

Welcome to Water Awareness Month

There's a lot to be aware of with water. Did you know that nearly half of our water goes to landscapes? Or that much of the state's energy is used to move and heat water? The more you know about water, the more you'll want to take care of it – inside and outside your home. Visit us at www.WasteNoWater.org.

Anna Feng, 3rd Place, 1st Grade: Creekside Elementary

MAYOR BOB FILNER INVITES ALL TO PARTICIPATE IN “WATER AWARENESS MONTH”!!

SAN DIEGO – Mayor Bob Filner is asking all San Diegans to remember the importance of conserving water during this “Water Awareness Month” by participating in programs spearheaded by the City of San Diego.

Upcoming City activities to promote “Water Awareness Month” include Water Purification Demonstration Project Tours and other events lists on the City’s website at www.sandiego.gov/water.

“This is a good opportunity for families to spend a fun time together, while learning something new and teaching their children the importance of caring for our natural resources,” said Mayor Filner. “It is a fascinating and eye-opening tour and I encourage everyone to take initiative and ownership of our City by becoming informed.”

To register for a tour, you can go to the project website at www.purewatersd.org/tours.shtml.

The Mayor would also like citizens to be aware of other resources for information about conserving water, how taxpayer’s money is used to fund programs, services and a vast, complex water and sewer system. Information can be found on the “Your Dollars at Work” web page at www.sandiego.gov/publicutilites/dollarsatwork.shtml.

There is even information that can help determine how much water is needed for landscaping needs through the Landscape Watering Calculator at www.sandiego.gov/water/conservation.

“Imagine the impact we can have on our water supply, when we understand where it goes, how it is purified, how we can do our part to save water!” said Mayor Filner. “Let’s all work together to do our part to be responsible consumers. We can do it!!”

###

The City of San Diego’s Water Conservation Program reduces water demand through promoting or providing incentives for the installation of hardware that provides permanent water savings, and by providing services and information to help San Diegans make better decisions about water use. For more information about Water Conservation, visit www.wastenowater.org or call (619) 515-3500.
