2. Direct staff to determine a preferred implementation plan and schedule that considers potable reuse options for maximizing local water supply and reducing flows to Point Loma;
3. Direct staff to develop a strategy for allocating potable reuse costs among local water and wastewater funding sources;
4. Direct staff to develop a financing plan;
5. Direct staff to monitor the development of direct potable reuse regulations;
6. Direct staff to report to the Natural Resources and Culture Committee on the progress of each of the above items within 90 days of the City Council hearing;
7. Authorize the use of remaining project funds to initiate work described as the "Next Steps."

The Demonstration Project team is moving forward with the directed tasks and looks forward to the next steps in the process.
