The 5,000-square-foot Gateway Mural is a public beautification project of the City of San Diego Redevelopment Agency. Aptly named, the mural is situated at the main gateways into Old Town, Midway, and Point Loma. Conceived by the Urban Corps of San Diego and implemented by artist Sal Barajas, the mural depicts the area's historical influences, prominent features and attractions in an effort to remove blight while improving and promoting the positive neighborhood characteristics for the benefit of businesses, residents, and visitors.
