* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The Georgia Street & University Avenue Bridge is a reinforced concrete bridge that is 28' high, has a span of 65' and a 30' wide deck. The deck is supported by a single span of three parallel bow arches. Ten bents, at five feet intervals with arches in between, support the deck above the three main arches. Two arches, running perpendicular to the bridge, link the three main arches together at each bent. The bridge spans University Avenue between two 670' long retaining walls with decorative arched pilasters at ten feet intervals. The bridge was designed by architect JR Comly and constructed by Edward T. Hale

The Georgia Street Bridge, designated as a Historical Landmark in September 1994 (#325), was built in 1914 by the City of San Diego as a public works project. JR Comly designed the bridge under the supervision of WM Rumser, the City Engineer. The Mission Revival style of this bridge was popular in the early part of this century. It was part of an architectural trend at that time of using traditional forms and styles from the past. This trend was particularly popular in public buildings and projects because of the sense of order and planning they represented from earlier periods in history. It is in Good-to-Fair condition. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Minimal Traditional style and features a hipped roof, a recessed entry porch with wrought iron support, and textured stucco exterior. The original wood windows have been updated with 12-over-12 double-hung windows. An attached one car garage is on the west side of the façade and appears to be a later addition to the house. It is in Fair-to-Poor condition. The total usable floor area is 803 square feet. The house features 2 bedrooms and 1 bathroom. The total lot area is 1,799 square feet. Non-Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the California Bungalow style and features a cross-gabled roof with triangular brackets, a front-gabled entry porch, and wood-shingle exterior. The wooden fence surrounding the front yard makes it difficult to see additional façade details. It is in Unknown condition. The total usable floor area is 1,820 square feet. The house features 2 bedrooms and 2 bathrooms. The total lot area is 4,861 square feet. Non-Contributing.

A one-story building (1956 per MetroScan) is located at the rear of the parcel.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Utilitarian style and features a flat roof with minimal ornamentation at the cornice level and brick exterior. The first floor contains commercial storefronts, most of which have been modified over time. The entry to the corner storefront is angled to face the street corner. The second floor contains a series of single, double-hung windows with arched brick surrounds. The Cadillac Apartments and retail building has been identified as a Historically Significant Structure per the North Park Main Street and community. This building was also identified as "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total usable floor area is 23,537 square feet. The total lot area is 12,502 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the One-Part Commercial style and features a flat roof and stucco-clad exterior. The eastern portion of the building appears to be more intact and includes three storefronts with a recessed entry originally flanked by display windows; a number of these window have been updated or enclosed by stucco. The western portion of the building appears to have been substantially modified over time by window and façade alterations. This building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office. It is in Fair-to-Poor condition. The total usable floor area is 5,135 square feet. The total lot area is 6,251 square feet. Non-Contributing.

Based on the listings in the 1930 City Directory, two of the stores were vacant and another was occupied by a shoe repair shop.

This two-story building was designed in the Spanish Colonial Revival style and features a mix of commercial storefront on the first floor and residential units on the second floor. The building was designed in three sections, each with unique detailing and topped by a red tile roof. The eastern section is a simple, one-and-a-half story building with hipped roof. The middle building, with a recessed storefront entry and covered storefront window, has vertical windows with a series of block canales above in the second floor. The western section has a second-story porch with three arched openings above the storefront. The Carter Store building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total lot area is 3,999 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Colonial Revival style and features a cross-gabled roof and stucco-clad exterior. The façade includes two entries, each with a security door. The entry on the north side of the façade is slightly recessed with a fluted pilaster surround. The front-gabled entryway with wood siding is more centrally located. A double-hung wood window with shutters is between the entries and a three-part bay with double-hung wood windows and brick veneer below sill level is to the left of the gabled entry. It is in Fair condition. The total usable floor area is 1,620 square feet. The house features 2 bedrooms and 2 bathrooms. The total lot area is 6,251 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story commercial building is an addition onto a circa 1920 residence; it appears to date to the 1940s. The building features a flat roof, large single- and multi-pane windows with security bars, and vertical wood siding with brick veneer below sill level. The rear portion of the building has also been modified over time and features a flat roof and vertical wood siding. It is in Fair-to-Poor condition. The total usable floor area is 3,210 square feet. The total lot area is 3,049 square feet. Non-Contributing.

Per the 1930 City Directory, this building was occupied by San Diego School of Expression.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The Plymouth Congregational Church complex contains four buildings, the oldest of which is Barbour Fellowship Hall which is located on the corner of University Avenue and Pershing Avenue. Named for Reverend Barbour and constructed in 1956, the simple, stucco clad hall features an entry door off of University with a small, cantilevered porch and a large multi-paned windows on the east elevation. Although Barbour Hall does not appear to be architecturally significant, the Plymouth Congregational Church was founded in 1912 and the complex may have historical significance. The other buildings within the church complex include the sanctuary (1978), an educational building (1969) and a non-contributing apartment building.

This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair-to-Poor condition. The total lot area is 18,748 square feet. Non-Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This parcel contains three, one-story residences. The main residence, designed in the Craftsman style, is located on Pershing Avenue and features a cross-gabled roof with triangular brackets, a front-gabled entry porch with short tapered columns on cobblestone piers, and wood sided exterior. A three-part wood window with multi-pane center section flanked by double-hung windows is to the left of the entry porch. It is in Good condition. The total usable floor area is 2,605 square feet. The house features 7 bedrooms and 3 bathrooms. The total lot area is 6,251 square feet. Contributing.

Two California Bungalows are located toward the rear of the parcel along Wightman Street. The similar buildings are sited in an L shape configuration and feature a side-gabled roof, a front-gabled entry hood with triangular brackets, and wood-sided exterior. Windows include single and paired, double-hung wood windows with multi-pane upper sash. Security bars have been installed over the windows and entry. A cobblestone retaining wall is located along the sidewalk. The buildings are in Good-to-Fair condition.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The Masonic Temple, a three-story, rectangular building designed in the Art Deco style, features a flat roof with a multi-layered corbelled parapet at the west elevation of the building. A central tower set flush with the front (Utah Street) facade rises approximately one story above the roofline. Windows in the auditorium portion of the building (east end) are tall and multi-paned. The main entry is recessed and elevated above grade. Four steps with two iron railings lead to the entry stoop. The wooden entry doors are original, and have frosted glass center panels. Two windows, one on either side of the stairs, are fixed variations on a triangular top, matching the shape of the entry. Ornamentation is varied, with vertical emphasis more pronounced than horizontal. Vertical bands rise from the first floor to the top of the parapet on the north facade and the northwest and southwest corners of the west facade. Three horizontal zigzag bands are inset in panels directly above the first and second floor windows. An organic ornamental mason's insignia is above the entrance. An original neon Masons sign sits on the northwest corner. The Masonic Lodge has been identified as a historically significant building to the University Avenue Commercial Corridor by the North Park Main Street office and community. It is in Good condition. The total usable floor area is 16,000 square feet. The total lot area is 5,001 square feet. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the California Bungalow style and features a clipped, front-gabled roof and wood-sided exterior. A three-part, multi-pane wood bay window is centered in the street-front elevation. The entry is along the east elevation. It appears that this building has been modified from the original by the removal of the original central entry and porch and its replacement with the bay window. It is in Fair-to-Poor condition. The total usable floor area is 632 square feet. The house features 1 bedroom and 1 bathroom. The total lot area is 1,350 square feet. Non-Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story commercial building was designed in the Moderne style and is rectangular with curved corners and flat roof. Windows are original, second floor windows on the west facade are single sash double-hung with smaller single sash double hung windows level with the top of the larger windows. Four French doors, two at each end of the west facade opened up on to balconies (which have been removed). At the northwest corner of the second floor is a curving double hung window. On the first floor west facade are four fixed, single sash windows and four double hung windows. Two entry doors and two double-hung single sash windows are towards the south end of the west facade. The most distinctive feature is the storefront along the north and part of the west facades. It is tiles with burgundy glazed tile. An awning runs above the entire storefront with letters atop spelling out "Glenn's Market." A curved glass block wall is on the northwest corner. Vertical ornamental bands decorate the north and west facades.

The building is North Park's oldest operating grocery, with Glenn's Market the oldest continuous grocery store in North Park. The building also features eight apartment units on the second floor. Glenn's Market has been identified as a historically significant structure in the University Avenue Commercial Corridor by the North Park Main Street and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Based Register" by the

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The Granada (McColl) Building is a two-story commercial Mission Revival style structure with a stepped parapeted flat roof. A brick veneer covers its structural tile construction walls. A decorative brick string runs under the entire parapet. A brick water course separates the first and second floors. Large ground floor store front windows denote the commercial level. The main entrance door facing University Avenue has been altered to a glass door with rectangular glass transom. A slightly recessed marble veneered second entry, at the eastern corner facing University Ave, leads to the second floor. A wide band of ceramic tile has replaced the original decorative tiles along the spandrel. Other alterations include: aluminum frame windows on both stories, two large billboards on the roof and a commercial sign over the corner entrance. An original electric street light stands in front of the main entrance on the corner of University and Granada Avenues.

The McColl Building has been identified as a historically significant structure in the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total lot area is 5,001 square feet. Individually Significant.

This one-story building was designed in the Chinese style and features an Asian theme façade with a central entry and flat roof. Although the storefront was added in the 1960s, the building is important to the business district and community. The Pekin Café has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street and community. It is in Good-to-Fair condition. The total usable floor area is 3,700 square feet. The total lot area is 5,001 square feet. Contributing.

The Pabco Paint Store is listed as the building tenant in the 1930 City Directory.

This two-story building was designed in the Commercial Brick style and features a flat roof with pillars and bricked points at the top and corners of the building and brick exterior. The first floor contains somewhat modified storefronts and entries and the second floor a series of windows, updated from double-hung to fixed windows, and a fire escape. An entry to the second floor is located at the north end of the front façade. The Stern's Gym building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total usable floor area is 9,500 square feet. The total lot area is 5,001 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The facade of the North Park Theater was designated a San Diego Historical Landmark (#245) in April 1990. The theater is a two-story building with flat roof and symmetrical facade divided into five bays by pilasters; a wide, horizontal band of plaster ornamentation divides the first and second floor. The first story of the center section contains the theater entry with four windows. The original marquee has been replaced. The storefronts within the bays flanking the central section have been modified over time and are partially boarded due to the on-going renovation of the theater. The windows above the storefronts have also been modified from the original metal casement windows.

The North Park Theater was the first theater out of the downtown area that offered a legitimate stage with fly-loft for scenery, dressing rooms for vaudeville performers and modern sound equipment for the new "talkies" in cinema. The Klicka brothers purchased the lot in 1928 and the architects selected to design the building were the Quayle Brothers, a notable San Diego architectural firm in the 1920s. It is in Fair-to-Poor condition. The total usable floor area is 27,150 square feet. The total lot area is 20,003 square feet. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Mission Revival style and features a flat roof with parapet and stucco-clad exterior with stone veneer around the storefront windows. A flat canopy has been added over the plate-glass storefront windows and wraps around the southeast corner of the building. The Ideal Grocers building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total usable floor area is 5,000 square feet. The total lot area is 5,001 square feet. Contributing.

George B. Wittman, president of the Ideal Grocers Association, opened this grocery in 1927; his family's home was next door. Charles Williams was also responsible for the construction of the building that joined the Wittman store at the rear and faced 30th Street. 3801 30th Street was built in 1926 for the Wig Wag grocery store.

453-131-04

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Craftsman style and features a side-gabled roof, a front-gabled entry porch with triangular brackets and tapered columns, and wood-sided exterior. The entry porch has been enclosed by a central entry with security door flanked by multi-pane wood windows. Only a portion of the three-part wood window to the left of the original entry is visible due to the porch modifications. It is in Fair condition. The total usable floor area is 1,333 square feet. The house features 2 bedrooms and 2 bathrooms. The total lot area is 5,001 square feet. Contributing.

A one-story building is located at the rear of the parcel.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Spanish Colonial Revival style and features three main stucco and wood pilings on the main façade, with plate glass show windows. Above those are smaller windows covered by awnings. The main entrance to the business is at the juncture of the two streets. The Home Supply Company building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street and community. This building has also been identified as "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total usable floor area is 3,500 square feet. The total lot area is 5,001 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Art Deco style and features a flat roof and a rippled Deco style roofline on the main façade. The façade is divided into two bays by pilasters with arrow-shaped ends at the roofline. The windows at street level contain diamond-shaped panes of varying sizes; those on Thirtieth Street are covered by metal awnings. Originally the A&P Building, this building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total usable floor area is 4,800 square feet. The total lot area is 5,001 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Moderne style and features a flat roof with stepped parapet and stucco-clad exterior. The northeast corner of the building is curved. The updated storefront windows are topped by large, multi-pane transom windows; a flat-roof canopy is located between the windows. Similar, multi-pane windows are located on the east elevation. The name of the current business is painted in the parapet. This building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. It is in Fair condition. The total usable floor area is 4,500 square feet. The total lot area is 8,999 square feet. Contributing.

This building was constructed for the Piggly Wiggly grocery store. Dudley D. Williams opened the first Piggly Wiggly branch in North Park at 3829 30th Street in 1922 and was responsible for the construction of this store.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story rectangular stuccoed wood-frame building was designed in the Mission Revival style. It features a steeple at the southwest corner topped by a flared pyramidal roof with overhanging eaves supported by scrolled brackets. The steeple's base is slightly flared and has a concrete stoop leading to the Gothic arch doorway. Above the door is a vent. The street facade is topped by an espadana and pierced by twin double-hung gothic windows. The south facade has rectangular double-hung windows and three small gothic windows near the back. The north facade has three gothic double-hung windows and a rectangular protruding bay that has a similar gothic window. The building rests on a concrete foundation and has a center gabled composition shingle. This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total lot area is 19,959 square feet. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This parcel contains three buildings, each with similar materials and detailing. The two, side-by-side one-story buildings facing Gunn Street were designed in the California Bungalow style and feature a side-gable roof with exposed rafters, wood siding and a central entry flanked by multi-paned windows. One of the two buildings, each in good-to-fair condition, has two large trees in front of each window. The third, two-story building is located toward the rear of the parcel and faces 30th Street. It is in Good-to-Fair condition. The total lot area is 19,959 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Italian Renaissance style and features a rectangular plan with a hipped roof topped by a gabled dormer vent. The two floors are similar in nature and contain individual and three-part double-hung windows. A stuccoed roof with V-shape supports covers the central entry which is reached by steps contained within a stepped retaining wall topped by posts topped with small sculpted ornaments. The building requires general maintenance. This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total usable floor area is 4,260 square feet. The house features 10 bedrooms and 6 bathrooms. The total lot area is 5,001 square feet. Individually Significant.

An attached, one-story Mission Revival style building is located at the rear of the parcel facing Landis Street (2920-2924).

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Mission Revival style and features a flat roof, a bell tower that extends above the roofline with a hipped roof, a red-tile shed roof over the one-story sections of the building, and stucco-clad exterior. Originally listed as the 1st Advent Christian Church on the 1920 Sanborn Fire Insurance Map, it appears that this church has continued to grow and change over time. It is now the North Park Community Church. It is in Fair condition. The total lot area is 14,985 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This parcel contains two, L-shaped buildings designed in the Modern Transitional style. The mirror-image buildings are sited around a central courtyard and feature a cross-gabled roof that extends out over the second-floor walkway, three-part metal windows, and stucco-clad exterior with vertical wood siding on the street-facing elevation. Two stairs provide access to the second-floor units: a dogleg stair towards the front of the parcel and a single-run stair oriented on the diagonal to the intersection of the building wings. It is in Fair condition. The total usable floor area is 14,600 square feet. The total lot area is 6,260 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story commercial building, historically known as the Nordberg Building, was designed in the Mission Revival style features a flat roof interrupted by a central tower on the north-facing elevation. The tower contains a three-part window with multi-pane clerestory surrounded by a plaster frame on the second story topped by decorative plasterwork; a bracketed cornice tops the tower with a Mission style parapet above. The first floor storefronts have been modified over time and the second story, clad with stucco, features paired, double hung windows. Originally, the first floor contained a grocery store and the second floor the North Park Ballroom. The building was later used by the USO during WWII for social gatherings and Bachelor Officers Quarters for Naval Officers. The building was also the location of the second North Park branch library.

The Nordberg Building has been identified as a historically significant building to the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total usable floor area is 21,000 square feet. The total lot area is 8,499 square feet. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This three-story building was designed in the Modern style and features a flat roof and stucco-clad exterior. The building includes a number of horizontal design elements. A flat canopy is located over the updated storefront which spans the ground floor of the building. A contiguous band of windows spans the center section of the second floor. Five square details, centered on the buildings façade, are located below the roofline. The Penny's / Pick 'n' Save Building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. It is in Fair condition. The total usable floor area is 39,406 square feet. The total lot area is 11,008 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Moderne style and features a flat roof with rectangular vents above the second-story windows and stucco-clad exterior. The first floor storefronts are topped by a shallow overhang with curved ends with a wide band; the second story contains three-part windows in the center of the façade and paired windows at each corner, all but one of which have been modified from the original double-hung windows to aluminum sliders. Originally the Howell's Plumbing building and later the third North Park Branch Library, this building has been identified as a contributing building to the University Avenue Commercial Corridor by the North Park Main Street office and community. This building was also identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Fair condition. The total usable floor area is 4,825 square feet. The total lot area is 5,001 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This one-story building was designed in the Mission Revival style and features a flat tile roof and textured stucco. There is an entry on North Park Way, but the address is on Grim Street. The main façade facing North Park Way features stuccoed cobblestone, a fireplace flush with the wall flanked by double-hung, 4-over-1 wood windows; a three-part 4-over-1 double-hung window and small, multi-pane window is to the right of the chimney. A number of canales appear along the roof line and above the bay. The bay has a low hipped roof. Along the ground level are a series of air vents. This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good-to-Fair condition. The total usable floor area is 1,212 square feet. The house features 2 bedrooms and 1 bathroom. The total lot area is 3,999 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This parcel contains two, side-by-side one-story Mission Revival style buildings each with a flat roof and stucco-clad exterior. The building on the north side of the parcel also include a red-tile shed-roof entry and a three-part wood window with single-pane center section flanked by multi-pane windows. The building on the south side of the parcel includes a double-hung wood window on either side of the central entry. Metal awnings have been installed over the entries and the three-part wood window. It is in Good-to-Fair condition. The total usable floor area is 1,358 square feet. The total lot area is 5,001 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Craftsman style and features a front-gabled roof, a front-gabled entry porch with square columns on piers, and updated siding. A paired, double-hung wood window with multi-pane upper sash is located on either side of the central entry. The square, second floor portion of the building with front-gabled roof is located toward the rear of the building and includes similar double-hung wood windows. Stone veneer has been added to the chimney and porch piers. It is in Good-to-Fair condition. The total usable floor area is 2,098 square feet. The house features 5 bedrooms and 4 bathrooms. The total lot area is 6,273 square feet. Contributing.

A one-story building is located at the rear of the parcel.

This parcel includes two, two-story buildings designed in the Spanish Colonial Revival style. One building is located on Georgia Street and the other wraps around the corner onto Cypress Street. The Georgia Street building features a flat roof with red-tile details, a red-tile shed-roof entry porch with arched opening, single and paired double-hung wood windows, and stucco-clad exterior. The Cypress Avenue building features a combination flat roof and red-tile hipped roof, red-tile shed-roof entry porches with arched openings on the Florida Street elevation and red-tile shed-roof entry hoods along the Cypress Avenue elevation, single and paired double-hung wood windows, and stucco-clad exterior. The units along Cypress Avenue follow the downward slope of the parcel. It is in Good-to-Fair condition. Contributing.

This parcel contains three, one-story buildings: two street-facing buildings and a third located at the rear of the parcel. A California Bungalow style residence is located at the NW corner of the parcel and is the most prominent from the street. The building features a front-gabled roof, a shed-roof side addition with wood windows, a modified entry porch, and wood-sided exterior; it is in fair condition. A Mission Revival style residence is located in the middle of the southern half of the parcel and is somewhat set back from the street. The building features a flat roof, modified facade with central entry, and updated wood-sided exterior; it is in fair to poor condition. It is in Fair condition. The total usable floor area is 2,383 square feet. The house features 4 bedrooms and 4 bathrooms. The total lot area is 6,747 square feet. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This two-story building was designed in the Spanish Renaissance style and features a two-story convent with an attached, one-story classroom building. The convent includes a combination red-tile hipped and side-gabled roof, a recessed entry porch, single and three-part multi-pane metal casement windows, and stucco-clad exterior. The one-story section extends to the rear of the parcel along Ray Street and includes a red-tile gabled roof, large multi-pane windows, and stucco-clad exterior. This building is part of the St. Patrick's Catholic Church and School complex. It is in Good condition. Contributing.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This Spanish Renaissance style stucco church's design is influenced by Lombardic detailing. An imposing western portico facing 30th street has a rising gabled facade with a recessed rose window. The window is supported by a blind arcade over the solid wood paneled door's lintel. On either side of the entry, and at the apex of the gabled facade are embossed concrete coat-of-arms of the church's Augustinian order. The frieze above the lintel contains relief images of Augustinian saints. The gabled red tile roof behind the raised facade recently replaced by a metal one. An assembly hall building designed in a similar Spanish Colonial Revival style is attached to the rear of the church. To the south of the church building is the church's two-story Craftsman style

This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good condition. Individually Significant.

* P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This 2-1/2 story Craftsman style building has a pitched gable roof with non-boxed eaves supported by solid brackets. A second story, slightly curved bay at the southwest corner has a band of three fixed-sash windows with transoms flanked by double-hung windows at each end. The second floor is covered with shingle siding while the first floor siding is of stucco. A narrow shingled eave running around the building separated the floors. A gabled front porch roof with a vertical slot vent in the tympanum is supported by one freestanding and one attached concrete pier. A red concrete sidewalk leads to the red concrete porch. On the south side of the first floor is a slightly curved bay similar to the one on the second floor. Next to it, towards the rear, is a trapezoidal bay with a double-hung window on each side. On the north side is a central two-story bay with a double-hung window on each side. Shed roof overhangs supported by braces cover three-step stoops with wood railings that lead to side entry doors. There is a gabled roof over the first window at the northwest corner of the second story.

This building was identified as a "potentially eligible for nomination to the San Diego Historical Site Board Register" by the North Park Redevelopment Project. It is in Good condition. Individually Significant.
