

THE CITY OF SAN DIEGO

Historical Resources Board

DATE ISSUED: September 11, 2009 REPORT NO. HRB-09-061

ATTENTION: Historical Resources Board
Agenda of September 24, 2009

SUBJECT: **ITEM #7 – E.A and Effie Tindula House**

APPLICANT: Hall Family Trust, owner and nominator

LOCATION: 3593 29th Street, Greater North Park Community, Council District 3

DESCRIPTION: Consider the designation of the E.A and Effie Tindula House located at 3593 29th Street as a historical resource.

STAFF RECOMMENDATION

Designate the E.A. and Effie Tindula House located at 3593 29th Street as a historical resource with a period of significance of 1925 under HRB Criterion C, as an example of Craftsman style architecture. This recommendation is based on the following finding:

The resource embodies the distinctive characteristics through the retention of character defining features of Craftsman style architecture and retains integrity from its 1925 period of significance.

BACKGROUND

This item is being brought before the Historical Resources Board at the owners request to have the site designated as a historical resource. The house is a one story Craftsman style house located in the West End Addition subdivision of the North Park. The date of construction of 1925 is supported by the Notice of Completion which indicates that John P. Pearson was the contractor hired by the owners for construction of the house, which started in June of 1925 and was completed on September 26th 1925.

The proposed name, the E.A. and Effie Tindula House, is based on the deed at the time of construction and the city directory listings which indicate that the Tindulas were the first owners and occupants of the house.

ANALYSIS

A historical resource research report was prepared by S. Mitchell Hall, the property owner, which concludes that the resource is significant under HRB Criterion C. Staff concurs that the site is a significant historical resource under HRB Criteria C as follows:

CRITERION C - Embodies distinctive characteristics of a style, type, period or method of construction or is a valuable example of the use of natural materials or craftsmanship.

The property at 3593 29th Street is a one story single family home designed in the Craftsman style. The house exhibits character defining features of the style including a shallow pitch jerkin-head gabled roof; an unenclosed eave overhang; exposed rafters and decorative false beams; a brick chimney, horizontal wood lap siding; wood windows and doors; and a partial width front porch.

The house is located on a corner lot with the east (front) and north elevations both fronting on the street. The front elevation features an off center partial width front porch supported by Doric columns and accessed from the sidewalk by a scored concrete walkway and steps. Beneath the porch roof the front entry door with a wood screen is on the right; and a Chicago style set of windows, a large picture window flanked by two wood double hung windows each with decorative multi-light upper sashes, lies left of the entry. A matching ribbon of three wood double hung windows is located to the right of the front porch.

The north elevation, which also fronts on the street, features wood double hung windows of various sizes, as well as a Chicago style set of windows similar to those on the front façade, and a brick chimney. A detached single car garage is accessed from the street on this side of the house.

The east (rear) and south elevations are not visible from the street, and feature wood double hung windows like those present on other elevations. The back yard is accessed from the east elevation by two wood entry doors, each with a wood screen. Scored concrete steps like those present at the front porch lead from floor level to patio level.

No major modifications to the property are noted, and based on its current condition the property retains integrity of location, design, setting, materials, workmanship, and feeling. Integrity of association is not applicable as the property is not eligible for designation for association with persons or events.

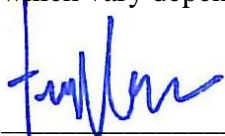

Therefore, staff recommends designation of the E.A. and Effie Tindula House, located at 3593 29th Street under HRB Criterion C as an example of Craftsman style architecture retaining integrity from its 1925 period of significance.

OTHER CONSIDERATIONS

Conditions related to restoration or rehabilitation of the resource may be identified by staff during the Mills Act application process, and included in any future Mills Act contract.

CONCLUSION

Based on the information submitted and staff's field check, it is recommended that the E.A. and Effie Tindula House, located at 3593 29th Street be designated as a historical resource with a period of significance of 1925 under HRB Criterion C as an example of Craftsman style architecture. Designation brings with it the responsibility of maintaining the building in accordance with the Secretary of the Interior's Standards. The benefits of designation include the availability of the Mills Act Program for reduced property tax; the use of the more flexible Historical Building Code; flexibility in the application of other regulatory requirements; the use of the Historical Conditional Use Permit which allows flexibility of use; and other programs which vary depending on the specific site conditions and owner objectives.
