- E. Jeffrey Ryan, Planning Department, (619)235-5221 JTRyan@sandiego.gov
- F. Chris Gris, Hon. Chris Ward, State Assemblymember, Christopher.gris@asm.ca.gov

V. Action / Informational Items (7:00-8:00 p.m.)

- A. Draft letter #1 from Urban Design Project Review Subcommittee. Presentation by Mark Spitzer, UDPR Chair. Item was discussed at the January 2, 2023 UDPR Subcommittee meeting:

To: Mayor Todd Gloria, San Diego Planning Department, Jeff Ryan, Councilman Stephen Whitburn

The North Park Planning Committee hereby states our significant concerns regarding the building of multifamily buildings with little or no parking spaces. We are asking the City of San Diego to take steps to lessen the impact of these and future residential buildings on our community. Our Concerns are:

- 1) *Inadequate parking on streets for residents, visitors, and businesses.*
- 2) *Increased traffic congestion.*
- 3) *Inadequate mass transit for those without cars.*
- 4) *Safety, particularly for those who come home from work late at night and cannot park near their homes.*
- 5) *Arguments between people fighting over parking spaces.*
- 6) *Aggravation and tension for those who can't find parking near their homes or the businesses they wish to patronize.*
- 7) *Negative effects on businesses which are dependent on street parking for a significant part of their clientele. We are already seeing businesses closing and a reduction in the overall variety of businesses.*
- 8) *Quality of life in high rise complexes which offer little in the way of balconies, yard space, or landscaping.*

*The result is an overall lowering of the quality of life for many North Park residents. We ask that you seriously consider how **your life** would be effected if you could not park close to the businesses you frequent, if you and your guests could not park close to your homes, if your streets were significantly more congested, and the effect on you of the aggravation of all of this.*

- B. Draft Letter #2 from Urban Design Project Review Subcommittee. Presentation by Mark Spitzer, UDPR Chair. Item was discussed at January 2, 2023 UDPR Subcommittee meeting.

To: The City of San Diego Planning Department and the Development Services Department

The NPPC hereby asks the City of San Diego to give us data on the buildings that have been constructed in the last several years which have less than one parking space per unit. We need to know the address, the number of units, and the number of onsite parking spaces for each building.

We also need to know in each building the number of deed restricted affordable units, the number of bedrooms per unit, the terms governing the affordability, and the current maximum rents that can be charged for each deed restricted affordable unit.

- C. Draft Letter #3 from Urban Design Project Review Subcommittee Presentation by Mark Spitzer, UDPR Chair. Item was discussed at the January 2, 2023 UDPR Subcommittee meeting.

To: City of San Diego Planning Department

The NPPC hereby asks the Planning Department or other suitable San Diego City agency to conduct a survey of the buildings built in the last several years which have less than one on-site parking space per unit to determine the number of cars owned by residents of these buildings and the number of on-site spaces available. Surveying a representative sample of these buildings would also be acceptable.

- D. Action: Proposed 4-way stop at Bancroft & Redwood and a 4-way stop at 33rd & Thorn Street. Presentation by Terrance Morrissey. Additional information can be found at <https://www.altadenasd.com/traffic-calming>
- E. Informational: Angle Parking Notice for Louisiana Street (Polk Av - Lincoln Av). Presenter Genoveva Romero-Marquez
