

Proposed Agenda Title and Paragraph
For use by Local Jurisdictions when docketing
Presentations on the Smart Growth Concept Map

DRAFT "SMART GROWTH CONCEPT MAP" (SANDAG Staff)

Long Version:

In July 2004, the SANDAG Board of Directors adopted the Regional Comprehensive Plan (RCP) for the San Diego region. A key step in RCP implementation is the preparation of a "Smart Growth Concept Map" to identify specific locations where smart growth development exists, is planned, or has the potential to exist in the future. The map will be used in the update of the comprehensive 2007 Regional Transportation Plan (RTP) and in determining eligibility to compete for the future *TransNet* Smart Growth Incentive Program (SGIP) funding.

Working together, SANDAG staff, local planning directors, stakeholders, and SANDAG's Regional Planning Committee have identified approximately 200 existing, planned, and potential smart growth areas in the San Diego region. The purpose of this presentation is to ensure that local city councils are aware of the smart growth areas identified in their jurisdiction and subregion. Public workshops will be held on the Smart Growth Concept Map this April.

OR

Shorter Version:

The Regional Comprehensive Plan (RCP) calls for the preparation of a "Smart Growth Concept Map" that identifies areas within the region that have existing smart growth or opportunities for smart growth development. Working together, SANDAG staff, local planning directors, stakeholders, and SANDAG's Regional Planning Committee have identified approximately 200 existing, planned, and potential smart growth areas in the San Diego region. The purpose of this presentation is to ensure that local city councils are aware of the smart growth areas identified in their jurisdiction and subregion. Public workshops will be held on the Smart Growth Concept Map this April.
