City of San Diego Police Department

Prisoner Processing

The San Diego Police Department supports the fundamental right of all people to peaceably assemble and their right of free speech. At no time should a group or individual interpret this support of a constitutional right as permission to threaten violence, commit assaults or engage in criminal acts. In those cases, this Department will act swiftly and with resolve to protect human life, property and maintain peace.

Portions of this document are deemed by the San Diego Police Department to be records of security procedures and are exempt from disclosure under the California Public Records Act (CPRA), Government Code Section 6254 (f).

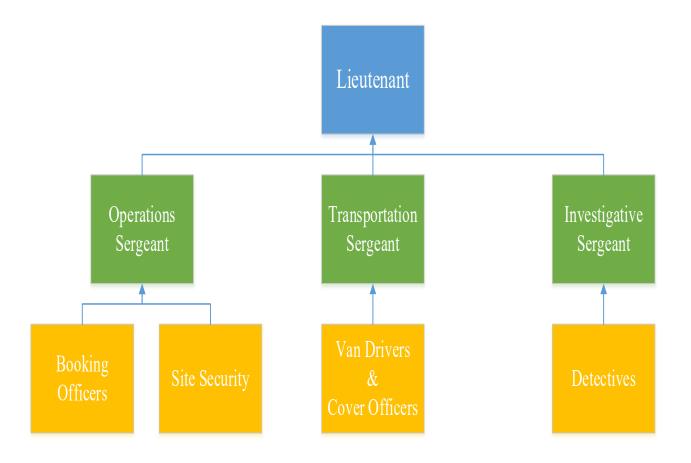

TABLE OF CONTENTS

This Prisoner Processing Operations Manual is intended to provide all personnel of the San Diego Police Department with information that is easy to retrieve and valuable in an event where mass arrests are anticipated. This guide is not a complete listing of all information or sources.

Mobile Field Force deployments are utilized, at the discretion of the Incident Commander, to assemble a set number of officers in an expedited, organized manner. During incidents of civil unrest or events where mass arrests are anticipated, the Prisoner Processing Unit can be activated to handle prisoner transport, booking process, and jail intake. When the Incident Commander deems the number of arrests to be a significant number, the San Diego Sheriff's Mobile Booking Team can be activated to assist in streamlining the jail intake process.

(Deleted – records of security)

DEMOBILIZATION

Once all prisoners have been transferred to SDSO custody,

Once all paperwork has been completed,

Once equipment has been returned to CIMU and Special Event Operations,

After consulting with the Incident Commander, the Prisoner Processing Lieutenant can shut down Prisoner Processing.

All data captured regarding arrests will be sent to the Department Operations Center and/or Command Post prior to closing down Prisoner Processing.
