

# Chollas Creek TMDL Future Projects

- **MS4 Management Plan**
- **Trash Removal at Chollas Creek**
- **Copper/Zinc Reduction**

# MS4 Management Plan

- NPDES Permit due this summer – will include MS4 requirements for Naval Base San Diego.
- MS4 management plan draft completed and will be finalized when permit issued. Plan will focus on metals in storm water runoff.
- Reviewing MS4 BMPs.

# Copper/Zinc Reduction

- Develop a Cu/Zn minimization plan for NBSD.
- NBSD issued policy letter restricting galvanized material use.
- Private car washing is forbidden onboard NBSD and government vehicles must be washed at commercial/industrial car washes.
- Aggressive LID implementation for area subject to MS4.
  - Most Cu/Zn mass from transportation (Automobiles) at NBSD.
- NPDES compliance schedules for industrial discharges
- Support for brake pad initiative (SB 346).
- Replacement of sand/grit sand blasting with alternative paint removal techniques (i.e., hydroblasting). Implemented through contractor user agreements.
