2020 San Diego Fall Classic Regatta Information

Introduction

Thank you for being a part of this year's San Diego Fall Classic. A few years ago there were many changes to the race, including a new course, launching and landing area, and we have moved it from Ski Beach to Crown Point. Trailer parking, boat storage, and warm up pattern also changed. We have made these changes to incorporate the finish line of the San Diego Crew Classic. This is a great chance for your team to have its first look and get comfortable with Mission Bay and what is to come with the Crew Classic in April 2020.

Practice Saturday

Trailers will be allowed to park and unload beginning at Noon on Saturday. Parking on Friday night is at your own risk. Practicing is allowed from 3pm till dusk. Please be aware that we cannot control recreational motor boat traffic, so Mission Bay may be bumpy. The west bay and Sea World Channel are typically calmer and protected from wakes. Saturday Practice will adhere to the normal Traffic Pattern following the Right-Hand Rule, making sure to keep the shore to the coxswains right and the centerline buoys to the left. (Note: The traffic pattern on Race Day will be posted at the Crown Point Gazebo and will be in every race packet.

Schedule Updating

Depending on the number of entries received, the schedule could change to account for that. The Final Schedule will be posted and sent out to everyone a couple days before hand once registration is closed.

Results and Awards

Results will be posted online at crewtimer.com.

First place medals will be awarded to the winning crews in each event as long as there are 2 entries.

Second place medals will be awarded if there are 3 or more entries.

Third place medals will be awarded if there are 4 or more entries.

Boat Storage

Boats being stored at Crown Point Park can be stored on the grassy area north of the finish line, just like the Crew Classic.

Launching/Returning

Crews launching from Crown Point should plan on launching 30+ minutes before their race. Launching will take place on the beach, there is no dock. Make sure to put the boat in deep enough water so you do not lose your skag. Launching will take place at the north end of the shore while landing will take place on the southern part of the shore, just past the finish line. There may be hoses to wash your boats, please use the water sparingly. Security will be provided by SDRC on Saturday night before the race only.

Bow Balls and Competitor Numbers

No shell may be launched without a bow ball. At registration, each race entry will be given competitor number bib and safety pins to be attached to back of coxswain and bow seat, and a bow number card for the shell. Make sure your bow number is right side up and not upside down. Heel ties will be checked as well before launching. They'll be checked the day before or the day of by volunteers walking around.

Please keep your bow number, enjoy!

Parking (Trailer/Buses/Spectators)

Trailers parking in the dirt lot next to the northern most parking lot and is free for team trailers. The parking lot closest to the trailer will be for Busses and team vehicles only. **There are two parking lots for passenger vehicles at a cost of \$10 on race day per vehicle. Team vans will get parking passes if they register.**

Competitor and Spectator Parking

The northern parking lots, by the trailers are for buses, vans, and other athlete vehicles.
