------------------------	----------------------

**FACILITIES DESIGN AND CONSTRUCTION:** <sup>(1, 2, 3)</sup>.

Aquatics Complex (Swimming Pool Development) <sup>(4)</sup>	\$6,339,000 per complex
Children's Play Area – ADA Upgrade	\$748,000 lump sum
Children's Play Area - New	\$813,000 each
Comfort Station - ADA Upgrade	\$605,000 each
Comfort Station - New	\$813,000 each
Park Site Development <sup>(5)</sup>	\$748,000 per acre
Parking Lot Expansion	\$690,000 per ½ acre
Path of Travel - ADA Upgrade <sup>(6)</sup>	\$974,000 lump sum
Picnic Shelter	\$288,000 each
Recreation Center - Expansion	\$660 per square foot
Recreation Center – New (17,000 s.f. building)	\$565 per square foot
Security Lighting	\$519,000 lump sum
Sports Field Lighting	\$605,000 per sports field

(1) Improvement costs are provided as a general summary estimate. Costs will vary according to specific site requirements, and size and quantity of facilities needed, and should be determined on a case by case basis. Individual project costs will vary based on the specific improvements included in the project, economy of scale, quantity of improvements, etc.

(2) Cost estimates include construction administration and contingencies, project administration, design and inspection.

(3) Costs should be adjusted annually to reflect the Engineering News Record Construction Cost Index for Los Angeles (CCI) rate change (from March-to-March). The above costs incorporate the 2011 (2.72%), 2012 (2.48%) and 2013 (0.00%) CCI rate changes.

(4) Aquatics Complex includes a standard 25-yard x 25-meter swimming pool; a pool house building with locker rooms, restrooms, and administrative offices; and other recreational or therapeutic aquatic facilities.

(5) Park Site Development includes: Grading and drainage; irrigation; turf and landscaping; walkways; fencing; security lighting; drinking fountains; benches; tables; trash receptacles; and identification signage.

(6) Path of travel upgrades are required when existing paths are inaccessible, and when existing inaccessible facilities are located along the paths of other facilities that are being improved. This includes the path of travel from the site entry point at the public right-of-way that is closest to public transportation stops and designated accessible parking areas. Facilities that may require upgrades include parking areas, sidewalks and curb ramps, sanitary facilities, drinking fountains, benches and tables, public telephones, signage, etc.

**\*IMPORTANT INFORMATION ABOUT THIS FORECAST:**

This forecast was accepted by the SANDAG Board of Directors in February 2010 for distribution and use in planning and other studies. This forecast represents one possibility for future growth in the San Diego region. It is intended to represent a likely prediction of future growth, but it is not intended to be a prescription for growth. The 2050 Regional Growth Forecast represents a combination of economic and demographic projections, existing land use plans and policies, as well as potential land use plan changes that may occur in the region between 2030 and 2050. In general, growth between 2008 and 2030 is based on adopted land use plans and policies, and growth between 2030 and 2050 includes alternatives that may, in some cases, reach beyond existing adopted plans.

## POPULATION BY AGE

## GROWTH TRENDS IN JOBS

## Notes:

1 - Figures may not add to total due to independent rounding.

2 - This is not a forecast of agricultural land, because the 2050 Regional Growth Forecast does not account for land that may become agricultural in the future. Also, some types of development that occur on agricultural land, such as low density single family residential, may allow for the continuation of existing agricultural use.

3 - Civilian jobs per developed employment acre (industrial, retail, office, schools, and half of mixed use acres).

4 - Total housing units per developed residential acre (single family, multiple family, mobile home, other, and half of mixed use acres).

***FY 2015 Ocean Beach Public Facilities Financing Plan***  
***Development Impact Fee Schedule***  
**Effective Date TBD\***

	<b>Residential Development</b>	<b>Non-Residential Development</b>	
	<b>Per Dwelling Unit</b>	<b>Per Average Daily Trip</b>	<b>Per 1,000 Square Feet</b>
Transportation Component:	\$770	\$110	\$0
Park & Recreation Component:	\$5,273	\$0	\$0
Library Component:	\$713	\$0	\$0
Fire-Rescue Component:	\$373	\$0	\$373
<b>Total:</b>	<b>\$7,129</b>	<b>\$110</b>	<b>\$373</b>

*\*The DIF Schedule will increase every July 1, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering News-Record.*
