OVERVIEW:

This report details the programmatic efforts of the administration of the Living Wage Ordinance (LWO) during Fiscal Year 2018 under the Equal Opportunity Contracting Program as required by San Diego Municipal Code §22.4235(c).

PROPOSED ACTIONS:

This item is for information only. Forward informational item to Council.

DISCUSSION OF ITEM:

The Living Wage Ordinance (LWO), adopted by the City of San Diego (City) in 2005, requires covered employers to provide specific wage rates and benefits to workers who perform services on applicable service contracts, financial assistance agreements, or facility agreements to keep workers and their families out of poverty.¹ Equal Opportunity Contracting Program (EOC) staff supporting the Living Wage Ordinance are responsible for the monitoring and enforcement of the ordinance requirements for applicable service contracts, financial assistance agreements, and facility agreements. During fiscal year 2018, EOC staff monitored contracts, maintained records, conducted

¹ San Diego Municipal Code §22.4220.

annual wage adjustment reviews and compliance reviews, investigated complaints, and implemented programmatic updates.

Fiscal Year 2018 Program Administration

The Living Wage Unit consists of one Supervising Management Analyst and one Senior Management Analyst, who are responsible for enforcement of the City's LWO. Staff performs administrative and programmatic functions to monitor and enforce the ordinance requirements as follows:

- Ensures covered employees receive required compensation for work performed under applicable service contracts and/or agreements;
- Reviews and processes LWO Certifications of Compliance and Applications for Exemption;
- Ensures covered employers comply with reporting and employee notification requirements;
- Responds to and investigates worker complaints;
- Conducts site visits for verification of pay to covered employees; and
- Routinely educates internal and external customers on LWO and its applicability.

During this fiscal year, staff conducted a benchmarking study to review current policies and procedures to determine if City practices were in line with best practices. Staff compared the City's LWO enforcement practices against other agencies with living wage programs and identified additional strategies for consideration for effective enforcement and continued success of the LWO. Required standardized payroll reporting is a major enforcement tool utilized by other agencies that previously was not utilized by the City. The following agencies require submittal of additional detailed payroll information for verification of employee pay and compliance:

- County of Los Angeles – Weekly Certified Payroll Records, Contract Staffing Plan²;
- City of Santa Barbara – Weekly Certified Payroll Records³, Certification of Compliance, Living Wage Annual Declaration;
- City of San Jose – Weekly Certified Payroll Records⁴;
- San Jose Airport – Weekly Certified Payroll Records, Employee Training Records⁵; and
- Port of Oakland – Quarterly Payroll Reports detailing employee pay information⁶

As a result, a major programmatic improvement during this fiscal year was the development of a standardized payroll reporting process for covered employers on all City agreements subject to the LWO. This improvement allows staff to more efficiently and quickly monitor contracts subject to LWO requirements. Previously, review of vendor payroll records was conducted in compliance with an audit or compliance review, - resulting in a paper driven and, often, time consuming review. Further, the lack of a standardized payroll reporting process made it difficult for staff to verify if workers were paid the applicable living wage rate for hours worked on City contracts.

Working with the City's existing labor compliance monitoring software, PRISM®, the living wage reporting module was developed and piloted during this fiscal year, with full implementation expected to occur during fiscal year 2019. The implementation of standardized payroll reporting assists the City to mirror best practices used by other agencies and allows monitoring to shift from reactive to proactive via PRISM, resulting in broader coverage using existing resources. The PRISM module will conduct an initial audit of electronic submittals using payroll parameters and rules set by staff to determine if workers are owed restitution. Instructional materials and weekly web-based training sessions administered by staff will be available for vendors with contracts subject to LWO requirements.

Staff also began the preliminary review of San Diego Municipal Code (SDMC) Chapter 2, Article 2, Division 42 for potential revisions, with final recommendations to be presented to Council in fiscal year 2019. Proposed revisions include further clarification of employee benefit provisions such as leave and payment of overtime, updates to sections impacted by legislative changes, and adoption of an administrative enforcement process. The administrative process will enable staff to take further enforcement action for violations, including penalty assessment, and establish an appeal process for employers in addition to the enforcement actions and remedies outlined in SDMC §22.4230(f). These additional enforcement tools will enable staff to effectively monitor and enforce contracts for compliance.

Living Wage Applicability

During fiscal year 2018, there were a total of 352 active contracts subject to LWO monitoring with a total value of \$61,953,660.50⁷. There was a total of 192 covered employers with active contracts subject to the LWO during the reporting period. The following table summarizes covered contract information over the last fiscal year:

Table 1: FY18 LWO Covered Contracts by Service Type

Service Type	Number of Contracts	Total Value of Contracts

Each calendar year, staff verifies that the rate of pay is commensurate with the applicable Consumer Price Index as published by the U.S. Department of Labor, Bureau of Labor Statistics for the geographic region. Staff will calculate, post, and distribute information regarding any increases, should they be required, by April 1st of each calendar year. Effective July 1, 2018, the required wage rate increased by 3.05 percent to \$15.41 (inclusive of basic hourly wage rate and health benefits). The following table details the living wage rate stipulated by the City over the last five fiscal years:

Enforcement

Staff conducts Compliance Reviews to verify LWO compliance by covered employers. Contracts or covered employers for review may be selected randomly or based on concerns of noncompliance. Staff will review and analyze payroll records, and related documentation, to verify payment of applicable living wage rates to covered employees. Staff will also review and confirm compensated leave time is provided to covered employees and verify compliance with required noticing and reporting. Employee interviews on City contracts are conducted when necessary.

If any deficiencies or wage violations occur, staff will work with the covered employer to recover any restitution owed to workers and ensure strict compliance is effectuated moving forward. Other violations identified that do not fall under the LWO are referred to the appropriate enforcement agency for review. The table below details reviews conducted by staff and findings during the reporting period:

Legislative Changes Impacting Living Wage Contracts

Assembly Bill 1978 (AB 1978)¹¹, also known as the Property Service Workers Protection Act, signed by Governor Brown in 2016, added additional requirements to contractors working on City contracts for janitorial services beginning July 1, 2018. Per AB 1978, all janitorial service providers operating in California are required to comply with the following:

- **Contractor Registration** – All janitorial providers with one or more employees and one or more janitorial workers are required to register with the State of California Department of Industrial Relations (DIR). Registration is valid for one (1) year and must be renewed annually by the month and day of the original registration’s issuance. All contractors will be required to pay a \$500 registration fee per year.
- **Recordkeeping Requirements** – In addition to existing recordkeeping requirements under all applicable laws, all janitorial providers are required to keep accurate records for three years that include:
 - Names and addresses of all employees engaged in rendering actual services;
 - Hours worked daily by each employee, including the time the employee begins and ends each work period;
 - Wage and wage rate paid each payroll period;
 - Age of all minor employees; and
 - Any other conditions of employment.
- **Sexual Harassment Training** - Janitorial service employers shall provide all covered workers with a copy of Department of Fair Employment and Housing (DFEH) pamphlet DFEH-185 – “Sexual Harassment” and provide in-person Sexual Harassment Prevention Training (once every two years) beginning January 1, 2019.
- **Civil Penalties** – Any janitorial provider who fails to register with the DIR will be subject to a civil fine of \$100 for each calendar day that the employer is unregistered, not to exceed ten thousand dollars \$10,000.

Under AB 1978, the City must ensure no contract award is made if a prime janitorial contractor, or any subcontractors (regardless of tier), are not registered with the DIR. Should the City enter into

¹⁰ Remedies include back wages and/or unpaid compensated leave owed to employees.

contract with an unregistered contractor, the City is subject to civil penalties of \$2,000 to \$10,000 for the first violation and \$10,000 to \$25,000 for subsequent violations.

Staff has notified the Purchasing and Contracting Department and the City Attorney's Office of these changes and procurement staff will work to ensure janitorial service contractors meet these new guidelines prior to awarding any new contracts. Staff has informed all current janitorial service providers and all janitorial vendors registered in PlanetBids®¹² of the new requirements to ensure compliance as well.

Outreach

Staff is committed to ensuring workers are aware of their rights under the LWO and assist contractors in understanding and meeting their obligations. Staff routinely conducts site visits, provides in-person and web-based training, and collaborates with other agencies and community advocacy groups. During fiscal year 2018, staff participated in the following:

- Presenting to various community groups, including the Asian Business Association and Citizens' Equal Opportunity Commission;
- Presenting Living Wage Compliance and Best Practices at the COMPASS Diversity Conference to various public agencies in Baltimore, MD;
- Participation in various web-based and in-person training related to applicable labor laws and wage theft, including the San Diego Summit on Workplace Justice, Wage Theft & Workers Compensation Fraud and a Department of Labor Wage Seminar;
- Initiated dialogue with local Division of Labor Standards Enforcement (DLSE) office for referral of City living wage complaints; and
- Initiated dialogue with other public agencies who have adopted living wage/minimum compensation ordinances, including the City of Los Angeles, County of Los Angeles, City of Oakland, Port of Oakland, City and County of San Francisco, and the San Jose Airport.

Conclusion

The Equal Opportunity Contracting Program is committed to enforcement and ongoing improvement of the LWO to ensure wages earned are put into workers' pockets. Since the adoption of the ordinance in 2005, the Living Wage Program has recovered \$763,486.97 in restitution on behalf of covered employees and will continue to ensure that both City staff and the public understand, and comply with, the ordinance requirements.
