

Tissue Paper Flower

Supplies needed:

3 Tissue Papers, 8 inch by 6 inch

Green Pipe cleaner

Scissors

Instruction:

- Stack 3 tissue papers, fold it approximately 1 inch, flip the stack, fold again in accordion style.
- Wrap around pipe cleaner in the middle of the folded papers, then twist and secure.
- Cut both ends of folded papers rounded so that it'll look like petals.
- Separate each tissue carefully, and shape the flower as you like.

You can use bigger papers for a bigger flower, also you can use more papers than 3 sheets for more full petals. Be creative when cutting both ends of folded paper, v or w shape gives petals different look! Have fun!!
