DATE: June 9, 2006

TO: Members of the Planning Commission

FROM: William Zounes, Development Project Manager

SUBJECT: 2711 Manos Tentative Map Project No. 80233

This project was originally scheduled for the Planning Commission agenda on April 13, 2006. At the request of the applicant, the project was continued to May 25, 2006 so that there was sufficient time to compile a landscape concept plan and building inspections report so that it may be distributed with the Planning Commission packets a week prior to the hearing.

At the May 25, 2006 hearing the project was heard and continued so that the applicant could provide the Planning Commission with information regarding additional off-street parking. In addition the Planning Commission requested to see an executive summary of the Building Inspections report signed by a licensed engineer.
