

How -To Make a Garden Suncatcher

Supplies:	Optional Embellishments:
Old CDs or DVDs	Beads
White glue	Gemstones
Markers (permanent)	Sequins
Yarn or string	Buttons
Scissors	Stickers

1. If you have more than one CD, glue them together label to label with the shiny sides facing out. (Let dry for 30 minutes)
2. Decorate with permanent markers any way you choose. Don't have markers? You can use paint pens, stickers, glue on gemstones, sequins, buttons, etc.

F.Y.I. – If using markers with kids, be prepared for messy hands!

3. Figure out how long you want it to hang, then double that amount. Cut yarn or string & feed through CD's hole and tie a knot.
4. Add beads, if available, by taping the ends of yarn together for easy threading.
5. Tie a square knot at both ends & trim off excess yarn.
6. Hang up outside & enjoy your beautiful suncatcher!
