invites you to an author talk

SAN DIEGO LEGENDS

The Events, People & Places that Made History

by Jack Scheffler Innis

Join journalist Jack Scheffler Innis, who has spent years researching and writing about the weird and wonderful history of San Diego, as he discusses his book, *San Diego Legends*. The book includes early historical figures, like San Diego's founder, Padre Junípero Serra, and such famous names as Wyatt Earp and Joshua Bean, but that's only the beginning for *San Diego Legends*. Innis takes readers right up to modern times, with stories on some of the religious cults that are based in the county, a well-documented city-wide hoax, local UFO sightings, as well as the multi-talented stars of stage and screen who have called San Diego home.
