Ten days prior to start of class or when class limit is reached

This half-day course is designed to provide recycled water users in the state of California with the necessary information required to become fluent in the operational practices of recycled water. The \$60 registration fee includes learning materials and a supervisor identification. Course objectives include:

- Roles and responsibilities of a Site Supervisor at a recycled water use site.
- Identifying potential and direct cross-connections and learning appropriate preventative measures.
- Practicing appropriate techniques for the safe and efficient use of recycled water.

Bi-lingual staff will be on site to address questions related to Roles and Responsibilities relevant to participants. Testing materials are also available in Spanish.

The Public Utilities Department is authorized by IACET to offer 4 CEUs for this program.
