Gentlemen:

As a home owner on the ocean front in the Bird Rock area, I would like to express my views on surfing.

The surfers have given both myself and my guests, hours of entertainment and have always conducted themselves in a very orderly manner at all times. I think it is a shame that they have to be restricted to designated areas, one of which will not be in front of my home. I have talked with several of the surfing enthusiasts and they are very sorry that a few of their fellows have spoiled the relationship between home owners and surfers, and I am informed that they are remedying this in their own groups.

La Jolla has one of the most beautiful coast lines in the world and I feel that generally the surfers are an added attraction that other coast line towns should envy.

The ocean is for all to enjoy and should not be restricted because of the whims of certain old fools. Next we will be restricting the areas in which we can fish or swim and sun bathe, and I do not believe this is a very democratic way of life.

Respectfully yours,

Gary L. Boren
