

CONSTRUCTION NOTICE:

Underground Utility Work Scheduled for Morena Pipelines Northern Alignment and Tunnels

Aug. 17, 2021

Beginning **Wednesday, Aug. 18**, the City of San Diego will be conducting nighttime work in your neighborhood as part of the Morena Pipelines Northern Alignment and Tunnels project. The work will provide the City's team with important information about the location and depth of existing utilities in the public right-of-way.

What To Expect: The City's Contractor will conduct underground utility location work with phased completion on Executive Drive. The work at each site will take several hours, and no full road closures or detours will occur as part of this work. Traffic control, like signage and cones, will be in place to direct traffic around the active work areas.

In select cases where underground location work is scheduled near a driveway, the crews will accommodate all necessary driveway access. A small test hole at each site will be backfilled and patched immediately, and only a small patch will be evident following the work.

When: Work is scheduled from 9 p.m. to 5 a.m. from Sunday to Friday morning. It will begin at Executive Drive and end on the cul-de-sac at the end of Executive Drive on Wednesday, Aug. 18, and is expected to be complete over the next one-to-two weeks.

Why: Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. The Pure Water San Diego Program will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply. The new Morena Pipelines Northern Alignment and Tunnels project is one of several major water infrastructure projects in Phase 1 of Pure Water San Diego.

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on utc.purewatersd.org. Please contact purewatersd@sandiego.gov or **833-UTC-PWSD (833-882-7973)** with questions about the City's Pure Water Program and the Morena Pipelines Northern Alignment and Tunnels project, and a team member will get back to you within one business day.
