

# A Community Gateway for Barrio Logan

## Cesar Chavez Parkway

November 14, 2012

# Issues from last meeting

- Iron overhead span structure too industrial
- Metal medallion in span not representative of Barrio Logan
- Make the overhead span solid
- Design should be uniquely Barrio Logan
- Should look good on day one
- Should be lit at night
- Should be durable

# Concept

© 2012 Google

# Concept - Blank Canvas

# Concept Ceramic Tiles

# Concept with graphics on banner

To be developed in conjunction with community committee  
but be part of initial construction

# Discussion
