Last year, over 35,000 volunteers worked more than 1,100,000 hours assisting in City departments. Many City programs could not operate at all without this volunteer assistance.

City volunteers are a diverse group including seniors. The City Volunteer Program has numerous volunteer opportunities, with over 150 different types of volunteer jobs in more than 20 City departments. If you are interested, contact the volunteer program at (619) 533-6714.

Water Conservation

Residential Water Survey Program

The Residential Water Survey Program is a FREE service offered to San Diego residents and is designed to help participants identify ways to substantially lower their water usage. During the appointment, the surveyor will teach you how to read your water meter and show you how to determine if you have a water leak. The surveyor will check your showerheads, faucets, toilets, dishwashers and washing machines. In addition, the surveyor will check your irrigation system and exterior landscaping, and advise you on the best way to maintain your lawn while using less water. At the end of the survey, participants will receive a water collection bucket filled with great promotional items. For more information or to schedule a Water Survey, call the City of San Diego's Water Conservation Hotline at (619) 570-1999 or e-mail us at water@sannet.gov.

Lawn and Garden Watering Calculator

Save money, save time and save water by giving your lawn and garden the right amount of water all year long. The City of San Diego Landscape Watering Calculator is an easy-to-use tool available on the World Wide Web that helps you estimate the right amount of water to give your landscape or garden. Just answer a few quick and easy questions about your landscape and the calculator will give you a printable weekly schedule with the right amount of water your plants need for the year.
