§131.0701 Purpose and Intent

The purpose of the mixed-use zones is to provide housing and jobs near commercial centers and corridors to reduce dependency on the automobile, to promote access to transit and multi-model transportation systems, and to provide for a walkable, pedestrian-oriented setting, including infill of existing development. The intent of these regulations is to create a mix of uses and provide distinct regulations for density, activation, and articulation that encourages pedestrian activity within transit priority areas Sustainable Development Areas.

These zones are intended to accommodate small to large-scale horizontal or vertical mixed-use development, while maintaining connectivity to transit and promoting the livability and vitality of the development.
