Looking Ahead: Additional Traffic Control; Upcoming Work Near Clairemont Village Shopping Center

Current schedules project that additional traffic control will be set up on Clairemont Drive, between the Chateau Vue Apartments (2920 Clairemont Drive) and Burgener Blvd., starting the night of Sunday, August 6. After the traffic control is set up, crews will continue with pipeline installation in the roadway.

Work at the intersection of Burgener Blvd. and Clairemont Drive will occur primarily at night in order to reduce the impacts to nearby businesses. However, the traffic control elements (concrete barriers, traffic cones, signage, etc.) will remain in place 24/7. Driveways to businesses and residences within the work zone will remain accessible throughout the work.

We're estimating by mid-August crews will move further east and set up traffic control between Burgener Blvd. and Iroquois Ave., in front of Clairemont Village Shopping Center. Work through this area will occur at night to reduce impacts to the nearby businesses.

As work progresses, crews will continue to move east up Clairemont Drive and the traffic control will move along with them. For your safety and the safety of the crews, please follow all posted signage when you're in the work zone. Bus stops located within the work zone will be temporarily relocated as-needed.

Within the work zone, please expect noise, dust, and construction equipment to be staged.

Night work hours will be from 9 p.m. to 5 a.m.

Construction notices are posted on morena.purewatersd.org. Please contact purewatersd@sandiego.gov or **833-MOR-PWSD (833-667-7973)** with questions about the City's Pure Water Program and/or the Morena Conveyance South & Middle and Conveyance Bike Lanes project, and a team member will get back to you within one business day.

Visit the project website for more information

Safety of the construction crews and community is our top priority. Please slow down near work sites and follow pedestrian instructions.

About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.

Phase 1 includes several projects that will clean recycled water to produce 30 million gallons per day (mgd) of high-quality purified water, reducing the City of San Diego's dependence on imported water.
