    - a. Harvey Payne, [Rancho Peñasquitos Concerned Citizens'](#) Chair, gave an update on the Sunrise Powerlink alternatives to the last 13.5 miles (the Coastal Link) of the project. The recently released Draft EIR/EIS (7,000 pages) is available to review at the local library and online at <http://www.cpuc.ca.gov/Environment/info/asp/sunrise/toc-deir.htm>. The Draft EIR/EIS concludes that RPCC's coastal system upgrade alternative, which calls for stopping the proposed line at the Sycamore Canyon Substation (assuming the Commission determines that the line should be built), is the environmentally superior alternative within the Coastal link. The Draft EIR/EIS also concludes that an alternative route proposed by RPCC within the Coastal Link – Pomerado Road to Miramar Road (a mostly underground route), is environmentally superior to the proposed route put forward by SDG&E. Only written public comment will be accepted, deadline is April 11, 2008. The Public Utilities Commission/BLM is holding a series of meetings at various locations to allow the public to ask questions and the CPUC will be holding five public participation hearings between February 25 and 27.
