

**DATE ISSUED:** May 5, 2006 **REPORT NO. PC-06-074**

**ATTENTION:** **Planning Commission, Agenda of May 11, 2006**

**SUBJECT:** TELES TENTATIVE MAP; PROJECT NO. 69896  
PROCESS FOUR

**OWNERS:** Antonio P. and Maria Fatima Teles, Trustees of the Teles Family Trust  
dated April 3, 1998 (Attachment 8)

**APPLICANT:** Anthony-Taylor Consultants

**SUMMARY**

**Issue:** Should the Planning Commission approve a Tentative Map for the conversion of nine existing residential units to condominiums at 4365 Mississippi Street, within the Greater North Park Community Plan Area?

**Staff Recommendation:**

1. **Approve** Tentative Map No. 212079and
2. **Approve** waiver to the requirement to underground existing overhead utilities.

**Community Planning Group Recommendation:** The Greater North Park Planning Committee voted 10-2-1 to recommend approval of the project on August 16, 2005, with recommendations as detailed within this report (Attachment 7).

**Environmental Review:** This project is exempt from environmental review pursuant to Article 19, Section 15301(k), Existing Facilities, of the California Environmental Quality Act (CEQA). This project is not pending an appeal of the environmental determination. The environmental exemption determination for this project was made on May 13, 2005, and the opportunity to appeal that determination ended June 6, 2005.

**Fiscal Impact Statement:** None with this action. All costs associated with the processing of this project are paid by the applicant.

**Code Enforcement Impact:** None with this action.

**Housing Impact Statement:** With the proposed conversion of nine existing apartments to condominiums, there would be a loss of nine rental units and a gain of nine for-sale units. This condominium conversion project was deemed complete on April 29, 2005, and is therefore subject to the new regulations regarding Inclusionary housing and tenant relocation assistance.

## **BACKGROUND**

The 0.17-acre site is located at 4365 Mississippi Street in the MR-800B Zone of Mid City Communities Planned District and the Transit Area Overlay Zone, within the Greater North Park Community Plan Area (Attachment 3). The site is presently developed with one, two-story structure containing two 3 bedroom units, three 2-bedroom units and four 1-bedroom units. Fifteen off-street parking spaces are provided on the site: five accessed from Mississippi Street at the front and ten accessed from the alley at the rear. The site is bounded on all sides by multi-family residential uses.

The existing improvements were constructed in 1985. At the time the site was zoned R-600 and would have allowed for 12 dwelling units. Parking requirements effective in 1985 required 13 parking spaces to be provided for the nine dwelling units. The development complied with the zoning and development regulations in effect at the time of construction and no Building or Zoning code violations have been recorded against the property.

The project does conform with the current density requirement of one unit per 600 square feet in the MR-800B Zone, which would allow 12 units to be constructed today. Under current criteria, 14 off-street parking spaces would be required. The project has previously-conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.

## **DISCUSSION**

### **Project Description:**

The project proposes a Tentative Map for the subdivision of a 0.17-acre site to convert nine existing dwelling units into condominiums on two existing lots (Attachment 5). The applicant is also requesting that the requirement for the undergrounding of existing overhead utilities be waived.

Section 125.0410 of the San Diego Municipal Code (SDMC) requires that a Tentative Map be processed for the subdivision of land. According to SDMC Sections 125.0440 and 125.0444, *Findings for Tentative Maps and for Condominium Conversions*, the decisionmaker may approve

a Tentative Map for the purposes of the conversion of residential property into a condominium project if the decisionmaker finds that the proposed conversion complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and determined that it complies with both the Subdivision Map Act and the San Diego Municipal Code.

#### Undergrounding of Existing Utilities

San Diego Municipal Code Section 144.0240 allows the subdivider to apply for a waiver from the requirement to underground the existing overhead utilities within the boundary of the subdivision or within the abutting public rights of way. City staff has determined the undergrounding waiver request qualifies under the guidelines of Council Policy 600-25, *Underground Conversion of Utility Lines at the Developer's Expense*, in that the conversion involves a short span of overhead facility (less than 600 feet in length) and the conversion is a requirement of a condominium conversion of an existing development and the conversion would not represent a logical extension to an underground facility.

The applicant will be required to underground all existing service to the site per Condition No. 14 of the draft Tentative Map resolution (Attachment 6). The applicant would also be required to underground any new service run to any new or proposed structures within the subdivision per Condition No. 4 of the draft Tentative Map resolution (Attachment 6).

The neighborhood currently contains power poles and overhead utilities in the alley at the rear of the property. The utility lines to these poles extend to other properties located north and south within the alley. The pole closest to this property, which carries the line serving this site, is located within the rear alley right-of-way, approximately 15 feet east of this site. As indicated above, all utilities serving this property will be required to be undergrounded. The waiver is being requested for the requirement to underground adjacent utilities serving the surrounding properties. The City's Undergrounding Master Plan for Fiscal Year 2006 designates the site within Block 3X, and the date for undergrounding has been established for the year 2011 (Attachment 10).

#### **Community Planning Group and Neighborhood Recommendations:**

The Greater North Park Planning Committee voted 10-2-1 to recommend approval of the project on August 16, 2005, subject to their five standard recommendations and two additional recommendations (Attachment 7):

1. No waiver or exemption from state and local requirements that existing utility services for this property be placed underground be granted. Placing of all overhead utility services underground is a critical infrastructure need in our community, and is typically paid for by the developer. Exceptions may be made for alleyway above ground utilities, or any above ground utilities that are firmly scheduled to be placed underground in the next five years. *Based on the preceding information regarding the undergrounding of the existing utilities, staff continues to support the undergrounding waiver request.*

2. The first right of refusal to purchase a unit be given to current tenants. *The Tentative Map Resolution has been conditioned to provide the right of first refusal to the existing tenants, as required by the State Map Act, which is a standard condition for all conversion projects.*
3. Historic sidewalk stamps and scoring of existing sidewalks be preserved, and any replacement or new sidewalks be constructed so that the scoring matches the existing sidewalk scoring, color, texture and type of contractor date stamp. *The Land Development Code already requires the preservation of historic sidewalk stamps and scoring.*
4. Landscaping shall be brought into conformance with the current Land Development Code regulations for the City of San Diego, including the placing of street trees at required locations as indicated in the San Diego Street Design Manual. *There is no construction proposed with this project, therefore no additional landscaping is required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.*
5. Current on street parking will be preserved, and where feasible, the provision of new parking should be provided both onsite and offsite. The latter goal can be accomplished by minimizing curb cuts, and other innovative measures. *There is no construction proposed with this project, therefore no additional parking is required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.*
6. The developer shall satisfy cycle issue parking comments. *The applicant satisfactorily addressed all staff comments regarding parking issues during the course of project review.*
7. The developer shall add a small amount of tile embellishments to the building. *Although not required by staff, the applicant has voluntarily agreed to provide this enhancement.*

**Project-Related Issues:**

The requested conversion of these residential units to condominiums represents primarily a change in ownership. The applicant has certified that the required 60-day Notices of Intent to Convert to Condominiums were provided to the tenants May 13, 2005 (Attachment 11).

All condominium conversion projects Deemed Complete on or after February 7, 2004, must conform with the new regulations regarding Inclusionary housing and tenant relocation benefits adopted by the City Council on March 15, 2004. This proposed project was Deemed Complete on April 29, 2005, and is therefore subject to these new regulations. The project has been conditioned to require the subdivider conform with the City's Inclusionary Housing Ordinance

(Chapter 14, Article 2, Division 13 of the Land Development Code) and demonstrate conformance with the Municipal Code provisions for Tenant Relocation Benefits (Chapter 14, Article 4, Division 5) to the satisfaction of the City Manager and the Housing Commission, prior to the recordation of the Final Map. The applicant has elected to pay the Inclusionary Affordable Housing In-Lieu Fee of \$5,371.63 (6,139 square feet x \$0.875) pursuant to the Affordable Housing Requirements of the City's Inclusionary Housing Ordinance (Chapter 14, Article 2, Division 13 of the Land Development Code).

**Conclusion:**

Staff has reviewed the request for a Tentative Map for the conversion of nine residential units into condominiums and has found the project to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps. Staff believes the requirement findings can be supported and recommends the Planning Commission approve the project as proposed.

**ALTERNATIVES**

1. **Approve Tentative Map No. 212079with modifications.**
2. **Deny Tentative Map No. 212079if the findings required to approve the project cannot be affirmed.**

**Respectfully submitted,**
