## Background

The Del Mar Terrace Maintenance Assessment District (District), originally known as the “Del Mar Terrace Street Repair and Maintenance District,” was established by the City of San Diego (City) on July 12, 1994 by City Council Resolution R-284281. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.

In conformity with §65.0221 of the “San Diego Maintenance Assessment District Procedural Ordinance,” the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer’s Reports (Engineer’s Reports). The Engineer’s Reports are on file with the City Clerk, and incorporated herein by reference.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance.” This annual report has been prepared pursuant to the requirements of §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

---

## District Boundary

The District boundary is generally depicted in **Exhibit A**. The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.

---

## Project Description

The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of slurry coating and adding an asphaltic concrete overlay specified intervals to the streets in the District. The approximate location of the improvements is generally shown on **Exhibit A**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer’s Reports and other associated documents on file with the

Maintenance Assessment Districts section of the Parks and Recreation Department of the City. These documents, collectively, are incorporated herein by reference and made part of this annual report.

---

## Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are “special benefits” to the extent that they are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. By law, only “special benefits” are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide “special benefits” in accordance with the Engineer’s Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer’s Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

---

## Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The “Other Contributions (Non Assessment Source)” revenue contained in the budget includes the value of improvements and activities determined to provide “general benefits.” The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

## Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer’s Reports is not authorized to be indexed without a vote of the affected property owners.

## Method of Apportionment

The costs of street repair and maintenance have been apportioned to the parcels in the District based on each parcel’s estimated equivalent dwelling units (EDUs). EDUs for each parcel have been determined based on an EDU Factor applicable to the subject land use, as shown in the following equation:

$$\text{EDUs} = (\text{Acres or Units}) \times \text{EDU Factor}$$

The total assessment for a given parcel is equal to the parcel’s total EDUs multiplied by the unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EDUs} \times \text{Unit Assessment Rate}$$

**Table 1** summarizes the applicable EDU factors by land use.

**TABLE 1: EDU Factors by Land Use**

Land Use	Code	EDU Factor
Single Family Dwelling	SFD	1.0 per unit
Condominium	CND	0.7 per unit
Multi-Family Dwelling	MFR	0.7 per unit
Commercial	COM	15.0 per acre
Street/Roadway	STR	0.0 per acre
Undevelopable	UND	0.0 per acre

## Sample Calculations

As described above, the number of Equivalent Dwelling Units (EDUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EDUs} = (\text{Acres or Units}) \times \text{EDU Factor}$$

Shown below are sample EDU calculations for several common land uses found in the District.

- **1 Single-Family Residence**  
EDUs = 1 unit x 1.00 = 1.00 EDUs
- **1 Condominium**  
EDUs = 1 unit x 0.70 = 0.70 EDUs
- **10-unit Apartment Complex**  
EDUs = 10 units x 0.70 = 7.00 EDUs
- **½-acre Commercial Property**  
EDUs = 0.50 acres x 15.00 = 7.50 EDUs

The total assessment for each parcel in the District is based on the calculated EDUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EDUs} \times \text{Unit Assessment Rate}$$

Based on the above methodology, the apportionment factors, EDUs, unit assessment rates, and total assessment calculated for each parcel can be found in the Assessment Roll (**Exhibit C**).

---

## Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.
