[^0]:    Notes: Trees include retaining wall plantings and irrigation systems, root barriers, and 1 year maintenance contract. Assumes corrosion proof attachments insect/decay resistant trellis.
    Trellis will be from 4' to 15' height however cost is an average.
    2 Retaining wall height from Coastal Comission and City Department of Planning and Land Use
    3 Estimate excludes retaining wall constructed by others at approx. stations $37+40-40+70$
    4 Soil Nail wall costs are based on the difference between the $\$ 350 /$ sf wall with soil nails and the $\$ 150 /$ SF SDRSD C-11 retaining wall without soil nails
    5 -foot wide sidewalk is assumed for cost estimating. Remaining available width to be utilized for parkway strip behind sidewalk.
    Land Acquisition uses estimated areas of 6000 sq ft Segment $1,3300 \mathrm{sq} \mathrm{ft}$ Segment 2 , and 2300 sq ft Segment 3 .
    7 Land acquisition administration or effort to acquire land is based on the estimated no. of properties affected
    8 Design and Administration includes costs for detailed design, bidding and awarding contract, construction management and City management
    9 Land acquisition costs were based on actual real estate prices averages of $\$ 100$ per foot. A $20 \%$ contingency was added.
