Smart Controller Rebate Guidelines

Did you know that more than 50% of the water consumed by most households is used to maintain landscapes and lawns?

City of San Diego Public Utilities Department commercial and multi-family home customers can receive a rebate for a weather based irrigation controller!

City of San Diego customers cannot participate if they have already received a rebate for the WBIC/Smart Controller through the Southern California MWD Save A Buck regional rebate program.

- Funding for a limited number of rebates is available through the City of San Diego Transportation and Storm Water Department and a State of California grant and will be distributed on a first come, first served basis until exhausted. *This program is subject to change without prior notification.*
- Rebate check will be sent to the customer of record 6-8 weeks after post-installation site visit is successfully completed.
- Rebate CANNOT exceed materials costs on receipts or \$25 per station up to 68 stations and \$1700.
- Applicant's water account must be in good standing
- Customer must agree to and sign the application agreement before rebate is administered
- Changes made related to rebate program must comply with all applicable laws, codes, policies, covenants, conditions, and restrictions.
- Please consult with a tax advisor if you have questions regarding any potential tax implications of your rebate.
- Project site shall be available for future inspection, monitoring, and photos (up to five years) to a Public Utilities representative. Addresses to project sites participating in the rebate program will be available to the public. Customer names will not be made public or associated with the address.

If you have questions after reading these guidelines, please call 619-533-4126 or e-mail waterconservationrebates@sandiego.gov.

What does not qualify for a rebate?

- **Rebate does not apply to signal fee, All labor and taxes**
