Notes

L - Likely, UL - Unlikely, N - No, UK - Unknown

The SIC and NAICS code systems were designed for businesses and are not considered applicable to municipal facilities.

Because virtually all lands in the City's Jurisdiction discharge to, or are tributary to, a 303(d) listed water body, lagoon, or water body on environmentally sensitive lands, all City facilities in this inventory are considered to fall under that category.

¹ Potential pollutants were populated based on information from Table 3-10 in the Copermittees' Baseline Long-Term Effectiveness Assessment (LTEA).

² No equivalent category exists on Table 3-10 in the LTEA.

Appendix II.B. Municipal Infrastructure Inventory

This Page Left Intentionally Blank.

Appendix II.B Municipal Infrastructure Inventory

MS4 – overall ²	GIS Map (Appendix III) Publicly available SanGIS file: “Drain_Conveyance” ³ (only MS4 infrastructure identified as the City’s maintenance responsibility)
MS4 Structures ²	Publicly available SanGIS file: “Drain_Structure” ³
Sewer	Publicly available SanGIS file: “Sewer_Main_SD”
Roads	All public streets within the City of San Diego, except streets maintained by Caltrans, included in the following publicly available SanGIS file: “Roads_All”

¹ SanGIS files can be accessed via www.sangis.org. These files are in ArcGIS shapefile format.

² The City does not maintain separate inventories or files of flood management facilities, flood control devices and structures.

³ These GIS layers also include MS4 infrastructure that other agencies or private parties own or are responsible for maintaining. Only MS4 infrastructure that the City owns or has accepted responsibility for maintaining is considered part of the City’s MS4.
