RE: Support for Community Choice Energy (CCE)

Dear Mayor Faulconer and Council,

Thank you for taking a leading role in addressing climate change and moving our city toward a 100% clean energy future.

We believe that Community Choice Energy is one of the key strategies for achieving our Climate Action Plan goals. A CCE choice gives San Diego families local control over our energy future, helps stabilize or reduce our rates, and provides us with the freedom to choose the source of our electricity.

We are particularly interested in the opportunity for a local community choice program to buy increasing amounts of power from local sources, supporting local jobs and local economic development.

We recommend that the City join California's 70+ cities and nine counties in the movement for cleaner energy, cleaner jobs, and local choice through community choice energy.

Thank you for supporting the freedom of energy choice for San Diego.

Sincerely,

Jim Baross, Chair, Normal Heights Community Planning Group
